All-America Selections for 1942

Phlox, Red Glory

PHLOX, Red Glory

All-America Award

Here is the richest bright red, with contrasting white cye, of the same giant flowered type as Rosy Morn and Salmon Glorv, which were All-America Winners. Is a free continuous bloomer, tall, light foliaged, being very uniform and true. Pkt., 25c.

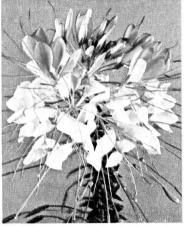

Cosmos, Yellow Flare

GIANT PINK QUEEN CLEOME A Gorgeous Spider Plant

All-America Award, 1942

This tall, beautiful, hardy annual plant is never out of bloom, with huge trusses of bright salmon-pink, of attractive appearance. As a cut flower it is delightful, combining well with lavender or blue. Branching freely, blooming from June until frost. It is free from insects and disease. Pink Queen is truly a great flower. Height, 3-4 feet. Pkt., 25c; ½ oz., 60c.

Cleome, Pink Oueen

Pearly Gates

All-America Award, 1942

BURPEE'S YELLOW FLARE COSMOS

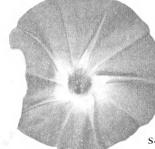

All-America Silver Medal for 1942

1473. The first and only Yellow Cosmos in cultivation, is very striking in color; flower 2 inches on 3-foot plants, making it an excellent garden flower. A continuous bloomer on long stems. We offer this only Yellow Cosmos, a very worth-while addition to the list of outstanding Cosmos, Pkt. 25c.

Now! Red, White and Blue Morning Glories

Scarlett O'Hara 1939 All-America Winner

Heavenly Blue

With the introduction of Morning Glory, Pearly Gates, a 1942 All-America Winner. we now have a very striking color combination of Red, White and Blue, all of which has approximately the same size bloom. Free blooming from early summer until late fall. Ideal for covering fences and trellises. Prices:

Scarlett O'Hara. Pkt. 10c; ¼ oz., 30c; oz., \$1.00.

Pearly Gates. Pkt., 25c; ½ oz., \$1.50. Heavenly Blue. Pkt., 15c;

Heavenly Blue. Pkt., 15c; 34 oz., 30c; oz., \$1.00.

We agree with the Civilian Defense Board of the U. S. Government that we set aside a plot of ground for growing vegetables for the family use. This is the main line of defense for the present period as well as for the future.

More knowledge of nutrition, more access to foods which are of real value to our children, will give us better citizens in the future. In having a garden you participate in the defense effort. It will mean not only immediate benefit, but long-range improvement in our standard of living.

To select flower seeds for your garden, see page 41.

Tie Your Plants With

¾WIST-EMS'

THE NEW HANDY PLANT-TIE

"Twist-ems" are dark green, strong tapes with wire reinforcing that make perfect plant ties. No twine or raffia or shears needed. For annuals, perennials, shrubs, vines and vegetables, excellent for arranging flowers. For nurseries, estates or amateur gardeners.

4-inch size—box of 250....25c 8-inch size—box of 125....25c 16-inch size—box of 125....50c

You have sold us good seed and are very prompt in shipping it to us.

Park Bros., Findlay, Ohio.

HOW TO ORDER

We do a strictly "cash with order" business. Any bank or trust company, or neighbor who has dealt with us, will assure you as to our responsibility.

Remit at our risk by Money Order, Draft or Check. C.O.D. 25% of the amount of the order must accompany all orders for goods to be shipped C.O.D.

Money Promptly Returned. If we are out of any seeds or bulbs wanted, we return the money sent for them without delay, unless permission is given on the order to substitute some other kind.

All prices subject to change.

Free Delivery

All vegetable seeds, flower seeds and bulbs offered in this catalog will be delivered to you prepaid in any quantity. Fertilizers and insecticides, tools and supplies are not prepaid.

Explanation of Certified Seed

Seed listed as "Certified" is produced from crops that were inspected and certified as to trueness to type and freedom from disease by the Agricultural Department of the state in which they were grown.

Attention!

With every order of \$2.00 received, we will give a Lancaster County Almanac free, when requested

I appreciate your prompt service, especially when it is necessary to replant.

Raymond Everhart, Cedar Rapids, Iowa.

CONDITIONS OF SALE. We guarantee safe delivery on all our shipments. Holmes Seed Co, has exercised all reasonable precautions in the production and distribution of the seed; but cannot be responsible for the operation of Nature's laws, nor govern the conditions under which the crop is grown. Therefore, upon the acceptance of this seed, it is mutually agreed that The Holmes Seed So, gives no warrant, capters or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, plants, or roots they send out, and they will not be responsible for the crop, and shall in no case be liable for more than the amount actually paid for the ered.

HOLMES' PETUNIAS

HOLLYWOOD STAR - All-America Award

1976. This charming new Petunia is a rich rose with a golden throat. Is unique in the form of its flower which consists of a five-pointed star. Being early and free blooming makes a wonderful garden Petunia. The strong plants are so smothered with blooms that hardly any foliage shows. There's nothing else like it. Pkt., 15c; 1/16 oz., 50c; 1/8 oz., 85c.

1977. You will be delighted with this new strain of Elk's Pride. Our tests have shown it superior to all others. The type is a true dwarf. In color it is a rich violet blue. The plants bear immense flowers all season long. Pkt., 15c; 1/64 oz., \$1.25; 1/32 oz., \$2.00.

SALMON SUPREME

All-America Winner

1964. The flowers when first opening are a rich coral-salmon, changing as they mature to a glistening soft salmon pink, forming a perfect 18-inch ball on the ground. It branches profusely is ideal for beds, borders or edgings. Height 12 inches. Pkt., 15c; 1/64 oz., 90c; 1/16 oz., \$1.50.

PETUNIA,

1979. Silver Medal Winner, All-America Selections for 1941.

FIRST

Beautiful, clear, light or blush-pink flowers, 21/2 inches across, are produced so profusely as to practically hide the foliage of the uniform, compact, bushy plants which grow about 1 foot tall. The dwarf, round, mound-like plants

are ideal for edgings to taller plants, beds, borders and pot culture. Pkt., 15c.

HEAVENLY BLUE

PURPLE KING

dwarf, compact plant. Pkt., 10c; 1/8 oz ..

1985. A good bedder is this single variety that flowers a deep violet on a

Petunia, Hollywood Star

1981. The silvery blue flowers of this variety have a beauty all their own. We offer an extra select strain. Pkt., 10c; 1/s oz., \$1.00.

SNOWBALL

1984. Ideal for plant-ing with other varieties, pure white single flowers literally cover this compact plant. Pkt., 10c; 16 oz., 50c.

CELESTIAL ROSE IMPROVED

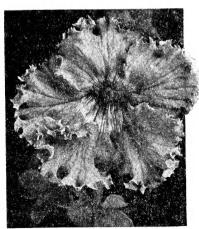

1989. Our customers have been very well pleased with our strain of this variety. An Improved Rose of Heaven, the single flowers are a rich, sparkling, satiny rose. Noted for its compact growth. Pkt., 10c; 1/8 oz.,

FRINGED THEODOSIA

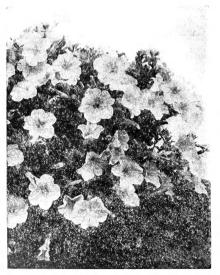

1954. You never saw a finer frilled pink Petunia. The flowers are large, beautiful, with open yellow throats. The color is a most attractive shade of bright salmon. Pkt., 25c.

DWARF RUFFLED MIXED

1988. A typical Martha Washington. The blooms are about 4 inches across, well ruffled, with open throats. A remarkable blend of striking colors to include many gay combinations. Exquisite coloring. Pkt., 15c.

Petunia Fringed Theodosia

Petunia, Celestial Rose Improved

Holmes' NOVELTIES and SPECIALTIES

Los Angeles Aster

LOS ANGELES ASTER

1155. A Super Giant. The flowers are huge, Chrysanthemum-like and a pure deep shell-pink. See page 43. Pkt., 15c.

ORNAMENTAL GOURDS

Small Sorts Mixed

Rapid growing annual climbers with ornamental foliage and interesting and odd-shaped fruit. It is becoming very popular to use the fruit for table decoration.

1654. Small Mixed. Pkt., 10c; ¼ oz., 15c; oz., 40c.

1652. Small Spoon. Pkt., 10c; ¼ oz., 20c; oz., 60c.

1650. Small Orange. Pkt., 10c; 1/4 oz., 25c; oz., 70c.

1649. Small Egg. Pkt., 10c; ¼ oz., 20c; oz., 60c.

1648. Small Bicolor. Pkt., 10c; 1/4 oz., 25c; oz., 70c.

1653. Small Warted. Pkt., 10c; 1/4 oz., 25c; oz., 70c.

Ornamental Gourds

For 1942

GLORIOUS GLEAM NASTURTIUMS

Double Hybrid Mixed, Dwarf, Double Sweet Scented

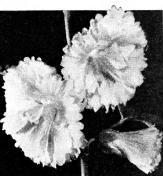

1903. Beautiful new colors. There are flowers of solid colors, uniform throughout, and others with showy markings of contrasting colors. All are sweetly perfumed, and measure three inches across. Long, stout stems carry the big double or semi-double flowers well above the foliage. At almost every flower show, Glorious Gleam Hybrids were given the highest award for this finest new, unusual flower.

Pkt., 10c; oz., 20c; 1/4 lb., 50c.

RUST-PROOF SNAPDRAGONS

Holmes' Super Majestic Giant

1118. Practically all of the standard Snapdragon types may now be had in rust-resistant or rust-proof strains, and new types have even been developed. One of these is our Super Majestic type, an improved form of the very popular Majestic Snapdragons. Spikes are very long, especially fine for the florist trade as well as the home gardener, and the individual florets are extra large. Many very lovely colors are available in this rust-resistant type. Pkt., 15c; 36 oz., 60c; 34 oz., 51.00.

Hollyhock, Indian Spring

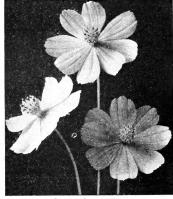

TWO NEW FEATHERED COCKSCOMB

Interesting Garden Novelty

These two new varieties are splendid for your garden. The feathery plumes are very large, and the 12-inch high plants are compact pyramids completely covered with blooms all summer.

1364. Dwarf Fiery Feather. Brilliant deep red. The brightest red flowers we have ever seen. Pkt., 15c; ½ 60z., 50c.

1363. Dwarf Golden Feather. Bright golden yellow, making a showy contrast with the red. Pkt., 15c; 1/2 oz., 50c.

Cosmos, Orange Flare

INDIAN SPRING HOLLYHOCK

1688. Actually blooms in five months from seed. This species has semi-double to double fringed flowers in shades of pink on 4· to 5-foot plants the first season. Pkt., 10c; 3/2 oz., 45c.

ORANGE FLARE COSMOS

1471. Gold Medal Winner. Early, vivid orange, long stem. Plant this flower in among the shrubs for a charming effect. Good for cutting. Height 3½ feet. See page 46. Pkt., 10c; ¾ oz., 45c.

Golden Feathery Cockscomb

Holmes' NOVELTIES and SPECIALTIES

Scabiosa, Blue Moon

ROSY MORN PHLOX

1995. This new early variety possesses an extra large flower of extremely brilliant rose-pink with a white eye. Somewhat of the same color found in the popular Petunia Rosy Morn except the new Phlox is much deeper rose pink. A free bloomer, true and uniform. Will not fade in the strong sun. 12 inches tall. Pkt., 15c.

POT O' GOLD MARIGOLD

Dwarf Gigantea

1817. This unusual Early Dwarf Marigold is very charming. The plants are dwarf and compact growing 12 to 15 inches in height, well branched and bearing a dozen or more of its large blooms at a time. The Gigantea formation of these blooms are 4 to 41/2 inches in diameter and the color is a most beautiful bright deep golden orange. Excellent for bedding. Pkt., 15c.

For 1942 SCABIOSA, Blue Moon

2125. Has flowers composed entirely of broad, heavy, wavy petals, eliminating the pincushion center entirely. The flower is fully double, large and deep, 2½ inches across and 2 to 2¾ inches deep. Color is a rich deep lavender-blue. Plants are upright, growing tall, 36 inches in height. Ideal for cutting because of its stem length. The deep lavenderblue is hard to find in annual flowers Pkt., 15c.

GYPSOPHILA Baby's Breath

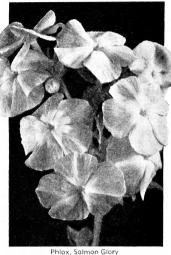

Covent Garden Strain

1658. The sprays of white Baby's Breath are almost indispensable for bouquets in the home, to give them that exquisite delicacy and daintiness that most all flowers need. Sow every two or three weeks in order to have a succession of bloom. This strain is the taller growing variety with larger flowers. 15 to 20 inches. Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 90c.

GIGANTEA SUNSET GIANT MARIGOLD

A Newcomer

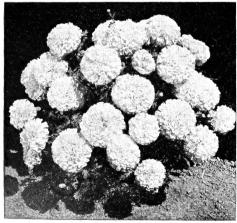

1813. The very largest Marigold yet developed. Flowers average five inches in diameter, while some, which were grown with special care, reached a diameter of eight inches. The flowers have a definite sweet scent, which makes it an excellent variety for cut flower or garden use. The colors range through the deepest orange shades to light shades of golden orange and yellow, and a new shade of primrose. Plants are $3\frac{1}{2}$ to 4 feet in height and bloom the latter part of the summer. Annual. Pkt., 15c.

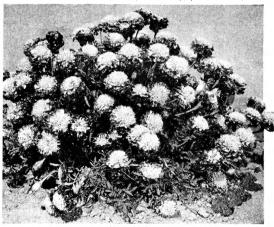

SALMON GLORY **PHLOX**

2003. A flower of giant size. Color is a pure salmon-pink with a creamy white eye, giving a clear, clean, crisp appearance, makes one of the most beautiful color combinations we have ever seen. Salmon Glory is excellent for bedding. Height 10 inches. Pkt., 15c; 3/8 oz., 75c.

MARIGOLD, Spry
1816. Silver Medal Winner, AllAmerica Selections for 1941. Extra
dwarf, double French Marigold with flowers 11/2 to 13/4 inches across, composed of a center crest of bright, clear vellow surrounded by mahogany red guard petals. Early, profuse, Pkt., 15c.

Marigald Pat O' Gold

Marigold, Spry

Holmes' NOVELTIES and SPECIALTIES

New Howard Crested Zinnias

SUPER CROWN O' GOLD

"Two-Tone Zinnias"

2385. Pastel Tint Mixture. The colors are not only distinctly different, but very pretty. The light colors are overlaid with a deeper tone, giving the "two-tone" effect. No harsh colors, "pastel" shades of yellow, old gold, peach, apricot, buff and pink. Flowers giant size, wonderfully double. Pkt., 15c; ¾ 0z., 35c; ¾ 0z., 65c.

SALPIGLOSSIS - Golden Veined

2110. Large-Flowered Mixed. Large improved strain. One of the easiest annuals to grow, is prized in the garden wherever grown. It is rich in deep color tones with veins of gold marking every petal. Sow in full sun in fairly rich soil. Do not over water. Will bloom until frost. 30 inches. Pkt., 10c; 1/4 oz., 40c; oz., \$1.35.

PORTULACA - Moss Rose

2017. Grows in hot dry locations. Double Portulaca enjoys poor soil and dry season. This annual makes a won-

> derful show for borders or rockery. Sow when ground is warm. Bloom all summer with most brilliant colors. Easily transplanted. 6 inches. Pkt., 10c; 1/8 oz., 50c; oz., \$2.50.

CRIMSON RAMBLER MORNING GLORY

Schizanthus

NEW HOWARD GIANT CRESTED ZINNIA

A Sensational Seed Novelty

2400. This marvelous new strain of Zinnias has quality and beauty, being a cross between the small Scabiosa-flowered and those of the Giant Dahlia-flowered Zinnia. The blossoms average from 4 to 5 inches in diameter, with full rounded cushion center, surrounded by broad guard petals after the style of a pyrethrum.

Colors are magnificent shades of orange, scarlet, yellow and rose-maize. For cut flower purposes, the effect of this gorgeous new strain is breath-taking and catches the eye at once. You who are always looking for something new in annuals for garden ornamentation, will find these without an equal. Pkt., 15c.

SCABIOSA ZINNIA

2395 Autumn Tints Mixed. Scabiosa-Flowered Zinnias are becoming increasingly popular. They make a good cut flower, graceful and easy to arrange. This strain has lovely coloring of autumn foliage tints. Pkt., 15c; ¼ oz., 50c.

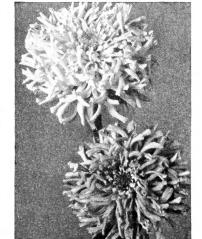

FANTASY ZINNIA

Chrysanthemum-Flowered-Finest

2381. Fantasy is the most fascinating Zinnia introduction in many years. The ragged appearing flowers are interesting and graceful and quite unlike the stiff, formal Zinnias of our grandmothers' gardens. The flowers are of medium size, composed of a mass of shaggy petals, large enough to give a splash of color, but also small enough for graceful arrangement in bouquets. The color ranges from the brightest shades of red, yellow, and orange to the soft pastel pinks and creams. This is an exquisite Zinnia. Pkt., 10c; 1/4

SCHIZANTHUS - Butterfly Flower

2144. Sunset Mixed. A quick-growing plant completely covered with small butterfly-like flowers in all colors. Pkt., 10c; 1/4 oz., 45c.

Fantasy Zinnia

1724. (New.) Here is a very rapid-growing, tall climbing, early flowering, bright crimson red Morning Glory of medium size to plant with the Heavenly Blue, Like Heavenly Blue, the vines are a mass of color from early summer. Pkt., 10c; 14 oz., 30c; oz., \$1.00.

SANVITALIA

Creeping Miniature Zinnias

2124. Procumbens. The flowers are like tiny Zinnias, golden yellow with very dark purple centers, some single while others are double. The plants creep over the soil instead of growing upward. They start blooming in June and continue until frost. 6 inches. Pkt., 10c; 3/8 oz., 35c.

LINCOLN HYBRID SWEET CORN

All-America Winner for 1942

Developed by Dr. Ralph Singleton of the Connecticut Experimental Station.

Lincoln (Whipcross 23.39). (85 days.) A big midseason hybrid corn, 7 to 8 feet tall, with excellent large ears, well filled over the tips; attractive in appearance; the husks long and tight. Ears 8 inches long, 12 to 16 rows with kernels bright golden color, of excellent quality. In trals it has proven its outstanding ability to produce excellent crops. Pkt., 15c; ¾ lb., 25c; lb., 45c; 2 lbs., 80c; 5 lbs., \$1.85; 10 lbs. or more @ 35c per lb.

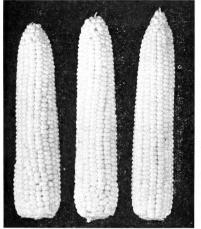

This Early Hybrid Is Real Sweet Corn

It is an early type, maturing 3 or 4 days later than Spancross, and has large ears 71/2 to 8 inches long, mostly 12 rowed, with light yellow kernels of good quality. Wilt-resistant. Height of plants, 5 to 6 feet. A surprisingly good yielder, well known and popular. Pkt., 15c; 3/2 lb., 25c; lb., 40c; 2 lbs., 75c; 5 lbs., \$1.75; 10 lbs. or more @ 33c per lb.

SPANCROSS C4.13 SWEET CORN

Is Earliest Hybrid Corn

All-America Winner for 1941

Lincoln Hybrid Sweet Corn

EVERGREEN PARSLEY

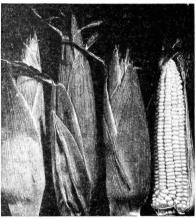

All-America Winner

Has a large, dense, dark green foliage. The leaves are closely curled. Evergreen is very uniform, grows fast, and is more resistant to frost than some other varieties. Pkt., 10c; oz., 20c; ½ lb., 45c; lb., \$1.50.

COS ENDIVE

All-America Winner

This is unlike any Endive we have ever seen. Has a broader round leaf than Full Heart Batavian, the plant is more erect. Will blanch to a clear yellow with crisp, tender leaves and a sweet distinct flavor. Resembles Cos Lettuce at maturity. Pkt., 15c; oz., 25c; 34 lb., 75c.

Spancross C4.13 Sweet Corn

ket and has 6½ to 7 in. ears with 10 to 12 rows of yellow kernels of good quality. It is resistant to the bacterial wilt. Height of plants 4 to 5 feet. A prolific yielder. One of the earliest hybrids yet developed. Pkt., 15c; ½ lb., 25c; lb., 40c; 2 lbs., 75c; 5 lbs., \$1.75; 10 lbs. or more @ 33c lb.

It matures ahead of Golden Early Mar-

HOLMES' GREEN TOP BLOOD BEET

(Introduced by H. L. Holmes)

In Quality It Stands Alone. It is one of the most tender of Beets, of delicious flavor and is absolutely unsurpassed for quality by any Beet we know. This grand, main-crop Beet—Holmes' Green Top Blood—has a tapering root. The flesh is a handsome dark red, sweet and tender at all stages of growth. Holmes' Green Top Blood will keep tender all winter. Market gardeners who plant it will find it outsells all others. Pkt., 10c; oz., 20c; 14 lb., 60c; 1b., \$2.00.

NEW YORK P. W. No. 55 LETTUCE

All-America Selection for 1942

This is the earliest maturing New York in existence. Crisp, hard heading, of the highest quality. Resistant to tip-burn. Heads well in summer and early fall. Excellent for home and market gardeners. Pkt., 15c; oz., 30c; ¼ lb., 90c.

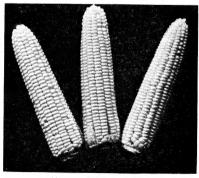

STRAIGHT EIGHT CUCUMBER

Some thing New for Gardeners-All-America Winner

Straight-8 Cucumber

Fruits about 8 inches long, of medium diameter, and well rounded at the ends. Dark green color, free from striping and tipping. Has won much fame as a desirable "slicer." Excellent for the home market grower. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., \$2.25.

Marcross C13.6 Sweet Corn

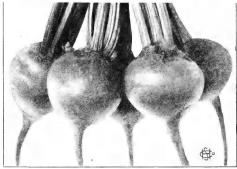

EARLY WONDER BEET (Asgrow Strain)

Is unsurpassed in earliness, uniformity, and in depth of interior color. Roots round, deep red, smooth, with small neck. Flesh deep dark red, tender and of excellent quality. Distinctive green tops, erect. Valuable for home and market garden. Pkt., 10c; oz., 20c; 14 lb., 65c; lb., \$2.00.

HUNDREDFOLD PFA

Large-Extra Early Variety

This is the largest, and we consider it one of the best, of the early Dwarf varieties. The pods resemble Laxtonian very closely but are a little larger and mature a day or two earlier. Their vines are 15 to 18 inches in height, the pods are 4 to 41/2 inches long, deep green, and well filled with dark green peas of high quality. We urge you to have some of these Peas in your garden this year. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.20; 10 lbs. or more @ 22c per lb.

Farly Wonder Reet

\$1.25.

COMET RADISH

Bright Red-Long Standing

with a short top. In keeping and eat-

ing qualities it ranks as a leader and it will remain crisp and white when all

other early Radishes get pithy. Color

is bright scarlet, and tap-roots are thin. Pkt., 10c; oz., 20c; ¼ lb., 35c; lb.,

TOUCHON CARROT

Excels in Sweetness and Tenderness

and market gardener. Tops are medium height and strong roots, orange scarlet, 6½ to 7 inches long, 1½

inches thick. Straight, slender, strictly stump-rooted. Flesh deep orange, no

core, similar to Nantes, but preferred

by many growers for its length. Pkt.,

10c; oz., 50c; 1/4 lb., \$1.50; lb., \$5.00.

An early quality Carrot for home

Round in shape. Grows to fair size

BOUNTY TOMATO

Extra Early-Smooth and Solid

Developed at the North Dakota Experiment Station, Bounty is an extra early red globe tomato. Bears good yields of well-shaped fruit free from dark green at stem end. Has a pleasing flavor, depth, smoothness, and firmness of fruit. In tomato variety tests at Pennsylvania Agricultural Experiment Station, 1940. Bounty outvielded Earliana and Victor, the weight of fruit was also greater. Plant this early variety in your garden this year and get that first tomato. Pkt., 15c; 1/2 oz., 50c; oz., 90c.

GARDENERS OF AMERICA-TO ARMS!

You have learned the tonic effect of gardening on mind, body and spirit-the cheapest form of health insurance.

Bounty Tomato

IMPERIAL 44 LETTUCE

Solid, Crisp Head

"Iceberg" Type. Is superior to N. Y. Special. Outstanding in trials this past year. A large head, solid and crisp.

Forms a larger percentage of marketable heads than other varieties. Seems to be quite resistant to tip-burn. You will be well pleased with Imperial No. 44 either on muck or upland soils. Stands the hot weather when others fail. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

GOLDEN ACRE CABBAGE Yellows Resistant

First Early Ranking

This strain developed from Golden Acre. It is the same type as Golden Acre Special, 3 to 4 days later. We recommend planting it on soils infected with yellows. It is a uniform strain maturing very early, produces heads ready for cutting 2 weeks earlier than Marion Market. Pkt., 15c; 1/2 oz., 30c; oz., 50c; 1/4 lb., \$1.50; lb., \$5.00.

Touchon Carrot

Golden Acre Yellows-Resistant Cabbage

IMPROVED STRINGLESS GREEN POD BEAN
The Best All-Around Bean

You will want this early, delicious, tender, meaty and absolutely stringless, long, round, attractive dark green podded dwarf bean. They mature very early and the vines are strong and vigorous. This bean is outstanding for the large yields of long, straight, tender pods. Whether you grow for market or home, you'll do well to plant Improved Stringless Green Pod. Pkt., 10c; ½ lb., 20c; lb. 35c; 2 lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

Still a Greater Favorite

This marvelous Celery was named and introduced by H. L. Holmes in 1912. It has taken the lead among the late Celeries and has a worldwide reputation. It is distinct and excels all others, being the most solid and finest crisp, nut-flavored and best keeping sort of outstanding merit. Holmes' Emperor is superior in that it is free from the stringiness common to other sorts. The plants are dwarf and therefore much easier to blanch than the taller growing varieties. The tops are dark green while the outer stalks are smooth, almost perfectly round, exceptionally thick, very brittle, and blanch a beautiful white with rich yellow heart. You cannot afford to be without Holmes' Emperor. It is simply delicious. Pkt., 15c; ½ oz., 40c; oz., 75c; ¼ lb., \$2.75; lb., \$10.00.

Superior-High Yielding Originator's Strain

This was developed by Dr. Chas. Myers, of Pennsylvania State College. The head has a shorter core than the original Danish Ballhead, the stem is short, heads large, firm and heavy, in shape more broad than high. The average yield per acre is much higher than other sorts. Its keeping qualities are unequalled. Pkt., 10c; 32 oz., 35c; oz., 60c; 14 lb., \$1.75; lb., \$6.00.

All-America Winner

To get this wonderful Squash two parent strains were bred—a true first generation hybrid made by controlled crossing of inbred Connecticut Straightneck and Early Prolific. This cross produces a Squash that is distinctly earlier than either parent, is more productive and is

that is distinctly earlier than either parent, is more productive and is more uniform. Fine for bush type. Fruit medium yellow, straight and very slightly warted. You, a market gardener, know what it means to have Squash on the market ahead of your neighbors. Bred by Prof. L. C. Curtis, of Connecticut Experiment Station. Pkt., 15c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.50.

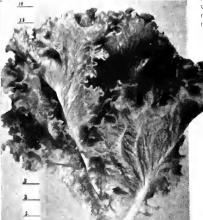

Holmes' Emperor Celery

SWEET SPANISH (UTAH STRAIN) ONION

Large Sweet Onion For Your Garden

There is an increasing demand in America for the Yellow Spanish Onions due to their extra large size, handsome appearance, and extremely mild flavor. Utah Strain Sweet Spanish is now grown over large areas. Grows large and does not produce "stiffnecks," usual in the Spanish type. The mature bulbs will measure 4 to 6 inches in diameter, and weigh up to 2 pounds. Pkt., 10c; 3½ oz., 35c; oz., 65c; 3½ lb., \$1.90; lb., \$7.00.

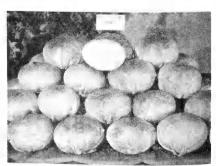

Resistant Grand Rapids Lettuce

RESISTANT GRAND RAPIDS LETTUCE

Loose-Leaved

Introduced by Holmes Seed Co.

This strain was developed at the Ohio Experiment Station. The plants are early. compact, stocky and heavy. The leaves are curled at the edges, and very tender and delicious. Pkt., 10c; 0z., 25c; 34 lb., 70c; lb., \$2.25.

Improved Stringless Green Pod Bean

Penn State Bollheads are remarkably uniform, has yielded 32 tons to the acre. Reliable yields of 20 to 25 tons are common. All-America Award in 1937.

[8]

SUMMER PASCAL CELERY

Unique-Crisp-Nutty Sweet

Here is a beautiful Pascal Celery that can be bleached with paper or boards. It is full hearted, smooth, stringless, crisp, delicious and easy to bleach. Can be grown for early and late. Height medium with round, solid, smooth ribs, dark green in color. It outsells others and has brought a premium on the market of 50% or more than other celery. Summer Pascal is just the celery you have been looking for Pkt., 15c; ½ oz., 80c; oz., \$1.50; ¼ 15., \$5.50; lb., \$20.00.

STOKESDALE TOMATO Certified Seed

The largest medium early red tomato. This is likely to be your most profitable tomato. Stokesdale is one week earlier than Marglobe, 10 days earlier than Rutgers. The most surprising thing is the universal adaptability and prolific bearing. It is disease-resistant. Fruit averages 7 ounces, smooth, deep globe shape, very solid and brilliant red color. Because of its fine quality and heavy yield it will have a place in the home garden as well as market, shipping and canning. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00.

HOLMES' GENUINE BOTTLE ONION We are headquarters for Bot-

We are neadquarters for Bottle Onion Seed and Sets. Bottle Onion has been grown for many years in both Pennsylvania and Ohio. It derives its name from its long bottle-like shape. Being mild and sweet, it is absolutely unsurpassed in flavor; excellent for slicing. It yields well and is a good keeper. Bottle Onion grows longer, whiter and more edible stalks than any other Onion. Pkt., 10c; oz., 45c; ¼ lb., \$1.40; lb., \$5.00.

Yellow Bottle Sets

Lb., 30c; peck (8 lbs.), \$1.85, postpaid

Bottle Onion

Deep Heart Fringed Endive

OAK LEAF LETTUCE

Hot Weather Leaf Lettuce

This novel variety excels in ability to withstand hot weather without turning bitter. its leaves are small, tender, and deep green. It has the superior flavor of the butter-type leaf. Pkt., 15c; oz., 25c; ¾ lb..

DEEP HEART FRINGED ENDIVE

All-America Winner

It is upright in growth, deep green leaf, margin deeply cut and curled. Instead of lying flat on the ground, the outer leaves turn upward, making Deep Heart Fringed less susceptible to bottom rot than most varieties. The well filled hearts blanch to creamy yellow. Plants have diameter of 10 to 12 inches and a depth of 7 to 8 inches. Valuable for the home and market gardener. Pkt., 10c; oz., 20c; ¾ lb., 60c; lb., \$2.00.

HOLMES' PROLIFIC SWEET PEPPER

Early Giant-Thick Flesh-Ready in 60 Days

This variety is exceptionally popular with large Pepper growers; being earlier than Calwonder and having some of its thickness of flesh. Gives heavy yields of very large fruits and holds its size throughout the season. Color a beautiful red. It is a great favorite with market and home gardeners. Pkt., 10c; ½ oz., 35c; oz., 60c; ½ lb., \$1.75; lb., \$6.00.

Summer Pascal Celery

PRIDE OF WISCONSIN CANTALOUPE

One of the best introductions in many years. The flesh color is totally unlike other cantaloupe, being much deeper orange and richer looking. Is thicker with a smaller seed cavity than Honey Rock which it resembles. The rind is unbelievably strong, heavy coarse netting, just the right size and shape, midseason in earliness, and no stringiness in the flesh. A good keeper. We cannot praise Pride of Wisconsin too much, it ranks at the top. Pkt., 10c; oz., 25c; 1/4 lb., 70c; lb., \$2.25.

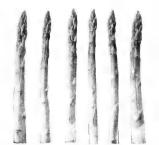

MINGOLD TOMATO

All-America Winner

An early yellow tomato with attractive color and shapely fruits. It is especially desirable for slicing with the reds. Popular and colorful in salads, also comes a growing demand for yellow tomato juice. Ripens with Bonny Best. Shape and size like Marglobe. Introduced by Minnesota Agriculture Experiment Station. Pkt., 15c; ½ oz., 35c.

Holmes' Prolific Sweet Pepper

Paradise Asparagus

PARADISE This new early maturing variety has large, crisp, tender stalks with an especially fine, mild flavor. It is strictly rust-resistant as the Mary Washington variety. Paradise is taking the country by storm. An excellent variety for the home garden, commercial grower and shipper.

SEED. Pkt., 15c; oz., 25c; 1/4 lb., 75c; lb., \$2.50.

ROOTS. 1-year-old, 12 for 65c; 25 for \$1.00; 50 for \$1.75; 100 for \$3.25, postpaid.

ASPARAGUS KNIPE for harvesting Asparagus or removing dandelions from lawns.

Price, 35c, postpaid.

Pencil Pod Black Wax Bean

HOLMES' SUPERIOR

The Best Money Can Buy

SPARGEL (Ger.)

Asparagus

SPARAGIO (It.)

One ounce plants 100 feet of row; produces about 250 plants; 4 to 5 lbs. per acre.

75 plants to 100 feet of row; 4000 to 5000 plants per acre.

Seeds: A deep, sandy loam soil, well supplied with organic matter. Sow seed 1 to 2 inches apart in rows; 15 inches apart for hand cultivation and 2½ to 3 feet apart for horse cultivation. Cover 1 inch deep. Thin out to stand 3 inches apart.

Roots: Should be planted in the spring as early as soil and weather conditions will permit. Rows 4 to 6 feet apart; plants from 15 to 30 inches apart in the row, depending upon the size of the variety grown. The roots should be set in the bottom of the furrow and covered to a depth of 2 to 3 inches at first, and the trench gradually filled up as the plants develop. The depth of the soil over the crowns should be 6 to 8 inches in light soil and 4 to 5 inches in heavy soil. Use 6 lbs. salt to each 100 square feet to keep down weeds.

MARY WASHINGTON. It is at present the best to plant. It produces large, rust-resistant stalks and high quality, dark green spears. Introduced by the United States Department of Agriculture.

Seed, Dkt., 10c; oz., 15c; ¼ lb., 30c; lb., \$1.00, postpaid.

Roots, 1-year-old, 25 for 45c; 50 for 80c; 100 for \$1.50, postpaid. By express, not prepaid, 1000 for \$8.50.

We recommend 1-year Asparagus roots. They are usually more vigorous and healthy and will make a better bed.

BOHNEN (Ger.)

@ 20c per 1b.

Beans

FAGINOLI (It.)

One pound will plant 100 feet of row; 60 to 75 pounds per acre.

Beans are one of the most popular crops for the home garden. Plant after danger of frost, in a fertile, well drained, mellow soil, 1 inch deep, 4 inches apart in a 2½-to 3 foot row. For continuous harvest plant every two or three weeks, allowing sufficient time for maturity before frost. If a hard crust forms, help the seedlings through by carefully breaking the surface with a rake.

Bush Wax-Podded Beans

Pencil Pod Black Wax. (52 days.) This is one of the best early round pod wax Beans for home and market. The pods are large, six inches long, straight, and as round as a pencil, of golden yellow color, very brittle, strictly stringless, fleshy, and of highest quality. Pkt., 10c; ½ 1b., 20c; 1b., 35c; 2 1bs., 60c; 5 1bs., \$1.10; 10 1bs. or more @ 200 per 1b.

Sure-Crop Wax. (49 days.) The earliest and heaviest stringless yellow pod Bean. The rich yellow pods are 6 inches in length. They are flat, very meaty, sweet and perfectly stringless at all stages. Every branch carries a heavy crop of the magnificent pods. Valuable for its productiveness and disease-resisting qualities. It has proven to be a quick seller on the market because of its many good points. Pkt., 10e; ½ 1b., 20c; 1b., 35e; 1bs., 60c; 1 lbs., \$1.10; 10 lbs. or more

ROUND POD KIDNEY WAX or BRITTLE WAX. (50 days.) Early yellow Bean. Pods large, 6 inches long, round, yellow, very brittle, absolutely stringless, remaining in good condition for use until full grown.

Quality excellent. Fkt., 10c; ½ 1b., 20c; 1b., 35c; 2 1bs., 60c; 5 1bs., \$1.15; 10 1bs. or more @ 21c per 1b.

IMPROVED (RUST-FROOF) GOLDEN WAX. (48 days.) Produces a good crop of straight pods, 5 inches long. Stringless and brittle, with thick, oval pods of golden yellow color. It is extra early. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

YELLOW POD BOUNTIFUL. (50 days.) Since the introduction of this splendid sort, it has grown in popular favor with the market gardeners year after year. Very early, a heavy yielder; a beautiful rich yellow pod. Always absolutely stringless; long, thick, meaty, flat pods; vigorous plants loaded with beans.

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 2 lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

VEGETABLE SEEDS

Bush Green-Podded Beans

Tendergreen. (47 days.) Gold Medal Winner, All-America Selection. A new stringless, tender, round, green-podded Bean. Pkt., 10c; ½ lb., 20c; lb., 35c; # lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more

Pkt., 10c; ½ 1 @ 20c per lb.

@ 200 per us.

Plentiful. (All-America Winner.) (48 days.) An outstanding green flat-podded, stringless variety, much like Bountiful. However, the pods are longer, larger and very attractive. Quality and flavor are good. Pkt., 10c; ½ 1b, 20c; 1b, 35c; 1bs., 60c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

GLANT STRINGLESS GREEN POD. (52 days.) One of the best for

home and market garden. Absolutely stringless; pods green, round, 6½ inches long, meaty, brittle and tender. It is strictly a quality sort. Pkt., 10; ½ lb., 20c; lb., 35c; © lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

Improved Stringless Green Pod. (Burpee's.) quality for home and market. Very early; extremely hardy and productive. Pods about 5 to 6 inches long, round, thick and fleshy, medium green color, stringless, brittle, tender and of very highest edible quality. Pkt., 10c; ½ 1b., 20c; 1b., 35c; 1 lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

Bountiful. (48 days.) Excellent for home and market. Very early, pods 6½ to 7 inches long, flat, thick, of green color. Stringless, fine quality. Pkt., 10c; ½ 1b., 20c; 1b., 30c; 1 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more

@ 19c per 1b.

Full Measure. (49 days.) A really stringless, early, round greenpodded Bean, tender and meaty. The pods are 6 inches long, and being
very meaty, remain fit for use many days after maturity. We recommend it for home or market, knowing it will give great satisfaction.
Ptt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more

20c per lb.

STRINGLESS BLACK VALENTINE (Asgrow), (50 days.) This is one of the most prolific, high quality green Beans grown. Pods are entirely

of the most prolific, high quality green Beans grown. Pods are entirely stringless and when young, are nearly round, long, straight, very tender and of excellent flavor. Become somewhat flattened as they grow older. They are becoming very popular wherever grown. Pkt., 10c; ½ lb., 20c; lb., 35c; Elbs., 60c; 1bs., \$1.10; 10 lbs. or more @ 20c per lb.

DWARF HOBTICULTURAL. (Also called Roman Beans.) (53 days.)

Excellent as a pod Bean or dried for a shell Bean. The seed is large, round and somewhat mottled. The pods are stringless, long, round. very thick and fleshy. very thick and fleshy

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

BROAD WINDSOR (Fava or Horse Bean). (180 days.) Plants are very large and erect, pods glossy green, 5 inches long, 11/4 inches broad. Especially desired for green shell. Especially desired for green shell.

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 2 1bs., 60c; 3 1bs., \$1.10; 10 1bs. or more @ 21c per lb.

@ 21c per lb.

ROBUST FEA BEAN. (Improved White Navy.) A selection of the White Navy introduced by the Michigan Agricultural College. In trials it has always outyielded other white Beans. Adapted to the heavier soils. Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., 85c; 10 lbs. or more @ 15c per lb.

WHITE MARROWFAT. (Perry Strain.) High quality, large. plump.

white Pean for use dry. Pkt., 10c; 1/2 lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., 90c; 10 lbs or more

@ 16c per Ib.

RED KIDNEY. Large, dark red, yields heavily. Our stock grown from uisease-resistant strain. Pkt., 10c; ½ 1b., 20c; 1b., 35c; I lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

WHITE KIDNEY. This is another good variety for baking and for soup. Beans are white and larger than either the Navy or White Marrowfat. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per 1b.

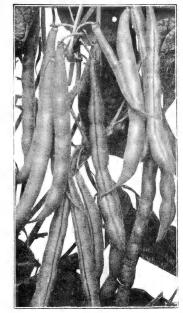

Bush Lima Beans

One pound will plant about 150 hills, or 150 feet of row; 60 pounds per acre

Plant after danger of frost in a fertile, well drained. mellow soil, 1 inch deep, 4 inches apart in 3- to 3½-foot rows.

Fordhook Bush Lima. (75 days.) Yield, quality and appearance have oranook sush Lima. (75 days.) Yield, quality and appearance have made ForJhook Bush Lima a foremost home and market growers' variety. Its extra early maturity assures highest prices wherever the Beans are offered for sale. The flavor of Fordhook is outstandingly sweet and delicious. As they are strong and upright in habit, they withstand both whipping rains and strong winds to a remarkable degree. The pods are borne in what may be termed "clusters," composed of from 4 to 8 pods each. The individual pods are 4 to 5 inches long. Pkt., 10c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.35; 10 lbs. or more \$\infty\$ 25c ner lb. @ 25c per lb.

Stringless Black Valentine (Asgrow Strain)

Tendergreen Bean Stringless—Early

Our Mr. Wm. Berger is dwarfed in this 200-acre field of Holmes' Fordhook Bush Limas

Logan Giant Beans

Field of Improved Stringless Green Pod

Bountiful Reans

RUSH LIMA BEANS-Continued

Burpee's Improved Bush Lima. (75 days.) Fine flavored; big, broad meaty Beans. It is an enormous yielder, bearing in close clusters as many as eleven pods, containing three, four and five beans. The Beans are much larger and nearly twice as thick as the old Burpee's Bush. and mature a week earlier.

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.25; 10 lbs. or more @ 23c per lb.

HENDERSON'S BUSH LIMA ("Baby" Limas). (65 days.) Small Beans but very tender and of exquisitely rich, buttery, Lima flavor, whether used green or dried for winter. Popular for canning. Pkt., 10c; ½ 1b., 20c; 1b., 35c; 1 lbs., 60c; 5 lbs., \$1.15; 10 lbs. or more @ 210 per 1b.

Pole or Corn Beans

One pound will plant 100 hills; 20 to 30 pounds per acre.

Plant after danger of frost, in a warm, fertile and well drained, mellow soil. Drop 3 to 5 seeds, 1½ inches deep per hill, 2 to 3 feet apart in the row and 3 to 4 feet between rows. Use 8- to 9-foot poles set 2 to 3 feet in the ground. Where seed is dropped 4 inches apart in 4- to 5-foot rows, trellis may be built with well braced end poles. Shallow planting in a well drained soil to overcome soil-borne organisms, which are frequently responsible for a poor stand. Pole Beans may be planted with corn.

Logan Giant, (55 days.) There is no bean of its class that we have grown that is as tender and as fine quality. Many of our customers consider it the best pole bean that they have ever grown. The pods, produced in clusters and in great abundance, are light green, 6-7 inches long, broad, round and slightly curved. From ten days to two weeks earlier than Kentucky Wonder. Pkt., 10c; 14 lb., 20c; lb., 35c; lbs., 60c; lbs., \$1.10; 10 lbs. or more @ 20c per lb.

Kentucky Wonder. (Old Homestead). (65 days.) Continues to bear throughout the season, if the pods are picked as they mature. The pods are 9 to 10 inches long, very deeply creased, meaty, stringless when young and of the finest quality.

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 1 lbs., 60c; 5 lbs., \$1.05; 10 lbs or more @ 19c per 1b.

LAZY WIFE. (74 days.) Broad, thick, fleshy green pods, entirely stringless. Pods average 6 inches and are borne in great abundance. The white Beans may be used as soup beans if allowed to dry in the pods. Pkt., 10c; 3½ lb., 20c; lb., 25c; m lbs., 60c; 5 lbs., \$1.05; 10 lbs. or more @ 18c per lb.

King Horticultural. (63 days.) An improvement on London Horticultural or Speckled Cranberry; has larger Beans and pods, matures earlier. The pods are round, thick, 7 inches long, becoming splashed with carmine at green shell stage, entirely stringless, fine quality. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 1 lbs., \$1.15; 10 lbs. or more @ 21c per lb.

HOLMES BUTTER BEAN. They ripen earlier than the Lima Bean. The pods hang in clusters, and they are much thicker through than the Lima. More delicious than the Lima. We want every gardener to give these Beans a trial and be convinced that they are all we represent

Pkt., 10c; 1/2 lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.25; 10 lbs. or more, 23c per 1b.

Kentucky Wonder Wax. (68 days.) Heavily productive. Early. Pods are waxy yellow, 8 inches long, perfectly stringless, fleshy, brittle and

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

Pole Lima Beans

Holmes' Green Prolific Lima. (\$5 days.) Introduced by H. L. Holmes. The most productive Pole Lima Bean, Grows green, stays green. We find the Bean is far more productive than any other Pole Lima. The large pods hang in clusters of from 5 to 8, which makes them easy to gather, each having 5 to 6 beans in a pod. Pkt., 10c; ½ 1b., 25c; 1b., 40c; \$\preceq\$ lbs., 70c; 5 lbs., \$1.30; 10 lbs. or more @ 24c per lb.

KING OF THE GARDEN (88 days.) This variety produces large, flat pods of good quality, containing 5 or 6 large Beans. Very prolific. Pkt., 10c; ½ 1b., 20c; 1b., 35c; ■ 1bs., 60c; ■ 1bs., \$1.20; 10 lbs. or more

Bansei Edible Soy Beans

For Health and Food

This differs radically from the field sorts, are high in vitamins but low in starch. They are easily cooked and of an agreeable flavor. They are being canned and quick frozen and are appreciated by housewives. Resistant to disease as well as insects and drought, Culture similar to bush lima beans. Bean beetles do not like them. They are recommended highly by Physicians as a food for diabetics or for those wishing to reduce excess weight. The earliest and best for northern districts. Pods pale green turning to greenish yellow. Height 18 to 20 inches. (90 days.) Pkt. 10c.1% 1h. 20c.1 h. 35c.2 lbs. 50c.5 lbs. 31.00. (90 days.) Pkt., 10c; ½ 1b., 20c; 1b., 35c; ■ 1bs., 60c; 5 1bs., \$1.00.

WE PAY TRANSORTATION

BUEBE (Ger.)

One ounce will sow 100 feet of row; 10 pounds per acre.

Enjoy the luxury of delicious, tender Beets on your menu from early summer through frost. Of easy culture, the first seeding may be made as early as the soil in your garden is in a workable condition. Don't forget to thin your seedlings to stand 2 or 3 inches apart in the row. Why not sow a row of Beets between the rows of early cabbage in your garden? A seeding in July will supply you with fall Beets for winter storage.

Detroit Dark Red. The excellent quality of this Beet has made it one of the leaders for the home, market garden, and canning. It has few equals for late summer and fall use in the home garden. The root is globe-shaped and smooth, with dark red flesh and the zones are almost indistinct. Our stock is without equal for color. The tops are dark green tinged with red. Main crop variety, splendid for use in the fall and to store for winter. Pkt., 10c; oz., 20c; 1/2 lb., 55c; lb., \$2.00.

Holmes' Fireball. Is small size for home garden. HOLMES' FIRE BALL has a DEEP RED color all the way through, it is of very superior quality, richly flavored and is very smooth, clean and or uniform shape and size, bunching up attractively. It is unexcelled for pickling and canning. We urge you to give it a trial. Pkt., 15c; oz., 25c; ¼ 1b., 75c; 1b., \$2.50.

Early Wonder. (Asgrow Type.) Resembles a good strain of Crosby's Egyptian. The Beet is early, globe-shaped, with blood-red flesh, with a small tap root. The tops are small, dark green, medium and erect. Excellent Beet for early bunching. You will find our Early Wonder a superior strain. Pkt., 10c; oz., 20c; ½ 1b., 65c; 1b., \$2.00.

Holmes' Green Top Blood. In quality it stands alone. It is one of the most tender of Beets, of delicious flavor and is absolutely unsurpassed for quality by any Beet we know of. This grand, main-rop Beet—Holmes' Green Top Blood—has a tapering root. The flesh is a handsome dark red, is sweet and tender at all stages of growth, regardless of size. Holmes' Green Top Blood will keep tender all winter. Market gardeners who plant it will find it outsells all others. keeping quality of Holmes' Green Top Blood Beet has no equal. Fkt., 10c; oz., 20c; ½ lb., 60c; lb., \$2.00.

OHIO CANNER. Introduced by the Ohio Experiment Station. All agree that the color is a much darker red than that of the Detroit Dark Red which they were growing. The top is unusually short; the root shape is a little flatter than that of the Detroit, with a fine small tap root. Pkt., 10c; oz., 20c; 1/4 lb., 65c; lb., \$2.00.

Perfected Detroit. (All-America Winner.) An excellent smooth dark red, globe strain, well adapted for home and market where a good red color, heavy yield and tops of medium height are desired. Pkt., 10c; oz., 20c; 1/4 lb., 65c; lb., \$2.00.

CROSBY'S EGYPTIAN. Very early. Plant small in size, with few very dark red leaves. Root flattened and globe-shaped, very deep red. Top of Beet is level, with small crown, and slender tap root. Very sweet, tender, and of excellent quality. We recommend our stock for early spring market gardening. Pkt., 10c; oz., 20c; ½ 1b., 65c; 1b., \$2.00.

SWISS CHARD, See Page 15.

Mangels and Sugar Beets

One-half ounce to 100 feet of row; 6 to 8 pounds of seed will plant an acre.

A very valuable and economical food for cattle and sheep. Sow the seed in May in rows 2½ feet apart. Mangels are easily harvested, and can be stored in a cold cellar or pit where they will keep all winter.

Golden Tankard. Flesh yellow. Oval. Heavy cropper. Roots large. Pkt., 10c; oz., 15c; ¼ 1b., 30c; 1b., \$1.00; 5 1bs., \$4.75.

Mammoth Long Red. Very large; red flesh. Pkt., 10c; oz., 15c; 1/4 lb., 30c; lb., \$1.00; 1 lbs., \$4.75.

GIANT HALF-SUGAR. A hardy variety producing large crops with little care. Valuable for its rich sugar content. This is white with little care. Valuable rose at the shoulder. Pkt., 10c; oz., 15c; 1/4 lb., 30c; lb., \$1.00; 5 lbs., \$4.75.

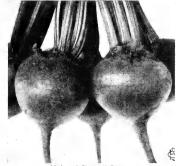

Broccoli CAVOLO BROCCOLE (It.) SPARGEL KOHL (Ger.)

One ounce will produce 5000 plants; 3 ounces per acre.

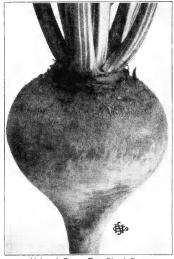

Not unlike cabbage in its culture, the early crop is grown from plants started inside or under glass and set outside in April. For the fall crop, seed is sown in early May in an outdoor seed bed, the plants being transplanted to their permanent location in late June, spaced about 21/2 feet

ITALIAN GREEN SPROUTING (Calabrese). This is a delicious vegetable. Preferred to cauliflower as it may be cut from early summer to late fall, as every new branch produces a head or sprout. The heads or sprouts, when ready to use are deep green and when cooked in the same manner as calliflower are very tender and tasty. Pkt., 100; ½ 0x., 40c; 0x., 70c; ½ 1b., \$2.00; 1b., \$7.00.

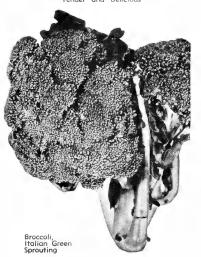

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Holmes' Fireball Beets

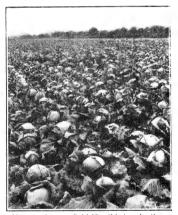

Holmes' Green Top Blood Beet Tender and Delicious

Brussels Sprouts

'ou can have a field like this by planting Holmes' Golden Acre Special Cabbage

Holmes-Houser Cabbage

Brussels Sprouts

BOSENKOHL (Ger.)

CAVOLO DI BRUSSELS (It.)

One ounce will produce 3000 plants; one-fourth pound will plant an acre. Culture similar to that of late cabbage. Sow outdoors from May 1 to June 1, and transplant in five to six weeks or thin to stand 2 by 3 feet

LONG ISLAND IMPROVED DWARF, (Special.) Plants of the Long Island Special do not grow very tall, but they are covered from the ground up with large sprouts. Do not get our Special Strain confused with the ordinary Long Island strain that is offered by many seedsmen. Pkt., 15; ½ oz., 45c; oz., 80c; ¼ 1b., \$3.00; 1b., \$10.00.

Cabbage

KRAUT (Ger.)

CAVOLO CAPUCCIO (It.)

One ounce of seed produces about 4000 plants; 4 ounces enough plants to set an acre.

For early harvest sow in flats under glass, 8 to 10 seeds per inch in 2-inch rows from February to March. Transplant in flats 2 by 2 inches when the first true leaves appear. Avoid crowding, drying out or overwatering. Harden cff by gradual exposure and withhold watering a week or ten days before setting in the field. Soak thoroughly just before transplanting. Set outside 14 to 18 inches by 24 inches apart as soon as ground can be prepared after danger of hard frost. When transplanting, the field soil should be slightly richer than the soil in which the seedling plants were grown. For later harvest sow at two-week intervals outdoors five to six weeks before transplanting in the field.

Golden Acre. The earliest Cabbage. Matures a week ahead of Jersey Wakefield and ten days ahead of Copenhagen Market which it resembles in other respects. The heads are small to medium size, as round as a ball, and very firm. The plant is of dwarf, compact growth with but few leaves, permitting the plants to be set closely. Pkt., 10c; ½ 0z., 25c; 0z., 45c; ¼ 1b., \$1.20; 1b., \$4.00.

GOLDEN ACRE SPECIAL. This strain is most valuable for earliness and uniformity, and in quickness to reach maturity. It proved distinctly superior to other strains maturing at same time. We recommend it to growers who want the earliest and best. Pkt., 150; ½ 02., 400; 02., 700; ¼ 10., \$2.00; 10., \$7.00.

GREEN ACRE. The outstanding thing about this variety is the green color of the leaves which gives them a fresh bright appearance at all times. The heads are round, resembling Golden Acre, but are larger, greener and a few days later, very solid. Fine quality. An exceptionally fine variety for the home garden as well as for market. Pkt., 15c; ½ oz., 40c; oz., 70c; ¼ 1b., \$2.00; lb., \$7.00.

Copenhagen Market Improved. This is really a wonderful Copenhagen Market as it follows the Golden Acre by about ten days but is all of twenty per cent larger. It is practically its equal in uniformity and characteristics but does not mature entirely at one time as the Golden Acre. If both were planted on the same date, then by the time the Golden Acre offers 80 to 90 per cent marketable heads, the Improved Copenhagen will have 10 per cent of the heads hard enough to market. In another week 50 per cent more will have reached the marketable state. Pkt., 10c; ½ 02., 25c; 02., 45c; ½ 1b., \$1.20; 1b., \$4.00.

EARLY JERSEY WAREFIELD. A standard early sort with pointed heads. Heads are of a fair size and very compact. Our strain is very early; practically all the plants produce heads of the correct shape and mature almost at the same time. Pkt. 5c; ½ oz., 20c; oz., 30c; ½ lb., 90c; lb., \$3.00.

GLORY OF ENRHUIZEN. Heads large in size, round, solid, uniform in shape and maturity, of very good quality. The heads will range from 6 to 7 pounds in weight. This variety is popular for market and home use. One of the most desirable varieties for kraut. We offer a very fine strain of this Cabbage—none better.

Pkt., 10c; ½ 0z., 25c; 0z., 45c; ½ 1b., \$1.20; 1b., \$4.00.

HOLMES-HOUSER. Latest Cabbage of them all. Introduced by H. L. Holmes in 1897. Its wonderful quality, extremely small heart, and fine ribs are features not found in any other Cabbage. The shape is round and deep, developing a very slight oval shape at the top (see illustration.) In solidity it is as hard as the Danish Ballhead, compact in habit of growth. It is a strong, vigorous grower, with ability to resist disease (yellows).

Pkt., 100; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00.

Holmes' Bailhead. Is quite similar to Danish Ballhead Short Stem, both as to type and size of follage as well as head, but is nearer perfection in uniformity; in fact, there is no strain of Ballhead Cabbage equaling it in this respect. It brings a high price among the Cabbage farmers in the east, who want all the plants in the field to look alike and produce the same size and shape of head.

Pxt., 180; 1/4 0z., 380; 0z., 600; 1/4 10., 81.75; 10., 86.00.

Penn State Ballhead. (See page 8.) Pkt., 10c; ½ 0z., 35c; 0z., 60c; ½ 1b., \$1.75; 1b., \$6.00.

PREMIUM PLAT DUTCH. This has been a favorite in many Cabbage growing sections as a late fall or winter variety, making large and much flattened heads of remarkable solidity. They keep well throughout of the winter, Pkt., 5c; ½ oz., 20c; oz., 30c; ½ lb., 90c; lb., \$3.00

CABBAGE-Continued.

DANISH BALLHEAD (Short Stem). A leader among Cabbage for winter because of its solid hard head and excellent keeping qualities. It has a distinctly larger and heavier head than Special Hollander. The heads are round, uniform in shape, size and color. Average weight per head 6½ pounds. We recommend Danish Ballhead Short Stem to particular growers. Pkt., 10c; 1/3 oz., 25c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

MAMMOTH ROCK RED. This is the largest and best of the red types. This carefully bred strain we offer produces fine, large, solid heads of good color. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00.

Savoy Chieftain. Excellent early strain for home and market garden. Heads medium size, short-stemmed, compact, rounded, uniformly savoyed. Dark olive-green color. Very firm. Stand a long time without bursting.

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.50; 1b., \$5.00.

IMPROVED AMERICAN SAVOY. Here is a Savoy that will please the more particular gardener. Our strain has been bred for market garden purposes, is dark, densely curled and exceptionally hard-heading. It never fails to satisfy.

Pkt., 10c; 1/2 oz., 25c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

Special Hollander. (Short Stem.) This Cabbage is quite distinctive. The head is small, very smooth, solid, and of a much rounded shape. The head is small, very smooth, solid, and of a much rounded shape. The strain is a little earlier than the Ballhead. It is a fine Ballhead Cabbage. Its size of head makes it very desirable for shipment to distant markets. Average weight per head, 5 pounds. Is also adapted for muck soils. Pkt., 10c; ½ 0z., 30c; 0z., 50c; ¼ 1b., \$1.50; 1b., \$5.00.

Yellows-Resistant Cabbage Seed

Since many farms have "yellows sick" soil, yellows resistant varieties should be planted more. These varieties are the only ones that will succeed in many sections. We recommend their use wherever danger of yellows may exist. If disease strikes, resistant strains will show slight loss, where non-resistant types would be destroyed. Our list below are the best-none better.

Golden Acre. (Yellows-Resistant.) This strain developed from Golden Acre. It is the same type as Golden Acre Special, 3 to 4 days later. recommend planting it on soils infested with yellows. Produces heads ready for cutting two weeks earlier than Marion Market. It is a uniform strain, maturing very early.

Pkt., 15c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00.

Marion Market. Yellows-Resistant Copenhagen.) Resistant "yellows." Early, round head, short stem. Excellent quality. Use Marion Market if you are bothered with disease. A sure header. Pkt., 100; ½ 0z., 30c; 0z., 50c; ½ 1b., 31.35; 1b., \$4.50.

Wisconsin All Season. (Yellows-Resistant.) Very valuable in localities infested with the disease known as "cabbage yellows." Used localities infested with the disease known as "cabbage yellows." Used for kraut, also valuable for winter keeping. Heads large, 10 to 12 inches across, 8 inches deep and weigh 9 to 10 pounds. Pkt., 10c; 1/2 oz., 25c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

Wisconsin Hollander No. 8. (Yellows-Resistant.) Splendid late Cabbage for storage, shipment and kraut manufacture on land infested so badly with the "yellows" disease that other varieties failed completely. Heads large, globular, very firm. Keeps well until spring. Pkt., 10c; ½ oz., 30c; oz., 50c; ½ lb., \$1.50; lb., \$5.00.

Wisconsin Ballhead. (Yellows-Resistant.) A new strain which pro-duces excellent crops on soil infested with "yellows." Keeps well, is of fine texture and matures earlier and has a smaller head than Wisconsin No. 8. Pkt., 10c; ½ oz., 30c; oz, 50c; ¼ 1b, \$1.50; 1b., \$5.00.

Chinese Cabbage

One ounce of seed will sow 400 feet of row; 4 ounces per acre. We advise that the seed be sown in July or August (not earlier) because Chinese Cabbage has a tendency to bolt to seed in warm weather. Sow where the plants are to remain in rows 2½ feet apart, 18 inches apart in the row. It is very easily grown and takes very little space. The crop matures in from 8 to 10 weeks.

This is the grand new strain of Chinese Cabbage. Grows 18 to 24 inches tall and 5 to 7 inches in diameter, with straight and narrow crown. Interior bleaches creamy white, crisp and delicious. It is a good keeper and shipper. We have proven seen and shipper. We have proven seen. \$7.00; % 0z., 20c; 0z., 35c; % 1b., \$3.00; 1b., \$3.50.

WONG BOK. This is a shorter and more solid head than the Pe-Tsai variety. Has a deliciously mild flavor, and the pale green, closely wrapped leaves blanch to almost pure white. Pkt., 10c; oz., 30c; 1/4 lb., 90c; lb., \$3.00.

CHICORY. (See Endive.)

SWISS CHARD

LARGE GREEN WHITE-RIBBED. The best selling sort on the market. It is a big improvement over the Lucullus varieties; the leaf is green and curly. It also has a much better flavor than the Lucullus sorts. Commercial growers claim this will out-sell any other kind. Pkt., 10c; oz., 20c; 1/4 lb., 65c; lb., \$2.00.

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Holmes' Ballhead Cabbage

Special Hollander Short Stem

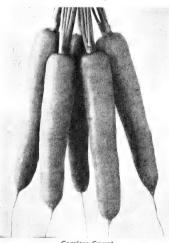

Chinese Cabbage, Chihli

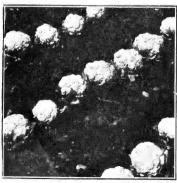

as a slow germinator.

Coreless Chantenay Carrots

Coreless Carrot

Snowdrift Cauliflower

One ownce will sow 300 feet of row; 3 pounds per acre.

Golden Carrots, served cooked or raw, are a welcome delicacy on a menu the year around. If you have a sandy corner in your garden, sow your Carrots there for the smoothest roots. Several rows reseeded at regular intervals from early spring through July, will provide you with a good supply of this garden favorite. Don't neglect to thin the plants to a distance of several inches apart. Gardeners classify Carrot seed

Supreme Half Long. All-America Award. A refined strain of Danvers with short tops, small core same dark red as the rest of the flesh which is a deep, attractive color. Tender and sweet and fine flavor. Roots 6-7 inches long, 2 inches in diameter at shoulder, tapering to a half stump; smooth and of excellent color. Very popular with home and market gardeners.

Pkt., 10c; oz., 45c; 1/4 lb., \$1,20; lb., \$4.00.

"Coreless" Chantenay. (Red Cored Chantenay.) Growers have been looking for a coreless Carrot of the Chantenay type. Here it is at last. Instead of the light colored core which has always shown in the Chantenay and Danvers, this new strain has the deep orange-red color through to the center. The strain we offer is very smooth and uniform in shane

Pkt., 10c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

Nantes. This is one of the best early varieties and particularly adaptable to the home garden as a bunching kind as well as top Carrot for the market. Roots are 6 to 7 inches long, same the whole length, smooth and stump rooting, giving them a very attractive appearance. The deep orange color extends through the whole Carrot. Nantes has practically no core and is exceptionally sweet and tender. A great favorite for eating raw as well as cooked.

Pkt., 10c, 0z., 50c; ½ lb., \$1.50; lb., \$5.00.

CHANTENAY SPECIAL. An excellent stump-rooted type, with fine orange color and medium size tops. small neck. This stock is very uniform, averaging from 2 to 4 inches thick at the shoulder and 6 to 7 inches in length. The flesh is fine grained, smooth, crisp and

Pkt., 10c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

Touchom. An early quality Carrot for home and market gardener. Tops are medium height and strong. Roots orange-scarlet, 6½ to 7½ inches long, 1½ inches thick. Straight, slender, strictly stump-rooted. Flesh deep orange, no core, similar to Nantes but preferred by many growers for its great length.

Pkt., 10c; ca., 50c; ½ lb., \$1.50; lb., \$5.00.

DANYEES HAIF-LONG SPECIAL. It will average 7 to 8 inches in length, with not quite so blunt a point as Chantenay. Has rich orange colored skin. We have also developed this stock to run a fine orange color throughout

color throughout.

Pkt., 10c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

CORELESS. A very popular early sort. The true type is about 6½ to 7 inches long and 1 to 1½ inches thick, very stump-rooted with small rat tail. Color rich deep orange. Skin smooth, tops small. Fine grained and very tender. It is noted for its high table quality which is unsurpassed. Pkt., 10c; 0z., 50c; ½ 1b., \$1.50; 1b., \$5.00.
PERFECTION. A better and longer Coreless Carrot. An ideal Carrot for the fall crop, both for market and home use. It is of the same traces. Notes the same

type as Nantes in shape, but nearly two inches longer, stronger tops, blunt end, very smooth and has tender flesh of deep orange color with practically no core. Excellent quality, roots being crisp and sweet. Pkt., 10c; 0z., 50c; ¼ lb., \$1.50; lb., \$5.00.

Pkt., 10c. oz., 50c; ½ 1b., \$1.50; 1b., \$5.00.

TENDEESWEET. Its richness and sweet flavor cannot be found in other sorts. Its color is deep orange. It is practically coreless, and its shape is long and somewhat tapering with its rounded shoulders and strong tops; it bunches well. It fills the demand for a long Carrot. Fkt., 10c; oz., 45c; ½ 1b., \$1.20; 1b., \$4.00.

OKHBART or GUERANDE. An early stump-rooted sort. Root is 5 inches long, 4 inches in diameter, bright orange-red. Good keeper and much used for stock feed. Easily harvested.

Fkt., 10c; oz., 45c; ½ 1b., \$1.20; 1b., \$4.00.

BLUMENKOHL (Ger.) Cauliflower CAVOLOFLORE (It.)

One ounce will give from 1500 to 2000 good strong plants. Early and late Cauliflower plants are grown the same as Cabbage. Richness of soil and evenness of moisture are essential to the best culture. When the heads have developed to several inches in diameter, draw the leaves together at the top and tie with a soft string. Mix Peat Moss with the soil in your plant bed for better roots and sturdier plants,

Holmes' Early Snowball. A very dependable strain of Snowball. Extra early and maturing very evenly. Heads are very solid, fine grain, pure white and very compact

Pkt., 25c; ¼ oz., \$1.20; oz., \$4.00; ¼ 1b., \$14.00; 1b., \$45.00.

FRT., 200; % 02., \$1.20; 02., \$2.00; % 10., \$12.00; 10., \$25.00.

Snowdrift. (Also called Improved Holland, Erfurt and White Mountain.) This grand variety is noted for its extremely white heads. The heads are outstanding, due to being large and deep and with a fine tight curd. The plants have large leaves and cover the heads extremely well. This improved strain has conquered the market by leaps and bounds. During the past year our strain has shown to be among the leaders for true stock. You will not regret planting Snowdrift.

Fkt., 250; ½ 02., \$1.20; 02., \$4.00; ½ 1b., \$14.00; 1b., \$50.00.

Celery One ounce of seed will produce about 8000 plants; 1/4 lb. for an acre.

Early Celery in Northern Ohio is seeded in the greenhouse or seed flat indoors in February. Celery seed being very small the soil must be prepared finely and the seed covered slightly. When the resulting seedlings have two or three true leaves, transfer them to another flat or cold frame, 1 to 1½ inches apart. Mid-May usually finds weather conditions sufficiently well settled to set your plants outdoors. Avoid planting deeper than the previous soil level. Set plants 4 to 6 Inches by 24 to 48 inches apart. Late Celery seeds are sown in an outside seed-bed as early as the soil is in a good workable condition. The plants are customarily transplanted six inches apart in rows 2 feet apart in the field in July.

Holmes' Emperor. Still a greater favorite. This marvelous Celery was named and introduced by H. L. Holmes in 1912. It has taken the was named and introduced by H. L. Holmes in 1912. It has taken the lead among the late Celeries and has a world-wide reputation. It is distinct and excels all others, being the most solid and finest, crisp, nut-flavored and best keeping sort of outstanding merit. Holmes' Emperor is superior in that it is free from the stringiness common to other sorts. The plants are dwarf and therefore much easier to blanch than the taller growing varieties. The tops are dark green while the outer stalks are smooth, almost perfectly round, exceptionally thick, very brittle and blanch a beautiful white with rich yellow heart. You cannot afford to be without Holmes' Emperor. It is simply delicious. Pkb, 15c; ½ oz., 40c; oz., 75c; ½ lb., \$2.35; lb., \$8.00.

Golden Plume Special. (Tall Strain). It is of the highest quality, which can absolutely be depended on. It grows very heavy, tall, and has a full heart, matures early, blanches quickly, has a crisp, sweet flavor, being larger and more plainly ribbed than the regular Golden Plume generally sold. This seed is New Jersey grown, costs more to produce, is in great demand. Two to three inches taller to the first joint than our regular Golden Plume. Pkt., 20c; ½ oz., 80c; oz., \$1.50; ¼ lb., \$5.50; lb., \$20.00.

GOLDEN PLUME. A fine variety that is full-hearted, blanches easily, has attractive color and is deliciously flavored. Leaves are creamy yellow and the large stalks almost pure white. Brittle and tender. Sometimes called "Wonderful". Its large size and pleasing color makes it a very profitable Celery for the market gardener. Pkt., 10c; ½ oz., 50c; oz., 90c; ¼ 1b., \$3.25; 1b., \$12.00.

Holmes' Crisp. This new superior strain of green Celery is just what you have been looking for—excellent for winter storage, Our customers are enthusiastic about this new crisp Celery which in some respects grows similar to Holmes' Emperor; is taller and grows more upright and is easier to blanch. The stalks make a good height, not too tall, are thick, crisp, brittle, with a thick heart and delicious flavor. It blanches a pure white very rapidly for a green sort. **Pkt.**, 15c; ½ oz., 50c; oz., 90c; ¼ 1b., \$3.25; 1b., \$12.00.

GOLDEN SELF-BLANCHING. (Tall Strain). This variety is early; plant medium to large sized, compact, stocky, good heart, fair keeper. Leaf-stalks many, sharply ribbed, blanches easily to white, tinged with golden yellow; brittle. It is a vigorous grower and is not seriously affected by blight. This is an excellent Celery for the home garden as well as for market.

Pkt., 15c; 1/2 oz., 40c; oz., 75c; 1/4 lb., \$2.35; lb., \$8.00.

Holmes-Houser. (Tall Strain). After several years' selection we have produced a new tall strain of this most popular green Celery. In making this selection we kept in mind the size of stalks, the greater number of stems, the fullness of heart and upright growth. Holmes-Houser is outstanding in this respect. It has a most delicious flavor all its own. When blanched it becomes a beautiful creamy white full heart. Do not fail to plant Holmes-Houser.

Pkt., 15c; ½ oz., 80c; oz., \$1.50; ½ lb., \$5.00; lb., \$18.00.

GIANT PASCAL. An exceptionally fine green Celery, The stalks are large, very thick, crisp, brittle and tender, blanching a beautiful white. very good keeper.

Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.40; lb., \$5.00.

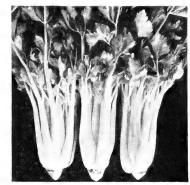

Giant Pascal Special. This is a much superior strain to the ordinary Giant Pascal, being somewhat shorter with much heavier stalks, and very full heart.

Pkt., 15c; ½ oz., 80c; oz., \$1.50; ¼ 1b., \$5.00; 1b., \$18.00.

CRISP No. 2 (California Pascal-Utah). We find our customers are increasingly interested in an easy blanching, green Celery. The one we creasingly interested in an easy blanching, green Celery. The one we offer is the best we have seen so far; being more smooth in stem and exceptionally full of heart. Medium in height, somewhat lighter green than Pascal and blanching more easily. Often sold partially blanched. This can be done very successfully in paper or boards. We feel sure this will meet your requirements, if looking for Celery of this type. Pkt., 15c; ½ oz., 50c; oz., 90c; ½ lb., \$3.25; lb., \$12.00.

CELERIAC, GIANT SMOOTH PRAGUE (Turnip-Rooted Celery). It is used for flavoring and is in wide demand. Culture is the same as celery. As the roots are the edible portion, it requires no hilling. Pkt., 10c; ½ oz., 15c; oz., 25c; ½ lb., 75c; lb., \$2.50.

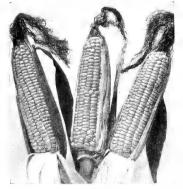

Golden Plume Special Celery

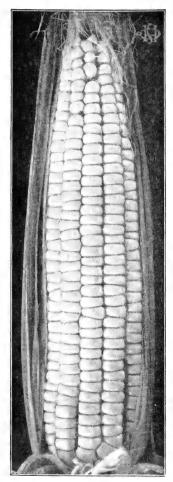

Crisp No. 2 Celery

One pound will plant about 400 hills; 12 pounds to the acre.

Spanish Gold Sweet Corn

Golden or Bantam Evergreen Sweet Corn

The home gardener in Northern Ohio plants Corn as early as May 1 and as late as July 15. For a succession of harvests, early, medium and late varieties are sown at the same time. Because they are smaller, early varieties are spaced 8 to 10 inches apart in 30- to 36-inch rows, earry varieties are spaced 5 to 10 inches apart in 30- to 36-inch rows, while the larger and later sorts are placed 12 to 14 inches between plants. If you have not done so, by all means sow some of the new hybrid corns they are rapidly replacing many of the old standbys.

Golden Early Market. (GILI's). (65 days). All around extra early Corn. Those who have tried this Corn found it to be as early as any large yellow Sweet Corn yet introduced. Market growers find Golden Early Market a profitable Corn to grow as it comes on the market just when the price is at the top notch. Ears measure about 7 inches, have 12 to 14 rows of pure golden kernels. The quality of the Corn is excellent. It is one of the outstanding early Corns, and is a money-maker for gardeners. Seed grown expressly for us.

Pkt., 10c; 1/2 lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

SPANISE GOLD. (62 days.) In tests conducted by farmers this Corn was found to mature 5 days ahead of Extra Early Bantam and 6 days earlier than Sunshine. It grows I to 6 feet high, depending upon the fertility of the soil. Ears are 7 inches in length with 10 to 12 rows of rich golden grains.

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; \$ lbs., \$1.15; 10 lbs. or more @ 21c per lb.

GOLDEN SUNSHINE. (70 days). Ready for market a week before Golden Bantam. Plant grows more dwarf, ears closer to the ground. Ears 7 to 8 inches long, 10- to 12-rowed, golden yellow, sweet and tender. A money-maker for the enterprising gardener. Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.10; 10 lbs. or more @ 200 per lb.

GOLDEN BANTAM. (80 days.) Early, golden yellow in color; ears 6 to 7 inches long, 8-rowed, of delicious flavor. A popular sort for the garden. Our stock has been carefully selected and is superior to much that is offered. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

Golden or Bantam Evergreen. (90 days). Also known as In proved Bantam. A cross between Golden Bantam and Evergreen. Also known as Immost excellent sort of fine quality. Ears 8 inches long, 12- to 14-rowed; Pkt., 10c; ½ 1b., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 190 per lb.

/hipple's Yellow. (75 days). This Corn has the largest ears of any Corn of equal earliness. Ears are 8 to 9 inches long and have 14 to 18 Whipple's Yellow. corn of equal earliness. Ears are a to 9 inches long and have 14 to 15 rows of deep yellow kernels of supreme quality. Often the tall stalks produce two large ears of nearly equal size. The attractive appearance and extreme earliness of this popular variety make it one of the most profitable sorts of Sweet Corn to grow for the market. Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 19o per lb.

Gill's Early White Market. (70 days.) It is recognized as the earliest true white-grained Sweet Corn. The ears are well filled with large, sweet, plump white grains, with 12 to 14 rows to the oob. Ears measure 6 to 8 inches long. On account of its extreme earliness and large size, market gardeners get very profitable prices.

Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

WHIPPLE'S EARLY WHITE. (80 days.) This is an early sort. Has ears that measure 8 to 9 inches long. 16 to 20 rows of deep, rather narrow kernels. It is very fine quality. Gardeners find that the size, high yield, and earliness make it profitable. An excellent kind for table and canning Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 190 per lb.

ROLMES' DELICIOUS. (78 days.) Holmes' Delicious will produce ears 7 to 9 inches long, 14 rows of broad, deep grains of the most delicious flavor. If you want a Corn to come in early and have the size of the Evergreen, and sell at sight on the market, plant Holmes' Delicious. Fkt., 10c; ½ 15., 20c; 15., 35c; 2 15s., 60c; 5 15s., \$1.25; 10 15s. or more @ 230 per lb.

HOWLING MOB. (85 days). Large-eared early Sweet Corn. Ears 7 to 8 inches long, with 12 to 14 rows of white kernels fairly broad and well filled. It is grown for market and home garden.

Pkt., 10c; 36 lb., 30c; 1b., 30c; 2 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 180 per lb.

EARLY EVERGREEN. (90 days). Valuable market sort, maturing earlier

than Stowell's Evergreen. 16 to 18 rows of very deep, white, sweet, tender kernels. Pkt., 10c; ½ 1b., 20c; 1b., 30c; 2 1bs., 50c; 5 1bs., \$1.05; 10 1bs. or more @ 19c per 1b.

BLACK MEXICAN. (95 days.) One of the sweetest and best; ears 8 Thiches long, 5-rowed. 1b., 350; 2 lbs., 500; 5 lbs., \$1.10; 10 lbs. or more @ 200 per lb.

COUNTRY GENTLEMAN (Shoe Peg). (96 days). An especially fine quality Corn. Ears 8 to 9 inches long, cob small, white and densely covered with long, slender, white grains, without row formation. Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

Stowell's Evergreen. (92 days), (Selected early strain). Our northern grown seed is earlier than the western grown. The Corn is of better quality and matures ahead of the usual Evergreen. Ears are 8 to 9 inches long, with 14 to 16 rows. A very popular sort. Pkt., 10c; ½ lb., 20c; lb., 30c; 1 lbs., 50c; 5 lbs., \$1.05; 10 lbs. or more @ 19c per lb.

New Hybrid Sweet Corn

SPANCEOSS (C4.13). An extra early hybrid which matures ahead of Golden Early Market and has $6\frac{1}{2}$ - to 7-inch ears with 10 to 12 rows of yellow kernels of good quality. It is resistant to bacterial wilt, Height of plants 4 to 5 feet. A prolific yielder. One of the earliest hybrids vet developed (60 days)

Pkt., 15c; ½ lb., 25c; lb., 40c; I lbs., 75c; 5 lbs., \$1.75; 10 lbs. or more @ 33c per lb.

MARCROSS (C13.6). An early type, maturing four or five days later than Spancross, and has large ears 7½ to 8 inches long, mostly 12-rowed, with light yellow kernels of good quality. Wilt-resistant. Height of plants 5 to 6 feet. A surprisingly good yielder, well known and popular. (65 days). Pkt., 15c; ½ lb., 25c; lb., 40c; 2 lbs., 75c; 5 lbs., \$1.75; 10 lbs. or more @ 33c per lb.

CARMELCROSS (Marcross P39.C13). An early midseason type maturing three or four days later than Marcross C13.6 and four or five days earlier than Whipcross. It has ears 7½ to 8 inches long with 12 to 14 rows of beautiful yellow kernels of excellent quality. Highly wiltresistant. Plants 6 to 7 feet high. An excellent yielder. We cannot recommend this hybrid too highly. (70 days).

Pkt., 15c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.60; 10 lbs. or or more @30c per lb.

Wood per us.

LINCOLM (Whipeross 23.39). (85 days). A big midseason Hybrid Corn

7 to 8 feet tall with excellent large ears, well filled over the tips;
attractive in appearance; the husks long and tight. Ears 8 inches
long, 12 to 16 rows with kernels bright golden color of excellent
quality. In trials it has proven its outstanding ability to produce
excellent crops. Pkt., 15c; ½ lb., 25c; lb., 45c; 2 lbs., 30c; 5 lbs., \$1.85;
10 lbs. or more @ 35c per lb.

Developed by Dr. Ralph Singleton of the Connecticut Experimental
Station.

GOLDEN CROSS BANTAM. (88 days). Very resistant to bacterial wilt, very productive and of exceptional quality and flavor. It is quite uniform in growth and maturity and is especially adapted to market, canning, and home gardens. Plants 6 feet tall, are dark green and leafy. Ears 8 inches long, 10 to 14 rows and broad, medium yellow kernels. Holds on stock in edible condition longer than any other variety. Husk covering affords considerable protection against ear worms. Pkt., 15c; ½ 1b., 25c; 1b., 40c; E 1bs., 70c; 5 1bs., \$1.50; 10 1bs. or more @ 28c per 1b.

The above Hybrid Corns planted the same day, gave a continuous succession of the most desirable hybrid corn in each of the different corn seasons. At the Connecticut Experiment Station the following At the Connecticut Experiment Station the following have proven outstanding. Planted the same day they give a continuous succession of green corn over a three weeks spread. You will harvest corn from the earliest date on to Golden Cross Bantam. We offer 14 to of each variety of the five Hybrid Sweet Corns for \$1.00, postpaid.

EVERGREEN HYBRID, (90 days.) You've tried the yellow hybrids, now test the superiority of this corn of the Stowell's Evergreen type. Plants grow 8 to 10 ft. tall, ears measure 7½ to 8½ in., with 14 to 18 rows of deep, narrow kernels. There's a lot of good corn on every ear of this hybrid. Pkt., 15c; ½ lb., 30c; lb., 50c; 2 lbs., 90c; 5 lbs., \$1.75; 10 lbs. or more @ 32c per lb.

Pop Corn

One pound will plant 400 ft. row; 6 lbs. per acre.

SOUTH AMERICAN. (T.N.T.). When popped, the kernels are larger than any other sort and are of a rich creamy yellow color. The flavor is truly delicious. The stalk grows 6 to 8 feet tall, and produces 2 or more ears which are 9 or more inches long.

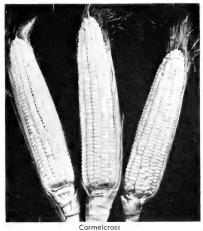

JAPANESE HULLESS or TOM THUMB. Dwarf-growing; heavy yielder; ears short, thick and uniform. The grain is of excellent popping quality and of delicious flavor.

WHITE RICE. Very productive, excellent quality, very crisp and deliclous. It pops perfectly white. Price any Pop Corn: Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 50c; 5 lbs., \$1.00; 10 lbs. or more @ 18c per lb.

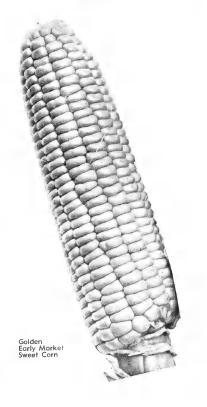

Collards CAVOLO VERZATTE (It.) JUNGE-KOHL (Ger.)

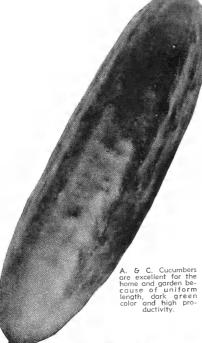

GEORGIA. Cultivation same as Cabbage, of which it is really a tall, loose-leaved form, grown for "greens." Plant 3 feet high, forming a cluster of tender leaves at the top of its long stem. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

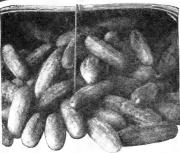

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Sweet Corn (Marcross P39.C13)

Holmes' Improved White Spine

Cucumber GURKEN (Ger.)

One ounce of seed will plant about 60 hills; 2 lbs. to the acre.

CETRIOLO (It.)

Rapid growth and high yields of this vegetable seem to be associated with thorough preparation of the soil, frequent shallow cultivation and ample supply of well rotted manure in the soil. A sandy soil is preferred, The first two weeks in June are the best seeding dates. The most popular practice is to seed liberally in hills 3 to 5 feet apart, three or four of the healthiest plants being allowed to mature in each hill. For continued production, remove each Cucumber as it matures

Holmes' Improved White Spine. Its rich, dark green color makes it most attractive to the eye and its heavy bearing qualities make it most profitable to the grower. The plants are very strong and vigorous. This Cucumber grows about 8 inches long. It is early, and can be put on the market when prices are high. The gardener who plants this Cucumber cannot go wrong. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

EARLY FORTUNE. One of the finest types of the White Spine. The Cucumbers when fully grown measure about 8 to 9 inches in length, $2\frac{1}{2}$ inches thick, slightly tapering at the ends. The color is a rich dark green. The flesh is thick and firm, pure white in color. The vines are vigorous, set fruit early and are very productive. Pkt., 10c; oz., 20c; 1/4 lb., 50c; lb., \$1.50.

A. & C. Has proven to be about the finest slicing variety ever introduced. A Cucumber that has no weak points, The long, slender fruits are very dark green; grows 8 to 9 inches long and 2 inches thick. A. & C. is one of the most popular Cucumbers grown today. Pkt., 10c; 0z, 25c; ½ 1b., 60c; 1b., \$2.00.

STAYS GREEN. Excellent shipper. Fruits rich dark green, retaining their color long after picking; dark spined; about 8 inches long, 2½ to 2% inches thick, only slightly tapered; full at both ends. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

Straight-8. Awarded All-America Gold Medal. Produces symmetrical fruits well rounded at both ends; runs quite straight. 8 inches long, 1% to 2 inches thick. Color dark green, free from pale striping. Vines vigorous, and remarkably productive. Makes an ideal variety for the local market, home market, and shipping. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

IMPROVED LONG GREEN. We consider this very handsome Cucumber to be an outstanding variety. Fruits, when mature, are about 10 inches long, 2½ to 2¾ inches thick, uniformly slender, and of a rich deep color. Sometimes the small fruits are used for sweet pickles. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

DAVIS PERFECT. The color is a dark, glossy green, shape slender and symmetrical, average length 9 to 10 inches; 21/2 inches thick. Contains but few seeds and is ideal for slicing. The vines are vigorous. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

LONGFELLOW. Long, slender, uniform shape, deep dark green color, with smooth skin and white flesh. When matured, 12 to 14 Inches long by 2½ inches in diameter. Very few seeds. An ideal type for the private garden or as a "straight pack" sort for shipment to market. We recommend it highly. Pkt., 10c; oz., 20c; ¼ lb., 65c; lb., \$2.00.

Holmes' Pickler. This variety yields more pickles per vine than any other sort grown. In a carefully conducted trial the Holmes' Pickler produced three times as many small pickles as any other prolific sort. When small Cucumbers are picked off as fast as they get the right size for pickles, the vines produce an astonishing number. The young Cucumbers are often produced in clusters of three or four at every joint of the vine. The Cucumbers are very straight with blunt ends, medium deep green and of the very best shape for small pickles. The Holmes' Pickler is not only more prolific than other sorts, but it is also two weeks earlier. The fruits are five to six inches long when ready to slice. Pkt., 10c; oz., 25c; 1/4 lb., 65c; lb., \$2.00.

CHICAGO PICKLING. Our strain with full or blunt ends, is superior to other picklers, with exception of Holmes' Pickler. Our Chicago Pickle for uniformity, color and earliness, is a leader. 6-7 inches long; inches thick.

Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

WHITE WONDER. The Cucumbers are white from the time they begin to set, and very good, either for eating fresh or pickling. Of fine quality and very productive. They average 8 inches long and 2½ inches thick. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

EARLY CLUSTER. Very fine pickling sort. Very popular. 5% inches long; 2% inches thick. Medium dark green, prolific, full at both ends. Pkt., 10c; 0z., 20c; 1/4 lb. 45c; lb., \$1.50.

BOSTON PICKLING. Early, plant very productive, fruits 6 to 7 inches long; 2½ inches thick; slender, slightly tapering, medium color. Pkt., 10c; oz., 20c; ½ lb., 45c; lb., \$1.50.

GARTEN-KRESSE (Ger.)

Cress

AGRETTO (It.)

EXTRA CURLED (Pepper Grass). Crisp, pungent-flavored leaves; finely cut, dwarf, and compact. Used for salads. Pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., \$2.50.

THE HOLMES SEED COMPANY, CANTON, OHIO

[20]

Watercress. Improved Broad-Leaved, A larger and better strain. Can easily be grown on the banks of any small stream, or on land that can be flooded with running water. The seed should be scattered on the muddy banks in the spring or summer. Watercress is also grown extensively in greenhouses for winter use and is a profitable crop. Pkt., 15c; 1/2 oz., 40c; oz., 75c; 1/4 lb., \$2.35; lb., \$8.00.

Dandelion LOEWENZAHN (Ger.) DENTE DO LEO (It.)

One ounce of seed sows 150 feet of drill; 5 lbs. per acre.

Sow in May or June, in warm, rich soil. Some of the plants will be ready for use in September, the remainder the following spring.

ARLINGTON THICK-LEAVED. Dark green. This desirable variety has large thick dark green leaves of excellent quality. Plants grow upright and are far superior to common dandelion.

Pkt., 10c; ½ oz., 35c; oz., 60c; ¼ lb., \$1.75; lb., \$6.00.

LONG ISLAND MAMMOTH. Large seed heads. Much superior to the common Dill. Pkt., 10c; oz., 15c; 1/4 lb., 30c; lb., 90c.

Eggplant EIERPFLANZE (Ger.) PETRONCIANO (It.)

One ounce of seed produces about 2000 plants; 1/4 lb. to the acre. Eggplants are a delicacy that gives variety to the menu of the home gardener and proves profitable to the market gardener, Sow inside about March 1. Plant outside about May 20 or after danger of frost. should be rich and well manured, although they favor only mild acidity. Diseases are less troublesome on acid soils.

lack Beauty. (Select). This stock has been selected. It is early, yields exceedingly heavy and produces beautiful even colored, black, Black Beauty. glossy fruits, which bring the best prices in the market. You will find this Select Strain uniformly profitable.

Pkt., 10c; ½ cz., 25c; cz., 45c; ¼ 1b., \$1.20; 1b., \$4.00. Fort Myers Market. Vigorous and very productive high bush variety, holding fruits off the ground. Fruits 9 to 10 inches long, 5½ to 6½ inches in diameter, nearly egg-shaped. Deep purplish black colors Pkt., 10c; 1/2 oz., 25c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

NEW HAMPSHIEE HYBRID. An early high productive Black Beauty. Recommend it for growers in the north. It was developed by Prof. J. R. Hepler of the New Hampshire Agricultural Experiment Station. The fruit is slightly oval, a fine purple in color, smaller than Black Beauty, but is earlier and gives large yields.

Pkt., 10c; ½ oz., 30c; oz., 50c; ½ 1b., \$1.35; 1b., \$4.50.

ENDIVIEN (Ger.)

Endive

ENDIVIA (It.)

One ounce of seed sows 150 feet of drill; 5 pounds per acre.

Holmes' Golden Heart. This is a vigorous grower and produces an attractive, very fine curled and compact plant. As the plant develops, the center changes from green to a beautiful creamy yellow. The leaves are crisp and tender with a delightful flavor.

Pkt., 10c; oz., 20c; ¼ 1b., 60c; 1b., \$2.00.

Deep Heart Fringed. Deep self-blanching heart. Leaves are cut and curled at edges, growth upright, ribs and heart white. Pkt., 10c; oz., 20c; 1/4 lb., 60c; lb., \$2.00.

GREEN CURLED, All Heart Strain. Grows larger than Green Curled. It is later in maturing but when well grown on good soil, it forms a large full heart of fine quality. When blanched, the heads are delicate yellow in the heart and very attractive. Used largely by market growers. Pink ribbed. Pkt., 10c; cz., 15c; ¼ lb., 35c; lb., \$1.25.

Full-Heart Batavian. (Escarolle). A broad variety with more or less twisted and waved leaves and thick white mid-ribs. The inner leaves form a fairly firm head which blanches to a creamy white and is crisp, tender and of fine flavor. Unsurpassed for salads. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

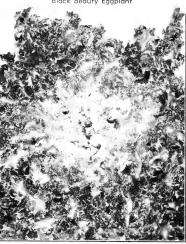

Herbs delight in a rich, mellow soil. Sow in early spring in shallow drills one foot apart; cover lightly with fine soil, and when up a few inches thin out, or transplant into prepared beds. (*) are perennials.

Green Curled Endive (Pink Ribbed)

Full Heart Batavian (Escarolle) Endive

Dwarf Green Curled Kale

Imperial No. 44 Lettuce

Cosbera Lettuce

Horseradish

MEER RETTIG (Ger.)

400 to 100 feet of row; 10 thousand per acre.

Mark off the rows 3½ feet apart and set the roots 18 inches apart in the rows, the small ends down and the tops 1 to 3 inches below the surface.

BOHEMIAN ("Maliner-Kren"). Superior to common variety, producing very large pure white roots. Strong sets. 25c per doz.; \$1.50 per 100, postpaid. Not prepaid, \$10.00 per 1000. (Weight 40 lbs.)

Kale or Borecole

BLATTERKOHL (Ger.)

CAVOLO VERDI (It.)

PORRO (It.)

One ounce of seed sows 200 feet of drill; 4 lbs. per acre.

An excellent "green" for winter and spring. It is suggested you sow
the seed thinly about July 1 and later thin the plants to 1 ft. apart. Remove leaves as needed and allow plant to produce new leaves which may again be harvested.

Dwarf Green Curied. (or Blue Scotch). A dark bluish green color,

which it retains. Low growing. It attains a fair size and produces a great mass of finely curied foliage. Very hardy.

Pkt., 10c; oz., 20c; ½ lb., 60c; lb., \$2.00.

SIBERLAN. Also called early Sprouts. Dwarf growth with leaves curied. The color is blue-green with purple tinge. Sow in the fall in rows a foot apart and cultivate. Very hardy and makes excellent spring greens. Pkt., 10c; oz., 15c; ½ lb., 30c; lb., \$1.00.

Kohl-rabi KNOLLKOHL (Ger.) CAVOLO RAPA (It.)

One ounce of seed sows 200 feet of row; 4 lbs. per acre.
You may enjoy this vegetable all season long by starting seed in hot-

bed or cold frame and making succession plantings from April to August. The approved practice is to sow seeds in rows and thin to 4 or 5 inches apart in the row. Fleshy stems $1\frac{1}{2}$ to 3 inches in diameter are young and tender. Woody when older and larger.

Early White Vienna. An early sort with small tops, which permit planting very closely. Pkt., 10c; oz., 40c; ½ 1b., \$1.20; lb., \$4.00.

PURPLE VIENNA. The same as White Vienna except in color which is light purple on the outside. Pkt., 10c; oz., 40c; ½ 1b., \$1.20; 1b., \$4.00.

Leeks POREE (Ger.)

Cultivate the same as onions.

GIANT. This is a great improvement over the old kind. The stalks are pure white, large and thick. The white part extends farther up the stalk. Is very tender and mild. Fkt., 15c; 0z., 75c; ½ lb., \$2.35; lb., \$8.00.

Lettuce KUEBE (Ger.) BARBABIETOLA (It.)

One ounce of seed sows 250 feet of row; 3 lbs. per acre.

Moist, rich soil and cool weather are required for the best growth.
Outdoors, successive seedings may be made from April to July or
August. Head Lettuce such as Imperial 847 or Big Boston are spaced 10 to 12 inches between plants.

Cosberg. A distinct new variety. Heads well and shows resistance to tip-burn. Leaves somewhat crumpled and waved and fringed at the margins. Heads medium size and firm, clear pale green to almost white inside. Very good flavor. Especially adapted to home gardener. Pkt., 10c; oz., 20c; ¼ 1b., 90c; 1b., \$3.00.

Imperial No. 847. A new Lettuce of the "Iceberg" type for summer and fall production. Very sure heading. Heads are round, well folded, solid and crisp. This variety in many locations shows indications of being a more dependable cropper than New York No. 12, but is slower growing. Pkt., 15c; oz., 25c; 1/4 lb., 75c; lb., \$2.50.

Imperial No. 44. Is superior to N. Y. Special, being of "Iceberg" type. Produces hard, well-formed, well-wrapped heads with large well-folded leaves and less subject to tipburn than later strains. Imperial No. 44 is well adapted for producing good summer lettuce, particularly on muck and up-land soils. Pkt., 10c; oz., 25c; ½ 1b., 75c; ib., \$2.50.

NEW YORK No. 12. (California "Toeberg"). This strain grows to large size, matures quite early, is round and flat in shape. The foliage is medium dark green. This is a great favorite with growers. Pkt., 10c; 0z., 20c; ¼ 1b., 85c; 1b., \$2.00.

BIG BOSTON. The heads being large are firm and good quality, uniformly solid. compact, stand for a long time. Big Boston is excellent for late crop, as it heads well in cold weather and is not injured by early frost. You will find our strain exceptionally fine.

Ptt., 10c; oz., 20c; ¼ 1b., 50c; lb., \$1.40. Lettuce, very compact, crisp, tender and of excellent quality. The edges of the leaves are tipped with brown. One of the best early varieties for the home garden. Ptt., 10c; oz., 25c; ¼ 1b., 75c; lb., \$2.50.

Lettuce

- White Boston Cornell No. 43. A strain of white Boston developed by Dr. J. E. Knott, New York State Agriculture College. Produces larger, darker green plants than the parent strain. Heart is buttery and yellow. Does exceptionally well on muck land. We urge growers who have not been successful in raising Big Boston Lettuce to try this new strain. **Pkt.**, 10c; 0z., 20c; 1/4 lb., 45c; lb., \$1.50.
- GRAND RAPIDS. The leaves are crumpled and curled, very tender and brittle. As the leaves grow upright, it can be planted fairly close and will not rot because it does not come in contact with the ground. An excellent forcing sort. Pkt., 10c; oz., 15c; 1/4 lb., 45c; lb., \$1.50.
- Resistant Grand Rapids. (Official Strain). Developed by Dr. Ira C. Hoffman of Ohio Agricultural Experiment Station. Grows faster, maturing a few days earlier than other strains. Plants are compact, stocky and extra heavy. Pkt., 10c; oz., 25c; 1/4 lb., 70c; lb., \$2.25.
- EARLY CURLED SIMPSON. Loose, curly leaves; firm and crisp. Very popular. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.
- CHICKEN LETTUCE. Here is a genuine Lettuce which will yield as much or more chicken or rabbit feed as any "greens" plant. When once cut it starts to grow again. Pkt., 5c; oz., 15c; ¼ 1b., 30c; lb., \$1.00.
- MIGNONETTE. Splendid for the home garden. Small, compact, globular heads; firm, leaves frilled, heart well blanched, almost white, of excellent quality Pkt., 10c; oz., 30c; 1/4 lb., 85c; lb., \$2.75.
- MAY KING (Wayahead). This is practically the earliest head Lettuce. It is a very quick grower; heads are medium-sized and light green. The inside is a rich buttery yellow. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.
- Black-Seeded Simpson. Produces a mass of light green, curly leaves, each individual plant attaining a large size. Very fine. One of the most desirable varieties for the home garden as well as for market. Grows very quickly. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.
- PRIZE-HEAD. A loose-leaved Lettuce. Produces a large bunch of crisp, frilled leaves, heavily tinged with brown. Grows rapidly and is early. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.
- HANSON. Compact heads with curled leaves which are crisp and sweet. Very tender. Popular with home and market gardeners. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.
- DARK COS (Romaine). A new strain that will stand heat and bad weather conditions. The leaves are dark green with self-folding head. Height about 15 inches. We believe this to be a very valuable strain for the grower. Ptt., 10c; va., 15c; ¼, 1b., 45c; 1b., \$1.50.

NORTHERN GROWN

WASSER-MELONE (Ger.)

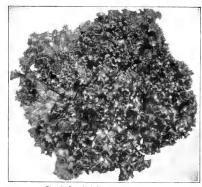

COCOMERO D'ACQUA (It.)

One ounce of seed will plant 30 hills; 3 to 4 lbs. per acre. A well fertilized, loose, sandy soil is most conducive to the growth of

Watermelons. Other than the fact that they require more space their culture is much the same as that of muskmelons. Dixie Queen. A good home garden melon of excellent quality. nearly round, light green striped with dark green, often weigh 40 to 50

- pounds; rinds thin but tough. The deep red flesh is crisp and sweet. The few seeds are white. Pkt., 10c; oz., 15c; ¼ 1b., 35c; 1b., \$1.25. COLE'S EARLY. (Known as Harris Earliest). A splendid Melon for the
- North. What they lack in size they more than make up in number and quality. Rind green, striped a lighter shade. Flesh bright red, crisp, delicate texture, juicy and sparkling, sweet and luscious. Very early and will mature large crops in the northern states. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.
- IMPROVED KLECKLEY SWEET No. 6, (Wilt-Resistant Strain). It is a favorite shipping Melon and rapidly growing in favor. The Melons grow oblong, with very dark green skin, flesh deep scarlet-red, solld heart. Don't fail to plant "sweetest of all"—the best home and nearby market Watermelon yet introduced.
 - Pkt., 10c; ez., 15c; 1/4 lb., 30c; lb., \$1.00.
- Stone Mountain. One of the best early Melons for the North. Largest of the early varieties and of excellent high quality. The fruit is large, almost rounded, dark green, with bright red flesh which is of delicious sweetness. Pkt., 10c; oz., 15c; 1/4 lb., 30c; lb., \$1.00.
- TOM WATSON. A long, deep green Melon with bright red flesh, crisp and sweet. The rind is tough and stands shipping better than others. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 75c.
- WINTER QUEEN. Has a white skin with deep red flesh of excellent quality. They are round, of medium size, and if picked before frost will keep for several morths. A superb variety for home and market. Give them a trial, Pkt. 10c; oz., 15c; ¾ lb., 30c; lb., \$1.00.

Black Seeded Simpson Lettuce

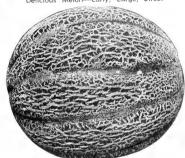

Dixie Queen

Stone Mountain

Delicious Melon-Early, Large, Sweet

Bender's Surprise Melon

Giant Curled Long Standing Mustard

Muskmelons or Cantaloupes

POPONE (It.)

MELONE (Ger.)

One ounce will plant 100 hills; 2 to 3 lbs. per acre.

Plant seed outdoors May 15 to June 15, either in rows or hills, one riant seed outdoors may 10 to June 10, either in rows of hins, one inch deep in rows. Make rows 5 feet apart and thin plants to 12 inches apart in the row. If in hills, make hills 4 to 6 feet apart, allowing 3 to 4 plants to the hill. Make a heavy application of manure, either broadcast or in the row.

Delicious. Early, large, sweet melon. One week earlier than Bender's. Being of large size and delicious sweetness, makes it superior to other Being of large size and delicious sweetness, makes it superior to other early melons. Fruits are large, oval shape, light green, covered with fine netting. Flesh is deep orange color, very sweet and most delicious flavor. It will not stand long distance shipping. Very popular for the home garden, roadside stands and local sales.

Pkt., 10c; ½ oz., 15c; oz., 25c; ½ 1b., 70c; 1b., \$2.00.

Bender's Surprise. The melons are round to oval in shape, ribbed and partly covered with netting. When ripe, the fruits turn a golden tint which shows through the netting and gives the melon a very attractive appearance. The size of the melons averages quite large. The fish is so firm and thick that the melons remain firm and in good condition much longer than other large melons of this class. For market and shipping, this is an important consideration. Pkt., 10c; oz., 25c; ½ 1b., 75c; lb., \$2.50.

HALE'S BEST. This early Rocky Ford type is of medium size, oval, and very heavily netted. The flesh is a deep orange color, very firm, thick and of high flavor. This is an excellent shipper and is popular in the New York market. Melons are of high quality. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

Honey Rock. Also called Sugar Rock. Sweet as sugar and solid as a rock. Fruits are oval, medium sized and not rigid. Has a deep orange flesh with a wonderful sweetness. One of the most prolific varieties grown. The rind is tough, and the flesh so firm that melons can be grown. The ring is tough, and the nesh so firm that metons can be allowed to ripen on the vines and be shipped long distances. Distinct from all other sorts. Matures its fruits in about 85 days, from seed. We want you to try Honey Rock. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

HEARTS OF GOLD. Developed by a successful Michigan melon-grower. Vines are vigorous, free from blight or rust, and hardy. Fruits medium sized, nearly round, thickly netted and very firm so they stand shipping. Flesh is deep orange color and deliciously flavored. Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

OHIO SUGAR. Popular home market variety. One of the sweetest and most luscious green-fleshed Cantaloupes, being round to oval in shape, heavy, and flesh is deep, sugary, juicy, and tender. Distinctly ribbed and well netted. Pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., \$2.50.

TIP-TOP. The fruits are large, nearly round, and the skin, when mature, **LE-AUF.** The Figure are arge, nearly round, and the skin, when mature, is greenish yellow, slightly netted. The deep salmon flesh is thick, deliciously flavored, and it ripens clear to the rind. It is a fine shipper, distinct and most attractive in appearance. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

EXTRA EARLY KNIGHT. It is one of the earliest green flesh melons for the northern states. Fruits are oval in shape, well netted and of good flavor. This is an excellent variety for home garden and market. Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

Pride of Wisconsin. (See page 9.) Pkt., 10c; oz., 25c; ½ 1b., 70c; 1b., \$2.25.

Mushroom Spawn

Culture for growing Mushrooms will be sent with each order. Mush-Culture for growing Mushrooms will be sent with each order. Mushrooms can be raised in a cellar or any other place where the temperature can be kept between 50 and 60 degrees. The beds are made of Horse Manure mixed with fine soil. Bottle Spawn is now so superior to the old style Brick Spawn that we have discontinued offering the bricks. It is grown in sterile bottles which are removed and the Spawn than packed in cartons. A single carton of Bottle Spawn will spawn 40 sq. ft. Postpaid, 1 box, \$1.00; 3 boxes, \$2.85. Write for prices on larger quantities.

Mustard

One ounce will sow 100 feet of row; one pound will sow an acre in drills; two pounds if broadcast.

FORDHOOK FANCY. A beautifully curled Mustard. Very mild, pleasant flavor. The leaves are curled and fringed, and the plant remains long without running to seed. Pkt., 10c; 0c., 15c; ½, lb., 30c, lb., \$1.00.

Giant Curled Long Standing. (Gold Medal Winner, All-America Selection). This new variety has all the good points of the finest curled sorts, and will stand true to form weeks longer than the old kinds without going to seed. This is a great advantage for the gardener. Pkt., 10c; oz., 15c; 1/4 lb,. 30c; lb., \$1.00.

One ounce will sow 100 feet of row; 5 lbs. per acre.

Onions may be grown with sets, plants or seed. Sets are covered with an inch of soil. Several weeks are required to produce "green eating" an inch of son. Several weeks are required to produce from eating onions. Frequent shallow cultivation is suggested. They are mature when the tops break over naturally and become dry. A loose but rich fine soil will usually produce the best green onions and mature bulbs from seed. Don't neglect to thin the plants to stand 3 or 4 inches apart in the row.

Early Yellow Globe. This is an outstanding Onion. Produces enormous crop of large fine looking onions that bring the top price. Good keeper, very attractive, large globe-shaped, deep yellow in color, thick skin. This is a special fine Onion for muck land. Matures at least two weeks before Southport Yellow Globe. Pkt., 10c; oz., 60c; 1/4 lb., \$1.75; lb., \$6.00.

Brigham Yellow Globe. Sometimes called MICHIGAN Onion. They are a deep globe, very solid, with a very heavy skin of excellent darl color. Becoming very popular because they yield large crops and have fine keeping qualities. Pkt., 10c; 0x., 60c; ½ 1b., \$1.75; 1b., \$6.00.

YELLOW GLOBE DANVERS. The seed of Yellow Globe Danvers has been grown with great care and will produce onions of uniform globe shape, deep orange color with firm, tight skin. This Onion will produce large crops on muck and upland. This is a most dependable strain. Pkt., 10c; oz., 40c; 1/4 lb., \$1.35; lb., \$4.50.

OHIO YELLOW GLOBE. This is probably the type of Yellow Globe Onion most widely used in America. It is early, a reliable, large yielder and keeps well. It is pure, deep yellow, with firm, hard, white flesh, mild and of excellent flavor. It is of true globe-shape, with flattened base. Pkt., 10c; oz., 45c; ½ lb., \$1.40; lb., \$4.75.

Sweet Spanish. (Utah Strain.) There is an increasing demand in America for the Yellow Spanish Onions, due to their phenomenally large size, handsome appearance, sparkling white flesh of very fine texture, and extremely mild flavor. See page 8. Pkt., 10c; oz., 65c; 1/4 lb., \$1.90; lb., \$7.00.

SOUTHPORT YELLOW GLOBE. (Selected Strain). Bulbs large-sized, deep globe-shaped, small neck: cures well, excellent keeper, deep yellow color, excellent quality. We urge every grower to try Holmes select strain; none better. Pkt., 100; 02., 600; ½ lb., \$1.75; lb., \$6.00.

Southport White Globe. The finest of all white Onions. shipper and keeper. Our stock has the true globe shape, full at the base and shoulder. Crops raised from our seed have given excellent results to others; they will do the same for you. Pkt., 10c; oz., 65c; ¼ 1b., \$1.90; 1b., \$7.00.

SOUTHPORT RED GLOBE. A large, perfectly round, deep red Onion. Keeps well and is best red variet Pkt., 10c; oz., 40c; 1/4 lb., \$1.35; lb., \$4.50.

Holmes' Genuine Bottle. It derives its name from its long, bottlelike shape; being mild and sweet, is absolutely unsurpassed in flavor. Bottle Onion grows longer, whiter and has more edible stalk than any other Onion. See page 9. Pkt., 10c; oz., 45c; 1/4 lb., \$1.40; lb., \$5.00.

PRIZETAKER. Not offering. Sweet Spanish a much better variety of

the same type,

WHITE PORTUGAL or SILVERSKIN. Early, medium sized, flat shaped, cures well, of pure snow-white color, very good quality, fine grained, and of mild flavor. When thick in the row, this Onion matures when small and is excellent for pickling or bunching. Pkt., 10c; oz., 60c; 1/4 lb., \$1.90; lb., \$6.50.

WHITE BUNCHING. This Onion is becoming more and more popular. The flavor is mild, and the Onion remains tender and pure white. Is especially adapted for bunching, growing a large thick stem with no bulb. Pkt., 100; oz, 450; 14, 15., \$1.40; lb., \$5.00.

White Lisbon (White Bunch). Excellent bunching Onion; is popular in many markets. Forms mild sweet "green" Onions with large tops. Early. Pkt., 15c; oz., 70c; 14 lb., \$2.00.

Onion Plants

Riverside Sweet Spanish. (Yellow.) Planted in the spring these plants will produce large Spanish Onions with very little labor. When set out in the early spring, large, handsome Onions are produced within 8 to 10 weeks. These Onions will grow in any good garden soil and will keep a long time. Set the plants 3 to 4 inches apart in rows 15 to 18 inches apart.

Crystal White Wax. Usually planted to grow early green Onions, although the mature bulb is large, flat, pure white and of superb flavor, making an excellent boiling or slicing Onion for fall use.

Prices on either variety, approximately 100 plants, 35c; 200 plants, 60c; 5 bundles (approximately 500 plants), 55c, postpaid, Not less than 100 plants sold. Prices on larger lots will be sent on application.

Onion plants ready March 20th, Orders will be taken at any time for shipment. Please specify when you want the plants sent.

PETERSILIE (Ger.)

Parsley

PREZZEMOLO (It.)

One ounce will sow 200 feet of row; 3 pounds will sow an acre.

Evergreen. (All-America Winner.) Darkest green of curled types. Dense, heavy, deeply cut foliage, vigorous grower, resistant to frost. Dense, heavy, deeply cut foliage, vigo Pkt., 10c; oz., 20c; 1/4 lb., 45c; lb., \$1.50.

Paramount. All-America Selection. This is no doubt one of the best Parsleys we have ever seen. The leaves are a beautiful dark green very finely curled and extremely uniform. The stems are only a little shorter than Dark Green Double Curled. Excellent for home gardens, market and forcing crops. Fit., 5c; 0z., \$15c; 4 lb., 30c; 1b., \$1.00.

MOSS CURLED. (Champion or Triple Curled.) A good all-around Parsley, very finely curled leaves. Medium deep green, of upright growth. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

Hamburg, Long or Parsnip-Rooted. The roots are used as well as the leaves and when boiled and served like parsnips have a very pleasing flavor. They are also valuable to add flavor to soups and stews. They can be stored in sand and used all winter. They are smooth and from 5 to 6 inches long and large around. This strain is popular with market gardeners. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

PLAIN-LEAVED. The very dark green leaves are flat, deeply cut. Pkt., 5c; oz., 10c; 1/4 lb., 25c; lb., 90c.

PASTINAKE (Ger.)

Parsnips

FASTINABA (It.)

One ounce will sow a row 200 feet long; 5 to 6 pounds to the acre.

A few rows will supply the needs of the average family. A slow germinating seed, break any crust that forms on the ground along the seeded row. Be certain soil is kept moist and soft from time seed is sown until the plants have become well established. Thin to 4 inches between plants. Seed sown in the spring produces a crop by fall. The roots are hardy and may be left in the soil until the following spring, but we suggest that a portion of the crop be dug in the fall and stored for winter use.

HOLLOW CROWN SUGAR. The roots grow to a medium length, are smooth and free from side roots or prongs. Snow-white. of very good quality, tender and sweet. Pkt., 5c; 02., 15c; ½ 1b., 40c; 1b.,\$1.35.

Peerless. Finest stock grown. The roots are clear white, clean, well filled with little or no core, free from stringiness. Length intermediate, shoulders wide and with a deep crown. We cannot recommend this too highly. Pat., 10e; oz., 15e; ¼ lb., 45e; lb., \$1.50.

Peanuts

Plant the shelled nut, 2 bushels per acre.

Peanuts can be successfully grown in the North on rich, sandy soil. Plant 2 to 3 inches deep, with the hulls on, in rows about 3 feet apart and about 10 inches apart in the rows. When the plants are nearly full grown throw earth up to them. This will cause the nuts to form. When ripe, dig up the vines and hang up to dry.

IMPROVED JUMBO VIRGINIA. These are large Peanuts but are an early variety and very prolific. Best to plant in the North. 1/4 lb., 15c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50.

Okra or Gumbo OCHER (Ger.)

OCRA (It.)

One ounce will sow 100 feet of row; 8 pounds will sow an acre.

A thickener for soups, is also used as a flavoring and as vegetable. Seed must not be sown until warm weather becomes settled. June and not later than July 1st. Space the plants 15 by 24 inches. Harvest pods while young for the best quality.

Dwarf Long Pod. Sets its deep green, long, tender pods very early, close to the ground and very abundantly; continues to bear late in the season. Pkt., 5c; oz., 10c; ½, 1b., 20c; 1b., 60c.

PERKINS' LONG POD. Distinct pods, intensely dark green, 8 to 10 inches long when full grown. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

One pound will sow 100 feet of row; 120 pounds will sow an acre.

What is more delicious than young green Peas freshly picked off the vine and cooked immediately. Plant Peas to eat fresh and to can. Sow thickly, allowing 12 to 16 plants to grow per foot of row. Seeded in early spring, cover with 1 to 2 inches of pulverized soil. Many gardeners increase their yields by using seed inoculants. (See page 38.) The sowing of early, medium and late varieties is preferred to successive seedings of one veriety. "All growing and late varieties will need support such of one variety. Tall growing and late varieties will need support such as chicken wire or brush.

Holmes' Early Market. The largest extra early Pea (2½ feet). Almost as early as Alaska and the pods are much larger. Can be sown very early without danger of rotting. The pods are as large as World's Record and mature a few days earlier. This is an excellent market variety and we highly recommend it for the home garden where very

early Peas are wanted. Pkt., 10c; ½ lb., 25c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.30; 10 lbs. or more @ 24c per lb.

MASKA. (Wit-Resistant.). (2 feet.) One of the earliest garden Peas in cultivation. Pods 2½ inches long, and very plump. 54 days. Pkt., 10c; ½ lb., 20c; lb., 30c; 2 lbs., 55c; 5 lbs., \$1.10; 10 lbs. or more @ 20c per lb.

Early Bird. (2 feet.) Very early. The pods are as large as Gradus and mature a few days earlier. Pods well filled with very large, dark green Peas. Being a smooth variety, they can be planted very early without danger of rotting; very productive, making Early Bird a profitable market sort. 56 days.

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.15; 10 lbs. or more

Pkt., 10c; ½ 1

Little Marvel. (18 inches.) It is most desirable of all the extra early dwarf Peas. It is extremely prolific. The Peas are deep green and of high quality. On account of its great productiveness and unsurpassed nigh quality. On account of its great productiveness and disappears quality, it is popular for home garden and market. The pods are dark green, 3 inches long, ½ inch wide, very plump, straight and with blunt ends. Also desirable for muck soil. 62 days.

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 5 lbs., \$1.20; 10 lbs. or more @ 22c per lb.

Hundredfold or Blue Bantam. (Improved Laxtonian). (11/2 feet.) A most popular sort. Immense pods. This is without doubt one of the best dwarf, largest podded sorts, bearing enormous, intensely dark green, pointed pods, 4 inches long, well filled with large, deep green Peas of delicious flavor. Fine quality. Ready to use about three days after the earliest sorts. Splendid Pea for the market gardener and for the home garden. 62 days.

Pkt., 10c; 32 1b., 20c; 1b., 35c; 2 1bs., 60c; 5 1bs., \$1.20; 10 1bs. or more @ 22c per 1b.

Laxton's Progress. (1½ feet.) A prolific bearer of rich, dark green pods which are 4 to 4½ inches long and well filled with dark green Peas. Their beauty assures a ready sale. 60 days. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 1 lbs., \$1.20; 10 lbs. or more @ 22c per lb.

THOMAS LAXTON. (Improved.) (3 feet.) Larger and better than the old strain. It is a very real inprovement, Vines well covered with large pods 3½ inches long, well filled with deep green Peas of finest quality. A day or so earlier than the older type. Highly recommended for market growers and home garden. 57 days. Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.15; 10 lbs. or more,

@ 21c per lb.
NOTT'S EXCELSIOR. (15 inches.) Very important early Dwarf variety for the home gardener. Very productive. Pods 3 inches long and well

59 days. filled.

filled. 59 days.

Pkt., 10c; ½ lb., 20c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.15; 10 lbs. or more

@ 21c per lb.

WORLD RECORD. (Early Gradus.) (2½ feet.) An early semi-dwarf

Pea of the Gradus type. The first good market Pea and equally satisfactory for the home garden. Pods are 4 inches long, medium green, broad and plump, well filled with Peas of good size and color. 55 days.

Pkt., 10c; ½ lb., 20c; lb., 35c; £ lbs., 60c; £ lbs., \$1.20; 10 lbs., or more

@ 22c per lb.

POTLATCH. (21/2 feet.) This large-podded Pea is popular with home and market gardeners. Pods are dark green, 4½ to 5 inches long. 7/8 inch wide, contain 8 to 9 Peas of delicious flavor. Very productive.

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 1 lbs., 60c; 5 lbs., \$1.10; 10 lbs., or more @ 20c per lb.

DWARF TELEPHONE or DAISY. (2 feet.) Satisfactory for home and market garden. Pods deep green, 4 inches long with Peas of fine quality, 70 days. Pkt., 10c; ½ 1b., 20c; 1b., 35c; 2 lbs., 60c; 5 lbs., \$1.20; 10 lbs. or more

@ 22c per lb.

Alderman. (Improved Telephone). (4 feet.) The best of all the tall late Peas for home and market gardens. Pods are 5 inches long, are plump to round, dark green and well filled. The plant branches and bears profusely over a long late picking season. The vines must be well supported with tall brush or wire. Wider rows necessary than the varieties with shorter vines. 72 days.

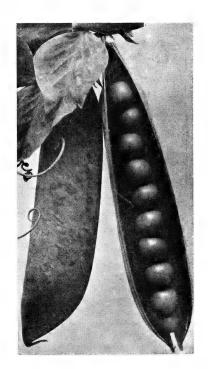

Pkt., 10c; ½ 1b., 20c; 1b., 35c; 2 lbs., 60c; 5 lbs., \$1.15; 10 lbs. or more @ 21c per lb.

Pkt., 10c; ½ 1b., 20c; 1b., 30c; 2 1bs., 50c; 5 1bs., \$1.00; 10 1bs. or more @ 18c per 1b.

Sweet Peppers

PFEFFER (Ger.) PEPERONE (It.)

One ounce will produce 1000 to 2000 plants. Product to that to that tomatoes. After all danger of frost is past, late in May or early June. of tomatoes in this latitude, set your Peppers in the garden, spacing the plants 2 by 3 feet. Keep the Peppers picked before they turn red to assure continued production.

Early Calwonder. A week earlier and a more productive strain than California Wonder. Fruits blocky and smooth, slightly smaller than California Wonder but of equally thick flesh. Plants shorter, fruits are set earlier and more prolific; very attractive market type and excellent for home gardens

Pkt., 10c; 1/2 oz., 35c; oz., 60c; 1/4 lb., \$1.75; lb., \$6.00.

California Wonder. Here is a new Pepper of real merit. It is medium early; square-ended. It will sit upright and is ideal to stuff and bake, or to serve whole with salad. Its walls are exceptionally thick, heavier and firmer than any other sort, and the flesh is deliciously sweet and spicy, with no bite to it. The deep a liant crimson. Try it; it's a wonder. The deep attractive green changes to a bril-

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.50; lb., \$5.00.

OSHKOSH. The largest and best yellow Pepper. Before maturing it is of a deep green color; large, smooth, best shape for stuffing. When ripe the color is a deep orange-yellow. Flesh exceptionally thick. The sweetest Pepper grown. We highly recommend this Pepper for market or home use where smooth, firm, thick flesh and high quality are more desired than earliness. Much superior to Golden Queen. Pkt., 10c; ½ oz., 30c; oz., 55c; ¼ lb., \$1.60; lb., \$5.50.

King of the North. Early, Prolific, Large, Thick-Fleshed Fruit. Makes a tremendous yield of large, sweet Peppers. The plants are medium size, covered with large fruit similar in shape to Ruby King; but con-siderably earlier: rather long, narrow, tappering, flesh is thick, mild and sweet; dark green turning to rich deep red when ripe. If you have not grown King of the North Pepper be sure to plant it this season. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$5.00.

LARGE BELL or BULL NOSE. One of the earliest sorts. Bright red when ripe, deep green when young; flesh fairly thick; sweet. The plant is medium sized, fairly upright, produces a large number of Peppers which are blunt-ended and of good size. Pkt., 5c; 1/2 oz., 20c; oz., 30c; 1/4 lb., 85c; lb., \$3.00.

Holmes' Prolific Sweet. A very popular and dependable Pepper. Earlier than California Wonder, about the same thickness of flesh. Gives heavy yields of large, beautiful, red fruits and holds its size throughout the season. You will have no regrets with Holmes' Prolific Sweet. Pkt., 10c; ½ oz., 35c; oz., 60c; ½ 1b., \$1.75; 1b., \$6.00.

WORLD BEATER. One of the earliest of the large Peppers, being a cross between Chinese Glant and Ruby King, having the longer form and earliness of the latter with the size of the former. Fruits four-lobed, 5 inches long by 3½ inches in diameter; flesh very thick and mild; exceedingly productive and a good shipper. Pkt., 10c; 1/2 oz., 20c; oz., 35c; 1/4 lb., \$1.10; lb., \$3.50.

RUBY KING. Plants are productive, and of dwarf, compact, upright growth; fruits pendent, often 4 to 6 inches long by 3 to 4 inches in diameter, tapering, bright ruby-red; flesh is thick, sweet and mild. Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 90c; lb., \$3.25.

PEPPERS-Continued

SUNNYBROOK. Also known as Squash and Cheese. This type is early, prolific and thick-meated. This is the Pepper which is so popular for "Pimientos" because of its extremely thick flesh and fine quality. Pkt., 10c; 1/2 oz., 30c; oz., 50c; 1/4 lb., \$1.50; lb., \$5.00.

PIMIENTO. Also called Sweet Meat, Glory. Very sweet. A splendid variety for filling, for salads, for flavoring. The plants are very prollific, the Peppers medium in size and heart-shaped. When ripe the are a brilliant, attractive red. Flesh is thick and mild. Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ 1b., 90c; 1b., \$3.25.

HOT PEPPERS

Hungarian Wax Thick Block Type. Known as Bulgarian and Rumanian. This is an upright Pepper. In color, first light green, changing to light yellow, to orange, and finally to red when ripe. Size 2% includes in diameter and 4 inches long. This variety is very early and prolific. The flesh is thick and agreeably pungent. They are used mostly in the light vellow stage of growth. (Our own growing.) **Pkt., 10c;** ½ oz., light yellow stage of growth. 40c; oz., 75c; 1/4 lb., \$2.50; lb., \$8.00.

ANAHEIM. (Thick, Long Red). Known among the Italians as the "Finger Pepper." A hot Pepper on the order of Cayenne, though much thicker, with a thicker flesh. Early and very prolific. Fruit pendent, 6 to 8 inches long by 1½ inches in diameter at top, red and pungent. Popular in many markets; early.

Pkt., 10c; 1/2 oz., 25c; oz., 45c; 1/4 lb., \$1.20; lb., \$4.00.

Hungarian Wax Long Type. Fruits 2 inches in diameter at the top, tapering to 6 to 7 inches long. It is very symmetrical with a slight curve at the bottom end. Fruits are greenish yellow color, then turn to orange and bright red. Hot

Pkt., 10c; 1/2 oz., 35c; oz., 60c; 1/4 lb., \$1.75; lb., \$6.00.

LONG RED CAYENNE. A red, hot variety. The fruits are long and tapered, 5-inch pods taper from one-half inch to the point. Pkt., 10c; ½ oz., 25c; oz., 40c; ½ 1b., \$1.10; 1b., \$3.50.

Pumpkins KUERBISS (Ger.)

ZUCCA (It.)

One ounce will plant about 25 hills; 4 pounds per acre.

A few hills of Pumpkins in among the stalks of corn will be appreciated around Thanksgiving time. Plant after danger of frost, May 15th, 1 inch deep, in hills 6 by 8 feet apart, allow four healthy plants to a hill. Use well-rotted manure if available, mixing thoroughly but keeping out of contact with the seed.

Orange Winter Luxury. This new strain of Winter Luxury is a great improvement over the old type. They are of a deep orange color, beautifully netted, the flesh is very thick, deep orange-yellow, one of the finest for pies. Pkt., 10c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

SMALL SUGAR or PIE. This variety is small, round, somewhat flattened, 8 to 10 inches in diameter, slightly ribbed, of a deep orange color, and a good keeper. The flesh is a rich deep yellow, fine grained and very sweet. Pkt., 5c; oz., 10c; ½ 1b., 25c; 1b., 75c.

KING OF THE MAMMOTES or JUMBO. The largest of all Pumpkins, often weighing 100 lbs or more. The fruits are flat, round; skin yellow; flesh bright yellow, fine-grained and very thick.
Pkt., 10c; oz., 15c; ¼ lb., 45c; lb., \$1.50.

GREEN STRIPED CUSHAW. Fruits large, solid, thick crookneck, smooth, white with green stripes; shell thin; flesh thick, cream colored, and sweet. Pkt., 10c; oz., 10c; ¼ 1b., 30c; lb., \$1.00.

CONNECTICUT FIELD or "BIG TOM." A very productive, large, orange colored field Pumpkin; a little deeper than round and slightly flattened. Extensively grown between corn for stock. Flesh is rich orange-yellow; fine grained, and highly flavored. Oz., 10c; 1/4 lb., 20c; lb., 70c.

MIXED PUMPHINS. All shades, colors and sizes. This mixture is especially offered to those who wish to grow a collection of the different kinds or Pumpkins for home use. 02., 10c; 14, 10., 30c; 10., \$1.00.

RHABARBER (Ger.)

Rhubarb RABARBARO (It.)

One ounce to 150 feet of row.

VICTORIA. A midseason variety with large leaf stalks of clear red. The stalks are crisp, tender, juicy and fine flavored. It is an excellent sort for market or home use.

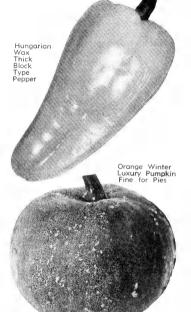

SEED: Pkt., 10c; oz., 10c; 1/4 lb., 35c; lb., \$1.25.

ROOTS: Each, 20c; 5 for 75c; 10 for \$1.25, postpaid. Not prepaid, 100 roots, \$7.00.

MacDonald. Was developed at the MacDonald College in Quebec and is now being grown in many regions and is popular because of its red color and large stalks which are tender and of excellent flavor. offer roots only of this variety. At Penn State College proved superior to others from standpoint of color, size and vigor. Strong root divisions, each 35c; 3 for 90c; doz., \$3.00, postpaid.

Radishes

BAVENELLO (It.)

One ounce sows 100-foot row; 10 pounds to the acre.

Sweet, crisp and colorful Radishes are usually those that have made a quick growth. Sown outdoors in early spring, re-seedings are made at bi-weekly intervals until August, many gardeners making an additional sowing in September. The seed is covered lightly, being thinned to stand 1 to 2 inches between plants. The best results will be obtained on a sandy loam soil amply supplied with well-rotted manure. This is an ideal vegetable to plant between rows of less rapid germinators, such as parsnips.

Early Scarlet Globe. Our strain of Scarlet Globe is a perfect oval shape, very early sort. Is superior and valuable for out-of-door culture. The color is a bright vermilion-scarlet and flesh pure white, crisp and of fine flavor.

Pkt., 5c; oz., 15c; 1/4 lb., 25c; lb., 75c.

Comet. All-America Selection. Comet has the same qualities as Scarlet Globe, somewhat round in shape. Grows to fair size with a short top. The Comet has wonderful, long-standing qualities before getting pithy. In keeping and eating qualities, it ranks as a leader and it will remain crisp and white when all other early radishes get pithy. Color is bright scarlet, and taproots are thin. We recommend every radish grower to try this new strain. Pkt., 10c; oz., 20c; ½ lb., 35c; lb., \$1.25.

lcicle. The best White Radish. A highly superior strain of this popular variety, the result of many years of rigid selection. Roots pure white with very slender tap root. Flesh very crisp and remains in good condition very long. Our stock of Icicle is carefully bred and critically selected. Expert supervision is given to the crop. You may plant with absolute confidence. 25 days. Pkt., 5c; 0z., 15c; 14, 10., 25c; 10., 75c.

SPARKLER WHITE TIP. The roots of this variety are round, smooth, dull scarlet-red, with the lower one-third of the root white. The flesh is mild, white, crisp and tender. A very attractive Radish bunched for market and when served on the table because of its two-color skin. Pkt., 50; 0z., 150; 1½ 1b., 250; 1b., 350.

CINCINNATI MARKET. The most select strain of the Long Scarlet Short Top type. The roots grow 6 to 7 inches long, and are bright scarlet with very brittle flesh. Our stock is very short-topped; excellent for outdoors. 27 days. Pkt., 5c; oz., 15c; ½ 1b., 25c; 1b., 75c.

WHITE STRASBURG. Good summer Radish for home and market garden. Roots become 5 inches long 1½ to 2 inches in diameter at the shoulder; tapered; smooth; white flesh, firm, crisp. 40 days. Pkt., 10c; oz., 15c; ½ 1b., 25c; 1b., 85c.

Holmes' Royal Red. A selection of Radish that is a considerable advancement. The roots are completely ball-shaped, with very fine tap root and remarkably quick in forming. The color is a uniform rich glowing scarlet. The foliage is small, and it is especially adapted for forcing as well as open ground planting. Remember, it is the first on the market. 20 days. Pkt., 10c; 0z., 20c; ½ 1b., 45c; 1b., \$1.50.

CRIMSON GIANT. Maturing in about the same time as Early Scarlet Globe, this Radish produces roots nearly twice the size, of perfect globe shape, with white flesh and deep red skin. 28 days. Pkt., 5c; oz., 15c; ¼ 1b., 25c; 1b., 85c.

FRENCH BREAKFAST, Olive-shaped; rosy scarlet with white tip. A quick-growing variety of excellent quality. 25 days. Pkt., 6c; oz., 15c; ½ lb., 25c; lb., 75c.

MIXED RADISHES. All kinds, colors and shapes. Just what is wanted for the home garden where the space is limited. One sowing is all that is required for a continuous supply.

Pkt., 5c; oz., 10c; ½ 1b., 25c; lb., 75c.

Winter Radishes

WHITE CHINESE or CELESTIAL. An extra-fine, white, cylindrical Radish. When fully matured, roots will average from 6 to 8 inches long and 2½ to 3 inches in diameter. White skin: flesh pure white, compact, crisp. 55 days. Pkt., 5c; oz., 15c; ½ lb., 25c; lb., 85c.

ROUND BLACK SPANISH. Roots round. 3½ to 4 inches in diameter. Skin black; flesh white, firm and crisp. Very pungent but finely flavored. 55 days. **Pkt.**, 5c; cx., 15c; ½ lb., 25c; lb., 25c; lb., 25c.

LONG BLACK SPANISH. Produces roots with black skin. Flesh white, crisp, well flavored. This will keep better than other winter varieties. 55 days. Pkt., 5c; oz., 15c; ½ 1b., 25c; 1b., 85c.

CHINA ROSE. Roots heavier at lower end, deep rose-red color; flesh white, crisp, frm; 4 to 5 inches long. 50 days. Pkt., 5c; cz., 15c; ¼ lb., 25c; lb., 85c.

Salsify - Oyster Plant

HAFERWURZEL (Ger.)

SASSEFRICA (It.)

One ounce will sow 75 feet of row; 8 pounds per acre.

Successful parsnip culture will prove satisfactory for Salsify. A deep, rich, friable soil is to be preferred. The roots are used any time in the fall or winter.

MAMMOTH SANDWICH ISLAND. Large, thick, smooth, white roots. Excellent quality. Pkt., 10c; oz., 20c; 1/4 lb., 60c; lb., \$1.85.

SPINAT (Ger.)

Spinach

SPINACE

One ounce will plant a row 100 feet long; 20 pounds to the acre when drilled.

This now famous vegetable may be sown as soon in the spring as the ground is workable. Small weekly seedings at successive weekly periods will give you a supply over a longer period. However, summer crops from June until mid-August in this latitude are not fully satisfactory. Additional seedings may be made after the latter date. 3 to 5 inches is allowed between plants. In our vicinity, Spinach to winter over is seeded about September 1. For Spinach Seed treatment use Cuprocide. See

Special Summer Savoy. A strain of Long Standing Bloomsdale, especially selected to make its best growth during June, July and early August. Plants erect, dark green, well-crumpled, slightly smaller and slower growing than Long Standing Bloomsdale.

Pkt., 10c; 0z., 15c; ½ 1b., 25c; 1b., 80c.

LONG-STANDING BLOOMSDALE. (Original Stock). Best for spring sowing. It is a favorite with truck growers. It will stand in marketable condition 10 to 14 days longer before bolting to seed. Pkt., 10c; 0z., 15c; ¼ 1b., 25c; 1b., 80c.

PRINCESS JULIANA. A midseason variety. Leaves savoyed and crumpled, very dark, glossy bluish green, firm and very thick in texture. Pkt., 10c; oz., 15c; ½ lb., 25c; lb., 80c.

KING OF DENMARK. (Original Stock). A medium early variety. Plant hardy, vigorous and rapid in growth. Leaves large; long pointed; younger leaves coarsely crumpled and "savoyed" but more flattened as they enlarge, leaves firm and thick in texture and dark, dull green in color. Pkt., 10c; 0z., 15c; ½ 1b., 20c; 1b., 30c.

Nobel Giant-Leaved. Early. This is a long standing variety. Plant very large, hardy, strong growing; compact, rather upright to spreading cluster. Leaves large, thick, usually broad, arrow-shaped with rounded tip, very slightly crumpled at heart, finely "savoyed," firm and thick in texture. Pkt., Dc; cz., 15c; ½ lb., 25c; lb., 80c.

VIRGINIA SAVOY, BLIGHT-RESISTANT. It is resistant to blight (mosaic) and should be used where blight is prevalent. Very early. Recommended in the North for fall planting. Pkt., 10c; 0z., 15c; 1/4 lb., 25c; lb., 80c.

Old Dominion. Long standing, blight resistant, it combines the dark, large, crumpled leaves of the Savoy with the long-standing ability of the King of Denmark. Excellent yielder, proves valuable for fall and winter crops. It, moreover, does not go to seed as quickly as Old Virginia Savoy. Fat., 10c; oz., 15c; ¼ 1b., 25c; 1b., 30c.

NEW ZEALAND. A distinct Spinach differing from any of the true Spinach varieties. Thrives in hot weather and on any soil. Plant of spreading habit, growing very large, with comparatively small, broad, pointed leaves. Cuts good quality throughout the summer. Soak the seed before sowing. Pkt., 10c; cz., 15c; ½ lb., 40c; lb., \$1.10.

KUERBISS (Ger.)

Squash

ZUCCA (It.)

One ounce will plant 25 hills; 3 to 4 pounds to the acre. Culture of this crop is much the same as that of pumpkin.

Summer Squash

Early Yellow Prolific Straightneck. (All-America Winner.) A bush type, probably the most prolific and altogether the most desirable of the yellow Summer Squashes. This variety frequently yields a dozen or more fruits per plant over the entire season. Fruits are straight, smooth and of an appetizing cream color when best for market. They are firm and useable when only a few inches long and are good until 12 to 14 inches long. Ptt., 10c; cz., 20c; ½ lb., 50c; lb., \$1.50.

EARLY WHITE BUSH SCALLOPED (Patty Pan). Well known, early, somewhat flattened, scalloped, medium sized Squash. The color is milk-white; firm, smooth, richly flavored. A popular white summer Squash for garden use. Pkt., 5c; oz., 15c; ¼ 1b., 35c; 1b., \$1.00.

MAMMOTH YELLOW BUSH SCALLOP. (Golden Custard). A patty-pan type, flat, deep orange in color, 8 to 10 inches in diameter. Pkt., 10c; oz., 20c; ¼ 1b., 40c; 1b., \$1.25.

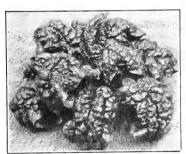

Early Giant Crookneck. The largest and earliest yellow crookneck. They have warted skin, rich orange-yellow, and average 18 to 20 inches long; neck curved. Pkt., 5c; cz., 15c; ½ 1b., 35c; 1b., \$1.00.

Giant Straightneck. This Squash is the same as the Giant Summer Crookneck, except that the necks, instead of being curved, are straight. Pkt. 10c; oz., 20c; ¼ 10., 40c; 1b., \$1.25.

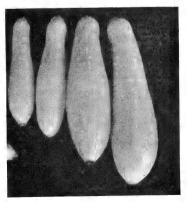

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Trial Showing Long-Standing Character of the Long-Standing Bloomsdale Spinach

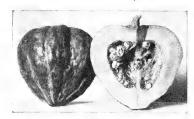

Old Dominion Spinach

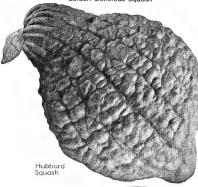

Early Yellow Prolific Straightneck Squash

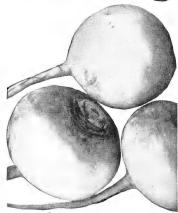

Dark Green Zucchini Squash

Golden Delicious Squash

Purple Top White Globe Turnip

SUMMER SQUASH-Continued

Dark Green Zucchini. (Extra Long Strain.) A bush type. The fruits are smooth, cylindrical, rich dark green, often called "Black." 15 to 18 inches long, 4 inches in diameter. The richer colored young fruits brighte top price on the market. It is claimed by many, Dark Green Zucchin has a better flavor than other strains. Try some this year. Pkt., 10c; oz., 20c; ¼ 1h., 50c; ib., \$1.50.

COCOZELLA. Excellent for home and market gardens. Fruits are long and slender, mottled dark and light green. They are used when 10 to 12 inches long and while green. Fkt., 10c; oz., 20c; ½ lb., 50c; lb., \$1.50c;

Winter Squash

Buttercup. One of the finest Squash obtainable of the winter type. Is small, weighing only 3 to 4 lbs., but of very thick flesh. Is drum shape and has a small "button" or turban at the blossom end. Dark green in color.

Pkt., 10c; oz., 25c; 1/4 lb., 60c; lb., \$2.00.

DELICIOUS. Smaller than Hubbard, but of finer quality, deeper green shell with orange flesh, dry and sweet. A dependable Squash for late summer and early winter use **Pkt**, 10c; oz., 20c; ¼ 1b, 45c; lb, \$1.5c; lb.

BLUE HUBBARD. A large variety having a hard, blue-gray shell. It is a long-keeping sort and of finest quality. Pkt., 10c; cz., 20c; ½ 1b., 50c; lb., \$1.75.

GOLDEN HUBBARD. Of deep orange-red color, moderately warted. Flesh of deep orange-red color, dry, fine grained and of very good quality. Similar in shape and form to the True Hubbard, not so large and earlier. Keeps well. Pkt., 10c; oz., 20c; ¼ lb., 45c; lb., \$1.50.

Golden Table Queen. Is acorn shaped, of a beautiful golden yellow color. The fruits measure 5 by 4 inches and are ideal for individual serving. Flesh clear yellow, very sweet and fine grained.

Pkt., 10c; 0z., 20c; 1/4, 1b., 50c; 1b., \$1.50.

Golden Delicious. Has a very high quality and attractive appearance. Skin is a bright reddish orange, and the flesh is rich golden orange. Vigorous and productive. It cooks extra dry; fine grained and sweet. Is a fine keeper for winter use. Excellent for ples. Pkt., 100; 02., 200; ½ 1b., 40c; 1b., \$1.25.

Hubbard. (True Strain). Hard, tough, smooth shell of dark green color, and very rich, fine grained tender flesh. Whether fruits grow large or small, they are equally desirable and there is no better sort to store for winter use. Pkt., 10c; oz., 20c; ¼ lb., 45c; lb., \$1.50.

Table Queen or Acorn. (Des Moines). Early, small in size, about 5 inches long by 4 inches in diameter), weighs about 1½ pounds, oval shaped, of dark green color, smooth skin. Flesh is rich yellow, somewhat coarse grained, dry and mealy, of delicious flavor. Good keeper and can be baked same as Hubbard Squash.

Pkt., 10c; oz., 20c; ½ lb., 50c; lb., \$1.40.

SWISS CHARD. (See page 15.)

WEISSE RUBE (Ger.) Turnips

NAVONE (It.)

One ounce of seed sows 200 feet of row; 2 lbs. per acre.

Purple Top White Globe. This is a well known Turnip, also sold under the name of Red Top White Globe. The roots grow to a good size, measuring 6 inches and more in diameter. They are nearly round in shape and show a rich purplish red color on the upper part of the root which extends above the surface. The lower portion is creamy white. The flesh is white, firm, crisp and of remarkably mild flavor. Pkt., 5c; oz., 10c; ½ 1b., 20c; 1b., 60c.

PURPLE TOP STRAP-LEAF. The roots are quite flat, 4 to 6 inches in diameter. The upper portion of the root is of a deep purplish red, the lower portion clear milky white. Fine-grained, sweet and tender. Grown extensively for fall and winter use. Pkt., 5c; 0z., 10c; ¼ 1b., 20c; 1b., 60c.

Early White Ball. A fine early round pure white Turnip of excellent quality. Has small tops; grows quickly. Pkt., 5c; oz., 10c; ½ 1b., 25c; lb., 80c; 5 lbs., \$3.75.

WHITE EGG. Tops small; flesh pure white, very sweet, firm and mild. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

AMBER GLOBE. The roots are almost round. The skin is a pale amber color. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 60c.

Rutabagas—Swede Turnip

KOHLRUBE, WRUCHEN (Ger.)

CAVOLO NAVONE (It.)

Rutabagas require a longer season for maturing, hence should be sown earlier than turnips, or about June 15.

LONG ISLAND PURPLE TOP (Special Strain). A great improvement in Purple Top yellow Rutabaga. The roots are bright yellow with purple top and no "neck." They are medium size perfectly round or globe shaped, smooth and of fine quality, one of the best for table use. The stock we offer of this wonderful strain is smooth and uniform in shape. Pkt., 5c; oz., 15c; ¼ 1b., 30c; 1b., 90c.

Obacco

CONNECTICUT SEED LEAF. Most popular variety for the North Hardy. Pkt., 10c; 1/2 oz., 20c; oz., 35c; 1/4 lb., \$1.25.

LIEBESAPFEL (Ger.) omatoes

One ounce will produce about 2000 plants.

POMO D'ORO (It.)

Tomatoes contain lots of nitrogen; go easy with fertilizer on the plant bed.

Sow inside about February 15th (7 to 9 weeks) before field planting, transplant once or twice to avoid crowding; harden off and transplant to field after danger of frost, about May 15th or earlier if protected. Set 2 to 6 feet apart in the row and 3 to 6 feet between the rows. Soil should be well fertilized, 1 pound to 50 square feet.

Stokesdale. (Certified Seed.) The largest medium early red Tomato. This is likely to be your most profitable Tomato. Stokesdale is one week earlier than Marglobe, ten days earlier than Rutgers. The most surearrier than margione, ten days earrier than rungers. The most sur-prising thing is the universal adaptability and prolific bearing. It is disease-resistant. Leaves light green and finely cut. Fruit averages 7 ounces, smooth, deep globe in shape, very solid and brilliant red color. Because of its fine quality and heavy yield we believe it will have a place in the home garden as well as market, shipping and

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.50; 1b., \$5.00.

BREAK O' DAY. To the late Dr. Fred Pritchard of the U. S. Department of Agriculture we are indebted for the breeding of this Tomato, and from whom our original seed stock was obtained. The fruit is extremely early, smooth, true globe-shaped, red, solid, with few seeds. The vines are sturdy and wilt-resistant and bear heavily.

Pkt., 10c; ¼ oz., 20c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.50; 1b., \$4.50.

(All-America Winner.) Dwarf. Developed by the Pennsylvania State College. Plants are self-topping, set fruit heavily which ripens over a period of 14 to 20 days. Fruits are scarlet, globular, 4 to 6 ounces, nearly smooth, and do not crack badly. Plants are small, set 20 to 30 inches apart. Practically as early as Penn State Earliana, and in yield has produced more than twenty tons to the acre on college farms

Pkt., 10c; 1/2 oz., 35c; oz., 60c; 1/4 lb., \$1.75; lb., \$6.00.

PRITCHARD (Certified Seed.) Developed by the U. S. D. A. and noted for its disease resistance. Fruits are large, smooth, globular, solid, with thick walls and small seed cavity and scarlet in color. A good variety for homes, market and canning. The plant is self-topping, very prolific, vigorous in growth, affording excellent protection for the fruit from sun scalding.

Pkt., 10c; ½ oz., 20c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$4.50.

Marglobe. (Certified Seed). This highly developed strain of Marglobe is justice certained seed. This planters as the MOST OUTSTANDING TOMATO EVER DEVELOPED. It is bred especially for critical planters who realize the value of quality and purity in tomato seed, and is noted for its extreme solidity, deep globe-type and productivity as well as its disease-resistance—being exceptionally vigorous and healthy. Ripens a beautiful scarlet-red, well up to the stem-profit-able for gardeners and shippers.

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50; lb., \$4.50.

EARLIANA. (Penn. State). This strain of Earliana was developed by Dr. C. E. Myers at the Pennsylvania State College. It has been selected for extra-early maturity, large size of the red fruits, even shape, smoothness and productiveness.

Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.20; lb., \$4.00.

Rutgers. (Certified Seed). This was developed by the New Jersey Experiment Farm. It is a second early variety, fruits are medium to large, similar in shape to Marglobe, except that they are more flat in the stem end. The fruit has a thick outer and inner wall, with very small seed cavities. The fisch is firm and red. The flavor of the fruit is very pleasing and makes a juice with a high percentage of sugar with low acidity.

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.75; 1b., \$5.50.

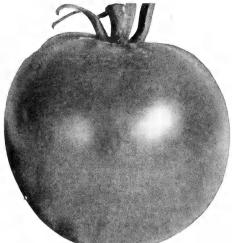

MARHIO. Marhio similar to Marglobe, but earlier and with pink fruits. Developed by Dr. Ira C. Hoffman of the Ohio Agricultural Experiment Station, A leading greenhouse Tomato. This variety is resistant to Fusarium wilt. Fruits are pink, large, smooth, round and deep, having thick meaty rind and cross walls; almost no fibrous core, relatively few seeds. It has given good satisfaction in the field when staked. Our seed is grown from seed furnished by Dr. Hoffman.

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.60; 1b., \$5.00.

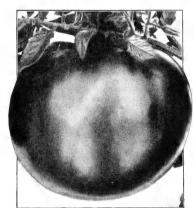

John Baer. (Certified Seed). This strain produces immense crops of smooth, handsome fruit, larger and earlier than most fruit of this variety. The fruit is smooth, solid deep red all through and produced in great clusters. In trials and reports of growers this strain of John Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ 1b., \$1.50; 1b., \$5.00.

JOHN BAER. (Wilt-resistant). Originated by Michigan State College. Has a deeper fruit than regular John Baer, otherwise same shape and

Pkt., 15c; ½ oz., 40c; oz., 75c; ¼ 1b., \$2.35; 1b., \$8.00.

Pritchard The ideal main crop type

Stokesdale Tomato

Rutgers Tomato

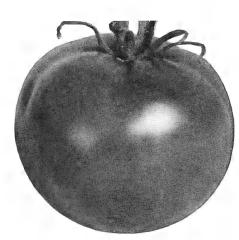

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Grothen Red Globe Tomato

Oxheart Tomato

Ponderosa Tomato

TOMATOES-Continued.

VALIANT. Extra early; extra large: extra smooth. The fruit is so smooth and deep that in many cases it is marketed in the Marglobe class, The fruit is unusually large in comparison with the vine, is solid and of brilliant red color.

Pkt., 10c; ½ oz., 30c; oz., 50c; ½ 1b., \$1.50; 1b., \$5.00.

BONNY BEST (Certified Seed). An excellent early sort for home and market; valuable for forcing under glass. The fruits ripen only a week later than Earliana. Plants produce enormous crops of beautiful, smooth, scarlet-red, flattened globe-shaped fruits which are very firm. Pkt., 10c; ½ oz., 30c; 2a., 50c; ½ 1b., \$1.50; 1b., \$4.50.

Grothen Red Globe. (Certified Seed). Is an improvement over Break O' Day, with heavier, more compact foliage, somewhat better red color, and perhaps less cracking. It has quality, flavor and large size combined with earliness. Fruits red, smooth, deep globe-shaped. Maintains its large size throughout the season. Be sure to give this early sort a trial. Pkt., 100; ½ oz., 35c; oz., 60c; ½ lb., \$1.75; lb., \$6.00.

MINGOLD. (All-America Winner.) A new yellow Tomato, rich in Vitamin D. Attractive on the salad plate. It matures in about 100 days, has smooth round fruits of medium size.

Pkt., 15c; ½ oz., 35c; oz., 60c.

LIVINGSTON'S GLOBE. A great shipping and market variety; also extensively used for greenhouse growing, being large, purplish plnk, globe-shaped. Vigorous and productive. Fruits smooth, firm, solid, maturing medium early. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ 1b., \$1.35; 1b., \$4.00.

BEEFSTEAK. An extremely large, rich scarlet-red variety. A slice of this enormous fruit looks like a piece of beefsteak, being of delicious flavor. Pkt., 10c; ½ oz., 30c; oz., 50c; ½, 1b., \$3.50; 1b., \$5.00.

OXHEART. A large attractive pink-fruited variety, Has a thick flesh, smooth, tender, and almost seedless. Flavor is delicious. Rich soil adds greatly to its productiveness. Is in demand with home gardener. Pkt., 10c; ½ oz., 30c; ½ oz., 55c; oz., 85c; ½ lb., \$2.50.

PONDEROSA. A main crop, pink-fruited variety. Fruits are very large, somewhat flattened and quite smooth considering the large size, solid, and very meaty. Almost seedless and of good flavor. A good Tomato for home use; splendid slicer.

Pkt., 10c; 1/4 oz., 20c; 1/2 oz., 35c; oz., 55c; 1/4 lb., \$1.60; lb., \$5.50.

YELLOW PONDEROSA. Similar in size and growth to Ponderosa. Clear golden yellow; solid and mild in flavor. Pkt., 10c; ½ oz., 20c; ½ oz., 35c; oz., 60c; ¼ 1b., \$1.75; 1b., \$6.00.

TTALIAN TOMATO. A very late, large, extremely solid pink Tomato with a very pleasing, non-acid flavor. Almost seedless. Pkt., 25c; ½ oz., 80c; ½ oz., \$1.50; oz., \$2.75.

Small Fruited or Preserving Tomatoes

Used principally for preserves or eaten raw; all very sweet and mild in flavor.

SEED POTATOES FROM THE RUGGED NORTH

Harvesting a record crop of Irish Cobbler otatoes in Pennsylvania

Certified Seed is Your Best Protection

Potatoes do best in a loose, well-drained soil. The early crop can be planted in April. The crop for winter storage should be planted the first half of June. With rows 30 inches apart and the hills 12 inches apart in the row, 20 to 22 bushels of seed plant an acre. For the garden, a peck of seed plants about 200 hills. Remember that Potatoes need to be sprayed or dusted to insure good yields.

Varieties in Order of Earliness

WARBA. The earliest variety; ripens fully a week earlier than Irish Cobbler. Requires especially good soil and uniform moisture. With favorable conditions it outyields all other early varieties. Round, with distinctive pink, deep eyes. Specially recommended for the home gardener who takes pride in having Potatoes for the Fourth of July. Write for prices.

EARLY SIX WEEKS. The tubers are medium to large in size, oval-shape, reddish color with shallow eye. Write for our Price List.

EARLY OHIO. Those who enjoy the distinctive flavor of the Early Ohio are never satisfied with any other early Potato. Tubers reddish, ing a few days earlier than Irish Cobbler. Write for prices. Tubers reddish, cylindrical, matur-

ing a few days earner than rish cooper. This is the standard early Potato, and is the standard early Potato, and is the standard early Potato are the standard early Potato are the standard early Potato are the standard early Potato growers. The tubers are white, round and plump with somewhat deep eyes. The flesh is white and of excellent quality. Write for prices.

CHIPPEWA. A handsome, smooth, white Potato. The vines are sturdy. Matures two weeks later than Cobbler and usually produces higher yields. Not recommended for storage. Write for prices.

KATAHDIN. Similar to Chippewa in having large, smooth, clear white tubers, but matures ten days later. About two weeks earlier than Russet Rural. Enormous vines. Keeps well in storage. Both the Chippewa and Katahdin require more spraying than the Russet Rural, but growers with good spray equipment find them profitable because of the premium they command on the market. Write for prices.

EBAGO. A new variety, resistant to late blight, introduced by the Potato breeders of the U.S. Department of Agriculture. Recommended for the high altitudes of Pennsylvania and all other localities where late blight is serious. Tubers round, smooth and clear white.

I lb., 25c; pk., \$1.50, postpaid.

BUSSET RURAL. (Certified.) This is the famous Michigan Russet Potato that has probably made more money for the farmer than any other variety. The tubers are round to oblong in shape, of good size, with pure white fiesh. The skin is russet, the eyes few and shallow. An excellent keeper. Our Russets are grown in Michigan from pure State Inspected Certified Seed, free from

are grown in Michigan from pure State Inspected Certified Seed, free from scab and diseases. A yield of 400 bushels per acre is not uncommon for Russets. Our stock is fine, medium sized tubers. Write for prices. in August from hopper-burn, we urge you to try this new variety which is SEQUOTA. If you have given up growing late Potatoes because the leaves die in August from hopper-burn, we urge you to try this new variety which is resistant to leaf hoppers. At the Ohio Experiment Station it yielded over a pound per hill with only one spray of calcium arsenate. Tubers very large, of brownish tinge, not as attractive on the market as our clear white varieties, but an excellent keeper for home use. Plant early, as Sequoia requires over five months to mature. 1 lb., 25c; pk., \$1.50, postpaid.

Russet Rural

Seed Sweet Potatoes

We can supply you with the choicest of seed. Requires 4 to 6 bushels of seed to produce enough plants for 1 acre. One (1) bushel for a bed 20 to 25 sq. ft., depending on the size of the potatoes. NANCY HALL. Also YAMS. Write for prices.

Sweet Potato Slips

Sweet Potatoes are easy to grow if you use Holmes' plants. They do best on a light, well drained, sandy loam but can be grown successfully on a wide range of soils if the growing season is sufficiently long (about 4 months). We offer these high grade plants at low prices in the following varieties. Postpaid.

Porto Rican Yam. The most popular.

Nancy Hall. An old favorite of uniform excellence.

200 slips, 85c; 500 slips, \$1.59; 1000 slips, \$2.59.

State variety wanted. Ready May 1st. Specify shipping date. Send your order early, even though you may want late shipment. Postpaid.

Requires 7,000 plants per acre. Rows, 31/2 feet apart, 20 inches apart in row.

of medium dented grain.

deep grains.

Seven Reasons Why it Will Pay You to Get Your HYBRID SEED CORN from HOLMES

- Holmes' Hybrid Corn is Certified by the Ohio Seed Improvement Association, which is the Official Certifying Agency in Ohio.
- We are growers and producers of Certified Hybrid Seed Corn.
- The largest amount of this seed has been dried in our Modern Seed Plant. Sources have been established to get the best seed
- each year. Holmes' Corn is carefully sorted to eliminate questionable ears and parts of ears that might not result in
- Grading is by modern methods so you will have no trouble in your planter.
- Holmes has been headquarters in this territory for Seed Corn for over 25 years.

Co-operative Yield Tests

The Ohio Co-Operative Corn Performance Tests conducted by Ohio Agricultural Experiment Station and U. S. Bureau of Plant Industry, together with farmers in every part of Ohio, show which hybrids are adapted to your farm. Only those proved best for yield, standing ability and maturity are certified. Don't take a chance on your Corn crop! Get the most Corn by using HOLMES' OHIO CERTIFIED HYBRIDS!

Your Seed Improvement Association has double checked the production methods. More than half of the Corn planted by Ohio farmers was hybrid. You can be sure if you get seed of HOLMES' CERTIFIED CORN HYBRIDS.

OHIO HYBRID K35

This early, heavy-yielding Hybrid has become a leader in Northern and Northeastern Ohio. The plants are short and leafy. The ears are short, thick and have 14 to 18 rows of deep golden dented grain. We are proud the way this Hybrid has performed. OHIO

This produces leafy, dark green plants of medium height. The ears are rather low on the stalk of medium leafty. the stalk, of medium length and roughness and have 14 to 16 rows of large, deep, richly colored grains.

IOWA HYBRID 939 The plants are medium tall with the ears at medium height. The ears are medium long, medium slender and have about 16 rows of medium deep grain.

Is adapted to Central, Western and with short shanks and the ears are low, medium long, thick, large at butt, smooth, 16 to 18 rows of thick ker-

OHIO HYBRID M15 Is the earliest hybrid for Northern Ohio, giving high yields of sound yellow Corn. The plants are slightly taller than those of medium short, thick, and have 16 to 18 rows

OHIO HYBRID K23 Is adapted to soils in Northern Ohio. Its plants are short, very lodge-resistant, deep ears are low on the stalks, medium short, medium thick, tapering and have 16 to 18 rows of medium dented with medium

U.S. HYBRID 52 Tests show it one of the best for silage in North and Northeastern lodge resistant. Its ears are long, thick and smooth, having 16 to 18 rows of deep grain.

PRICES ON HYBRID SEED CORN:

Large Flat Grade and Medium Flat Grade, \$6.00 per ushel. Small Flat Grade, \$5.00 per bushel. Thick or Round Grade, \$4.00 per bushel.

FREIGHT PAID to your station to points in Ohio, Pennsylvania, West Virginia and Kentucky.

Holmes' Northern Grown Seed Corn

The progressive farmer is fully aware that it pays in dollars and cents to plant seed of **known origin** only. Our Corns have all been grown especially for seed, They have been well cured and are true to name and type. It costs no more in labor, time and fertilizer to grow a bumper crop than it does to produce a poor one. The difference in price between good and poor seed is made up many times over in the increase in the crop harvested.

Shelled Seed Corn weighs 56 lbs. per bushel.

ROLMES' EARLY 90-DAY. Has broad, deep grains of a beautiful golden yellow color. It produces a crop of the most perfectly uniform ears and has averaged 70 bushels of shelled corn per acre. The ears are 10 inches long with 14 rows of long, broad grains. The stalks grow from 8 to 10 feet high, giving an immense quantity of fodder. Farmers who planted Holmes' Early 90-Day for their main crop last year told us they grew one of the finest crops and best quality Corn they ever grew. You will not regret it if you plant Holmes' Early 90-Day. Write for Seed Corn Price List.

EARLY BUTTER. An extra good early Corn for northern sections of Ohio, Pennsylvania. A reliable, early yellow Dent Corn that you can rely on for use in the north. Our seed has been in great demand from Northern farmers. Write for price.

WOODBURN'S YELLOW DENT. It is a medium early maturing Corn, having a fair-sized ear with 14 to 18 rows. The grains are somewhat wide and have a very beautiful deep orange color. Woodburn has frequently been the high-yielding variety in the ten-acre corn contest in this state, One of the features of this sort is its fine shelling percentage, resulting in a large yield of shelled corn to the acre. Write for price list.

OHIO EARLY CLARAGE. Suits our farmers and is now one of the most popular early varieties in Ohio. The stalk is medium in size. The ears are of medium size with deep yellow wide kernels, averaging 16 rows. The cob is small, producing an immense amount of shelled corn to the acre on account of its unusually deep kernels. Our seed is grown exclusively in northern Ohio. Write for Seed Corn Price List.

LONGFELLOW FLINT. A large, 8-rowed yellow Flint sort. Adapted for the Northern states. Write for prices.

Holmes' Silage Corn

Raise Good Ensilage. This requires seed of high, vigorous germination which is bred, selected, and adapted to the job. Holmes' Silage Corn fills this requirement. In the few short months between planting time and the first frost in the fall, the following varieties will produce silage containing a maximum of dry matter and maximum of digestible feed per acre. It will provide all the succulence and one-third of the digestible feed needed for milk production next winter.

BOLMES' BIG GOLDEN ENSILAGE. "A Wonderful Silo Filler." Decidedly the largest and best yellow Corn to grow for leaves and ears. Pennsylvania grown. The stalks attain a height of from 12 to 14 feet, with thick, strong foliage. The ears are 10 to 12 inches in length, the majority of them having 18 rows of deep, broad grains of a rich golden yellow color. It is an extremely heavy cropper, ranking with any of the southern grown ensilages. Holmes Golden will give a better crop on poor or light soil than almost any other variety. Since being introduced by our Harry Holmes in Ohio, Holmes' Golden has been steadily and consistently growing in popularity. The Master Farmers, who are growing Holmes' Golden, praise it. Fill your silo with ensilage that is worth while. Write for prices.

BLUE RIDGE ENSILAGE. Early, grows tall, leafy, full-eared. This is an improved strain, originated in the Blue Ridge Mountains of Virginia, and will outyield all other southern Ensilages from a stand-point of tonnage, height and quality of fodder. Ranges from 14 to 16 feet in height. On account of its being grown at a high altitude, it is earlier than other southern-grown ensilage. Our seed is selected and cured, and we know it is of highest germination; strong and vigorous. It is graded with the utmost care. Write for prices.

LANCASTER COUNTY SURE CROP. Originated in Lancaster County, Pennsylvania, This Corn is a very dependable variety. It is early, the ears are very long, and the rich yellow grains are of uniform width and length. Lancaster County Sure Crop averages 12 feet in height, is very leafy. Our seed is grown for us by a Seed Corn specialist, and can be relied upon for purity and quality. Seed is graded, extra choice. Write for prices.

OLD VIRGINIA ENSILAGE. Is one of the most popular and satisfactory ensilage Corns. Grows to a large size, is very leafy and well adapted for silage. Our stock is carefully selected, graded and dried. We can assure you high germination. Write for prices.

White Blossom Sweet Clover

Hardy Approved Northern Grown Alfalfa Seed

- 1. Requires good drainage.
- 2. Needs lime. Soil should test ph 6.5 or above.
- 3. Requires abundant phosphate as a potash.
- 4. Valuable in short or long rotations.
- Large yields of high protein hay for several years.
- 6. Excellent soil improver.
- 7. Dependable in dry seasons.
- 8. Be sure you plant hardy strain.
- 9. Don't plant Alfalfa Seed too deep,
- 10. Know the sources of your Alfalfa Seed.

Best seed always proves cheapest.

Sow 10 to 12 lbs. per acre. In mixtures, ■ to 10 lbs. per acre.

"CERTIFIED" GRIMM ALFALFA. Where Alfalfa is required that will have to withstand extreme cold weather conditions, or much of the adverse freezing and thawing, Grimm is becoming a favorite. It is about the least likely to winter-kill of any of the Alfalfas, We offer you Grimm Certified Alfalfa seed—field inspected, certified by the State Authorities and every bag sealed at cleaning. It is claimed that Grimm will thus outlast other strains. Write for price list.

"NORTHWEST" ALFALFA. Holmes' "Northwest" Seed is from the hardlest, best yielding strains. Mostly produced in Idaho, Montana. Utah or other leading producing states in the north and west. It is the surest-to-catch, most vigorous used. Specially cleaned, tested seeds, free from noxious weeds, and of strong growth. You can get lower priced seed but that is not what you are after. It's the stand, vigorous, long-growing, and weed-free—that's what you want, and really, this wonderful Holmes' seed costs you only a few cents more per acre than most of the other seed you could buy. Your investment will prove to be an extra good one many, many times by sowing Holmes' "Northwest" seed. Write for price list.

GENUINE "GRIMM" ALFALFA. Here is a leader. Withstands wide extremes of unfavorable weather—winters through seasons that would likely kill off many other types. Because of its many successes will again be in demand this year. You will make no mistake in planting Holmes' Grimm Seed. Make sure the seed bed is well prepared and has enough lime. Write for price list.

Holmes' Northern Clover Seed

RED CLOVER. There is dependable and undesirable clover seed grown in these United States, just as in other parts of the world. To buy what is called home grown, or northern grown seed, does not always insure it is right seed for you, but with Holmes' Seed you get a tag showing exactly what state produced the seed. You get only quality seed when you buy Holmes' Seed. You don't get a lot of weeds that you won't want. Our farmer customers come back to us year after year for their Clover supply because they found Holmes have dependable Clover Seed. Sow 8 to 10 lbs. per acre. In mixtures, 2 to 6 lbs. per acre. (60 lbs. per but.) write for price Ust.

ALSIKE CLOVER. This is very hardy. Seed being small goes farther, which keeps the seed bill down. Does well on wet and colder soils. Will stand more acidity and will grow where other clovers fail. Holmes quality Alsike is top notch and will please you. Sow 4 to 5 lbs. per acre. Mixtures, 2 to 4 lbs. per acre. (60 lbs. per bu.). Write for price list.

MAMMOTH CLOVER. Somewhat like red clover, Mammoth being coarser, grows taller, ripens later, roots deeper. Produces one crop of hay. Thrives on poorer soils. More drought-resistant. Sow 8 to 10 lbs. per acre. In mixtures, 2 to 6 lbs. per acre. (60 lbs. per bu.). Write for price list.

WHITE BLOSSOM SWEET CLOVER. Fine soil builder. Makes coarse hay. Planted in the spring will make good growth by fall. Lives for two years. Will reseed itself if left standing. By far the most popular variety in the East. Be sure to INOCULATE seed! Adds great value to soil. Sow 12 to 15 pounds per acre. Write for price list.

YELLOW BLOSSOM SWEET CLOVER. Like the White Blossom, it is a biennial. Grows smaller tops, about 2 to 3 feet the first year, 4 to 5 feet the second year. Has finer stems, thus preferred for hay or pasture. Write for price list.

LADINO CLOVER. This is regarded as a giant form of the common White Dutch Clover, and like the latter is a long-lived perennial. Its growth, however, is more luxuriant. Makes excellent hay, yet roots are shallow enough to permit plowing up when desired. Needs moisture, especially on starting, but succeeds on soils too moist for alfalfa. Est sown mixed with other grasses or clover, about 2 to 3 pounds per acre. Write for price list.

Seed Oats

This is a leader with Holmes. We grow STATE INSPECTED CERTI-This is a leader with Holmes. We grow STALD INSPECTED CERT. FIED Seed Oats on our own farms. We have found the one big step toward a real Oats crop, is quality seed. Same soil preparation—same work . . . but GOOD SEED . . . and there you have the answer work . . . but GOOD SEED . . . and there you have the answer between ordinary Oats crops and State Inspected Certified. Good Seed

WAYNE. AXNE. A new, medium early white Oats, with stiff straw, developed by the Ohio Agricultural Experiment Station, first distributed for increase in 1930. This variety has led all others in yield trials at Wooster over a long period of years, and is now recommended especially for northern and northwestern Ohio. We grew these Oats on our own farm.

Write for price list.

Write for price list.

Write for price list.

WiCTORY. The stiff, heavy straw keeps down damage from wind, rain, and pulls it through. The seed is big, plump, white. Reported yields as high as 90 bushels per acre. Write for price list.

Velvet Barley
This new six-row variety is a heavy yielder producing as much or more grain than other sorts per acre. It has a very stiff straw and is more disease-resistant than other varieties. The great advantage of Velvet Barley over others lies in the fact that it is smooth-awned, having no barbs on the beards. Therefore much more easily handled than any other Barley. In 6-year average comparative tests at the Ohio Experiment Station, it yielded 40 bushels per acre. (18 lbs. per bushel.) Write for Farm Seed Price List.

Soy Beans

They can be grown wherever corn can be grown; they furnish good forage and improve the soil. They will grow on soil too acid for clover and fit readily into any crop rotation. They furnish an excellent quality of feed, either as grain, hay or green forage. The best time for seeding or reed, either as grain, hay or green forage. The best time for seeding is about corn planting time, or when the ground has become thoroughly warm. Soy Beans should not be sown too deeply, as poor stands frequently result from too deep covering. They can be planted with corn, or they may be planted alone either for hay or grain, followed the next year with corn and wheat. Corn and Soy Beans grown together can be hogged down with profit. Soy Beans are a legume, fine for soil improvement. They should be inoculated for best results. Good seed is essential to success. When grown for seed it requires 2½ pecks drilled or 5 pecks sown solid; for hay, 6 pecks per acre solid; or for silage, 4 to 1 bs. per acre when sown with corn; for silo, plant 1 bushel Soy Beans to 15 bbs. Sudan. (60 lbs. per bushel.)
MINGO. Yellow seeds. Med

Sudan. (60 lbs, per bushel.)
MINGO, Yellow seeds. Medium early variety. Matures grain throughout Ohio and is sufficiently early to permit the making and curing of high quality hay in Northern Ohio. Write for price list.
MANCHU. A medium early (105 days) with erect and bushy plant, good for hay or pasture, or hogging off with early corn. Write for price list.
WILSON. (Early Black Wilson). A medium late (120 days) variety which does well on the poorer types of soil. Plant tall and slender, tending to twine, Probably the best known all-around sort for silage and hay. Write for price list.

Dwarf Essex Rape

For Quick Pasture for Sheep and Hogs It should be sown from late March to the middle of July. It is ordinarily ready to graze in 7 to 10 weeks or when 12 inches high. The seed may be broadcast and covered lightly with a harrow or it may be sown with a grain drill, 4 to 8 lbs. of seed per acre. (50 lbs. per bushel.) Write for price list.

Canada Field Peas

One of the best hay and soiling crops. Usually sown with oats, which makes rich, nutritious hay. Splendid to cut and feed green. Sow 90 pounds of Peas to 48 pounds of oats early in the spring. Best mixture all around. (60 lbs. per bushel.) Write for price list.

Hairy Vetch

It makes good yields of green manure or hay, high in nitrogen or protein. Long-continued experiments have shown that hairy vetch makes a good stand more reliably than any other crop when sown in corn at the last cultivation. Rye may be improved by adding Vetch for practically any situation where it is used as a clover and green manure crop. Vetch is also a valuable addition to rye for pasture. It is not recommended for wet soils. Vetch may be sown any time after July 1. 20 to 25 pounds of Vetch to a bushel of Rye has proven very satisfactory. Increasing increases the yield. We furnish high-grade seed only Inoculation increases the yield. We furnish high-grade seed only (60 lbs. per bushel.) Write for prices.

Sorghum - Cane Seed

EARLY ORANGE. The choicest variety, producing an abundance of good forage. Also excellent for syrup. Sorghum may be cut and dried, and fed to all farm livestock. Does well all over Ohio and the East. Plant 8 to 10 lbs. per acre. (50 lbs. per bushel.) Write for price list.

THE HOLMES SEED COMPANY, YOUNGSTOWN, OHIO

Wayne Oats

"CYCLONE" Broadcast Seeder

A most effective machine for sowing grass seed or grain broadcast. It will broadcast. sow any kind of seed, put it on evenly at any desired rate per acre. Very useful

acre. Very useful for sowing light grass seeds which other kinds of seeders do not handle well and for sowing cover crops, such as vetch and clover, in standing corn. \$2.50 each. Transportation

Are Made With The HOLMES Lawn Grass Seed

We can confidently state that no better grass seed can be purchased. This mixture is positively composed of the pure seeds of fine-leaved and deep-rooted perennial grasses with a liberal amount of Creeping Bent, which assures a beautiful emerald-green lawn, thick and free of weeds. They are the finest seed of these varieties which can be obtained and are all tested for purity and germination before being mixed together.

None are used which do not come up to the highest standard of excellence. Each and every variety seed used in Holmes' Lawn Seed is heavy weight, superfine quality. These grasses will form a thick, fine sod that will stand well and maintain a deep emerald-green turf. Furnished without clover unless otherwise requested.

HOLMES' GRASSES FOR PASTURE AND HAY

Pasture Grass Mixture

There is probably no other means of so greatly increasing the net farm income on livestock farms at so low a cost as by the production and grazing of farm pastures. There is only one way to get good pasture; that is, to sow good seed such as here offered, pure tested seeds of many varieties of grasses that are known to best serve farmers. The seeding of grasses in Ohio should be done between March 1st and May 10th in the spring, and in the fall between August 20th and October 20th. The rate of seeding if carefully done need not exceed 20 lbs. per acre.

Highland Mixture; Lowland Mixture. Write for price list. TIMOTHY (Phleum pratense). The seed we offer any farmer would be proud to sow. Sow 8 to 10 pounds per acre. Sow in spring with clover one bushel to six acres. 45 lbs. per bushel. Write for price list.

KENTUCKY BLUE GRASS (Poa pratensis). For pasture and lawn it is unequalled. Sow 15 to 25 pounds per acre. Write for price list.

ORCHARD GEASS (Dactylis glomerata). Does well in shady places and is splendid for pasture mixtures. Grows quickly. Sow 15 to 25 pounds per acre. 14 lbs. per bushel. Write for price list.

RYE GRASS FOR COVER CROP. It is used in the place of Rye, but has the advantage of doing very well when sown earlier in the fall than Rye. In fact, it can be sown almost any time from early spring until fall. The seed should be covered shallow, using 15 pounds per acre. Write for price list.

Sudan Grass Seed

The Ohio Experiment Station, Wooster, Ohio, has had excellent results with Sudan Grass as a pasture for dairy cattle. Also considered excellent hay crop. It is a warm weather plant and should not be sown until the ground gets warm. It is known to grow 60 inches in 62 days from seeding. It will produce from two to three tons per acre and

more if it is cut twice. All kinds of stock relish it because it is sweet. Sow or drill solid 20 to 30 lbs. per acre. Cut it as soon as it comes into head. Cure it just like timothy hay is cured. **For Silo**—Plant 15 lbs. Sudan to bush Soy Beans. (40 lbs. per bushel.) **Write for price list**.

Reed Canary Grass

It is adapted to low wet soil and low places and oftentimes produces well on land that is too wet for most field crops. Satisfactory yields of both hay and pasture are being reported on muck land. This grass is a hardy perennial, 2 to 6 feet tall. Grows well on good loams and clay soils. Reed Canary Grass may be used for pasture or hay. It comes on early in the spring and produces a large quantity of succulent forage. Cut when first heads appear and before it has fully headed out. Cures slowly. Seeded in early spring or during August to October. Sow 15 lbs. per acre. (44 lbs. per bushel.) Write for price list.

Good Pasture Makes Healthy Livestock

Sow HOLMES' Flower Seeds for the GARDEN BEAUTIFUL

In creating your garden picture, like the painter in oils, you must use superior quality materials to obtain the most pleasing effect. No amount of labor or fertilizer will counteract inferior seed. Sow Holmes' Flower Seeds and have a GARDEN BEAUTIFUL.

ANNUAL.

Annual flowers complete their life circle within one growing season. They must be sown every year.

PERENNIAL.

These last for several years, withstanding considerable frost, provided the soil is well drained.

Start Your Plants Indoors. Get the jump on spring, and your neighbors, too, by starting some of your seeds indoors this

Assure proper drainage in the box you choose by boring holes every 3 to 5 inches. Cover these with broken crockery. Add coarse and then finely sieved soil. Firm.

Sow seed thinly and cover lightlyfive times the diameter of the seeds. Cover box with glass and place in warm but shady location until seedlings appear. Move to sunny window and gradually remove glass as seedlings grow. Transplant when several inches tall.

Fresh seed is the best. New crop seed germinates better, faster, and produces stronger plants. Holmes' Flower Seed recognized the country over. Holmes' Flower Seeds are postpaid.

AFRICAN GOLDEN DAISY. (See Dimorphotheca.)

Ageratum - Floss Flower

The flowers are dainty and feathery, often delightfully fragrant and usually completely cover the plants. The blue of the Ageratum combines well with pink in the garden. Very effective for borders and solid beds. Easy to grow. Bloom all summer and fall. Annual.

1072 Blue Ball Improved Strain. Is just what you want. A true, compact plant of even height. The growth is most uniform and even. The broad, green foliage is almost completely smothered with flowers of the richest shade of blue. Height 4 inches. Ptt., 10c; ½ oz., 60c; ½ oz., \$1.00; oz., \$3.50.

1073 BLUE CAP. The flowers are much larger than those of Little Blue Star and of a deeper and richer color. The foliage is small, and the plants have the appearance of miniature domes, so that it is quite the beau ideal for edging flower borders. Height, 4 inches. Pkt., 15c; ¼ oz., 45c.

1074 LITTLE BLUE STAR. A very dwarf variety used largely for edging or rockwork; clusters of bright blue flowers. Height, 4 inches. Pkt., 15c; 1/8 cz., 40c.

1078 Midget Blue. Very low compact plants with fine foliage which is practically covered with small true Ageratum-blue flowers. 2 to 3 inches high. Fxt., 150; ½ cz., \$1.25.

Alyssum

Pretty little plants for beds, vases, baskets, edging or rockwork; blooming profusely all summer. Very sweetly scented. Annual.

1081 LITTLE GEM. Dwarf, white, compact, fine for edging. Height, 6 inches. Pkt., 10c; ½ oz., 25c; oz., 75c; ½ 1b., \$2.00.

1082 LILAC QUEEN. (Reselected). Deep lavender-lilac; of dwarf, compact habit. Height 6 inches. Pkt., 10c; 1/4 oz., 35c; oz., \$1.00.

1083 Carpet of Snow. (Dwarf Bouquet). The best dwarf, flat, compact, solid mass of white from spring to late fall. Excellent for edging or ground cover. Height 2½ inches.

Pkt., 10c; ¼ oz., 35c; oz., \$1.00; ¼ lb., \$2.00.

1079 Violet Queen. An Alyssum with a violet tint. We are sure that you will like this peculiar shade. It has a honey-like odor. 4 inches. Ptt., 10c; 1/4 oz., 50c.

Amaranthus - Sunrise

1091 TRICOLOR SPLENDENS (Joseph's Coat). A brilliant color of red and yellow. Beautiful variegated foliage, very showy. Annual. Height, 3 feet. Pkt., 10c; ½ oz., 25c; ½ oz., 45c.

Anchusa

1095 BLUE BIRD. Sprays of vivid indigo-blue all summer. Good to mix with other flowers in bouquets and one of the easiest flowers to grow. 2 ft. Fkt., 10c; ½ oz., 25c.

Arctotis

1145 BLUE-EYED AFRICAN DAISY. An excellent long-stemmed cut flower for dry sunny location. The flowers are like large white daisles with blue centers. Effective planted among other medium tall flowers. Easy to grow. Blooms from July to frost. 2 feet. Ptt., 10c; ¼ oz., 25c; oz., 75c.

1147 Large Flowering Hybrid. A new race of African daisies rivaling in size and variety of coloring the famous gerberas, which they closely resemble, but much easier to grow in the garden. Flower 2½ to 3 inches; likes a dry, sunny location. Excellent as a border plant and fine for cutting. 12 inches. Ptt. 25c.

Holmes' American Asters

Asters are one of the most satisfactory flowers to grow, providing they are given a suitable location.

The main points to observe in growing good Asters are: Good varieties, good seed, good deep, rich soil, and a location which will permit continual cultivation. We advise not to grow Asters in the same soil two years in succession.

We do not think it possible for you to select any better Asters for your garden than the varieties we offer.

Those marked (*) are Wilt-Resistant or "Stem-Rot."

Early Giant Double Asters

Curled and Interlaced

Early Giants combine the finest large flowered fluffy or feathered type of flower with the long, heavy stemmed **Wilt Resistant Aster** yet developed. Comes into flower four to six weeks earlier than the Giants of California. The large, double flowers with long attractively curled peta's, rivaling Giant Chrysanthemums, grow 5 inches or more in diameter. The vigorous plants grow 1½ ft. tall. Bloom from early August until frost

*1194 LIGHT BLUE, Big lacy flower.

*1195 FEACH BLOSSOM. White flushed Pink.

*1197 ROSEMARIE. Rich shade of Rose.

*1199 MIXED. All three colors.

Each of above, Pkt., 15c; 1/8 cz., 65c; any 3 pkts., 35c.

Improved Giant California Sunshine Aster

A Superb Beauty

1260 The attractive colors of the long, feathery petals make a most striking contrast with the creamy white quilled centers. Each plant has a great many long-stemmed flowers which come in a variety of beautiful colors. Height 2 to 3 feet. Pkt., 15c; 1/2 oz., 35c; oz., \$2.50.

* Heart of France Aster

The Best Pure Red

1171 This gorgeous Aster opens purest ruby-red, retains its remarkable satiny luster. The flowers are large and double, on long, strong stems. Height, 11/2 to 2 feet. Pkt., 10c; 1/8 oz., 35c; oz., \$2.00.

Los Angeles Super-Giant Aster

1155 Largest and most fully double Aster, with flowers from 6 to 8 inches across, plants 2½ ft. tall, with 6 to 8 long stems. Early flowering. Pure deep shell pink, with charming Chrysanthemum formation. Pkt., 15c; ½ oz., 50c.

Holmes' Matchless Asters

Largest and Most Prolific of All Asters

These are in every way a superior race of Asters. The plants are very healthy, robust, of branching growth, producing on long stems immense chrysanthemum-like flowers of perfect form. They are wonderfully prolific and continuous bloomers. The decorative effect of a bed or vase of these Asters cannot be surpassed. Height, 2 to 3 feet.

*1160 AZURE FAIRY *1162 PURPLE *1161 DEEP ROSE

*1166 PEARL-PINK *1167 WHITE *1169 MIXED, All Colors

Any Color: Pkt., 15c; 1/8 oz., 60c; 1/4 oz., \$1.00.

Improved California Giants Asters

In this splendid new strain, the earliness and the beautiful fluffy Comet type of flower of the Crego Asters is combined with the giant size and vigor of the American Beauties. We urge all who grow Asters for cut flowers to try the California Giants, believing they are destined to become the most valuable of all Asters for cutting, Height, 3 feet.

1180 PEACH BLOSSOM 1185 WHITE *1182 DARK PURPLE 1186 AZURE-BLUE *1182 DARK PURPLE 1184 DEEP ROSE

1188 MIXED, All Colors

Any Color: Pkt., 15c; 1/8 oz., 35c; oz., \$2.50.

Early Royal Asters

The large double flowers are on stiff stems and commence to bloom early. Free-blooming and fine for cutting. Height, 11/2 to 2 feet,

*1204 WHITE *1207 DEEP ROSE *1208 AZURE-BLUE *1209 PURPLE

*1210 MIXED. All Colors

Any Color: Pkt., 10c; 1/8 oz., 35c; oz., \$1.80.

Crego's Giant (Ostrich Feather) Asters

Large fluffy or feathery flowers, double, on long stems. Good for cutting. Height, 21/2 feet.

*1221 WHITE *1222 SHELL-PINK *1228 AZURE-BLUE *1231 PURPLE *1233 MIXED. All Colors

*1224 DEEP ROSE *1226 ENCHANTRESS PINK

Any Color: Pkt., 10c; 1/8 oz., 35c; oz., \$1.80. Those marked with a (*) are wilt-resistant or "Stem Rot."

Arctotis, Large-Flowering Hybrid

Early Giant Double Aster

Aster, Holmes' Matchless

Aster, California Giant Sunshine

Double Mixed Balsam

Orange King Improved Calendula

Giant American Branching Asters

A Good Garden Aster

The flowers are full, double, large, and on long, stiff stems, making them ideal for cut flowers. These are the most popular and widely grown of all Asters. Height, 2% to 3 feet.

*1244 WHITE *1249 PEACH BLOSSOM

*1245 SHELL-PINK *1250 AZURE-BLUE *1247 DEEP ROSE *1251 PURPLE

*1248 SENSATION (Oxblood-red) *1253 FINEST MIXED

Any Color: Pkt., 10c; 1/2 oz., 35c; oz., \$1.80.

Superfine Double Mixed Asters

Wilt-Resistant

1157 This exquisite mixture is very carefully made from all the different colors of the double growing sorts. This insures a good range of all colors in all seasons of bloom. Pkt., 100; 14 0z., 30c; 0z., \$1.00.

BACHELOR BUTTON. (See Centaurea.) BABY BREATH. (See Gypsophila.)

Balsam - Lady Slipper

1272 DOUBLE MIXED. A charming old-fashioned garden favorite. Blooms from July until frost. Annual. Height, 2 feet. Pkt., 100; ¼ oz., 25c; oz., 75c.

BEANS. (See Scarlet Runner.)
BLUE LACE FLOWER. (See Didiscus.)
BLACK-EYED SUSAN. (See Thunbergia.)

Browallia

1288 ELATA BLUE. Little growing bushy plants 6 to 8 inches and completely covered with flowers of intense indigo-blue. Used for edging and window boxes. Annual. Pkt., 100; 1/4 02., 65c.

BURNING BUSH. (See Kochia.)

Calendula

The ideal garden flower with their bright shades of cream through yellow to deep orange from late summer until frost. Growing two feet with plenty of follage, makes it useful in your garden. Makes good flowers to cut for bouquets. 20 to 24 inches. THE WAY TO GROW BETTER CALENDULAS for fall flowers is to sow the seed in late June or early July. You get better and more flowers in cooler weather. For early summer flowers the seed may be started indoors in late March.

1295 APRICOT. A flat-petaled flower of bright apricot, deepening toward the brown-eyed center. Distinct. Fkt., 10c; ½ oz., 25c; oz., 70c.

1291 BALL GOLD IMPROVED. Extra long-stemmed, large and richly colored, light center. Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

1290 BALL'S LEMON QUEEN. A large double, bright lemon-yellow of the same type as Orange King. Pkt., 10c; ¼ oz., 50c; oz., \$1.50.

1292 BALL'S ORANGE IMPROVED. Deep orange with light center, long stem. Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

1293 CAMPFIRE IMPROVED. Very double, brilliant orange flowers with a scarlet sheen. The long-stemmed blooms are flat. Pkt., 10c; ½ oz., 40c; oz., \$1.25.

1297 Orange Fantasy. (Crested). New. A distinct large flowering Calendula. The outside petals are long and twisted, inner petals are short and curled. Color, beautiful shades of copper-orange, petals edged mahogany-red. Ptt., 10c; 1/4 oz., 40c; oz., \$1.20.

1289 Orange King Improved. This is a wonderful stock of the finest orange Calendula yet introduced. Large double flowers of rich deep orange. Pkt., 10c; ¼ oz., 25c; oz., 70c.

1296 SUNSHINE (Chrysantha). A truly fascinating variety. A pleasing shade of yellow, long stems and graceful chrysanthemum-formed flowers. Ptt., 10c; ½ oz., 25c; oz., 70c.

1294 LARGE DOUBLE MIXED. All colors. Pkt., 5c; 1/4 oz., 15c; oz., 25c.

California Poppy - Eschscholtzia

1608 HOLMES' SUPERFINE MIXED. A beautiful variety of large flowering saucer-shaped blossoms, with brilliant frilled and fluted flowers, in unusual array of colors from yellow, plnk, old gold, red, purple, orange, and cream. Very easily grown, preferring a dry sunny location. Annual. 1 ft. Pkt., 10c; ½ oz., 25c; oz., 75c.

1600 AURANTIACA. Rich golden orange. Pkt., 5c; 1/4 oz., 20c; oz., 60c.

Callionsis

An excellent flower for massing in a border. The brilliant flowers are borne upon long stems and are useful for cutting. Blooms for a long

borne upon iong stems and the time. Prefer a sunny spot.

1298 HOLMES' SPECIAL TALL MIXTURE. This is the most pleasing mixture offered. It contains all the desirable sorts and colors of these beautiful flowers. A great number of kinds have been especially selected for it. Height, 2½ feet. Pkt., 10c; ½ oz., 25c; oz., 40c. 1300 GOLDEN CREST. Semi-double, golden yellow, reddish brown center 1 ft. Pkt., 10c; oz., 40c.

Canary Bird Vine

1330 A rapid growing climber, with pretty canary-yellow blossoms resembling a bird. Annual. Height, 10 feet. Pkt., 10c; oz., 40c.

Candytuft - Iberis

Very hardy, easy to grow and very fragrant. Valuable for bedding or massing, also for cutting. Blooms early and continues in flower for a long time. Successive sowings should be made during spring and summer.

UMBELLATA. 1 foot. Flowers in umbrella form.

1336 ROSE CARDINAL 1338 LAVENDER

1339 WHITE 1340 MIXED COLORS

Any Color: Pkt., 10c; 1/4 oz., 20c; oz., 70c.

1335 CANDYTUFT, Giant Hyacinth-Flowered. The finest white. Long heavy spikes of immense flowers resembling a hyacinth. 15 inches. Pkt., 10c; ¼ oz., 25c; oz., 90c.

Campanula - Canterbury Bells

1319 ANNUAL CANTERBURY BELLS, MIXED. 2½ feet tall, 6 to 8 flower spikes per plant. Blooms in six months from seed planting. This mixture contains dark blue, light blue, rose and white. This great improvement over the biennials allows the possibility of having Canterbury Bells at almost any time of the year. They are the result of many years of careful selection. Gold Medal winner. Pkt., 10c.

Cardinal Climber

1345 The star glory is a vine of great charm on account of its bright red flowers. The vine grows 10 to 20 feet and flowers all season long. Annual. Pkt., 10c; 1/4 oz., 30c.

Carnations

1355 NEW GIANT DOUBLE CHABAUD IMPROVED. The most satisfactory of the annual Carnations for outdoor gardens. Larger, more free flowering and with greater percentage of double flowers than other sorts. Sweet-scented with rich coloring you will like. Planted in protected spots they will bloom the following summer. Mixed colors, Fkt., 15c; ½ oz., 40c.

1353 GIANT DOUBLE RED (EVERBLOOMING). Blooms five months from time seed is planted and continues throughout the summer. Plants are of robust, upright habit, bearing exquisite double flowers of fine form. Are clove-scented. Pkt., 25c.

Castor Oil Bean - Ricinus

Ornamental plants of stately growth, tropical appearing foliage and brilliantly colored seed pods. Annual. Of tall growth.

2093 RED SPIRE. A wonderful variety with leaves of bronzy green, and brilliant rosy crimson spikes. Very showy. 6 feet tall. Pkt., 10c; oz., 30c; 1/4 lb., \$1.00.

2095 ZANZIBARIENSIS MIXED. Immense leaves. Height, 10 feet. Pkt., 10c; oz., 25c; 1/4 lb., 75c.

CELOSIA. (See Cockscomb.)

Chrysanthemum - Painted Daisies

These plants provide in the garden masses of bloom which are interesting as cut flowers. Bloom profusely during the summer and fall. Prefer heavy soil and not too hot weather. Annual. Height, 2 feet. 1415 MIXED COLORS. Ptt., 10c; ¾ oz., 20c; oz., 50c.

CHRYSANTHEMUM, SINGLE HARDY. (See Shasta Daisy.)

Cineraria

These are probably the most popular of our easily-grown winter pot plants for greenhouse or conservatory. For a supply of plants to cover the season seed should be sown from May to October. 1425 HOLMES' DWARF FRIZE MIXED. This large-flowering strain is

grown for us by a specialist. It has been developed through selecting from the best giant strains, is extra large flowered, and covers the color range. Height, 12 inches. Pkt., 25c; large pkt., \$1.00.

Calliopsis, Golden Crest

Carnation

Candytuft, Giant Hyacinth-Flowered

Bachelor's Button, Holmes' Double

Cockscomb, Thompsoni Magnifica Plumosa

Cosmos, Giant Sensation

Centaurea - Bachelor's Button

Cornflower, Ragged Sallor, Blue Bottle, Centaurea Cyanus. A new strain of Double Cornflowers of brighter, clearer colors with long stems. Excellent for both bouquets and garden. Blooms freely until frost

1395 Holmes' Double Mixed. This consists of all the colors in equal proportions. Pkt., 10e; ½ oz., 20c; oz., 50c.

1390 DOUBLE BLUE BOY 1392 DOUBLE RED BOY 1391 DOUBLE PINKIE 1393 DOUBLE SNOWMAN

Any Color: Pkt., 10c; ¼ oz., 25c; oz., 75c.

1385 JUBILEE GEM. A low growing Bachelor's Button, with vivid blue flower, starts blooming real early. Plants 12 inches in height. Pkt., 10; 1¼ oz., 40c; oz., \$1.15.

IMPERIALIS (Giant Sweet Sultan). These beautiful flowers have deeply fringed petals. They are graceful in form and delicately scented. Because they have long stems and keep fresh a long time, they are especially desirable for cutting. Height, 2½ feet.

1404 MIXED COLORS. Pkt., 10c; 1/4 oz., 25c; oz., 75c.

1380 DUSTY MILLER (Gymnocarpa). White-leaved. Used for edging. Compact plants with silvery leaves. Bloom during late summer and fall. Height 1 ft. Pkt., 10c; ½ oz., 25c.

Clarkia

1430 DOUBLE PRIZE MIXED. This easily grown annual is not as much appreciated as it should be. The colors run from white through to pink and deep rose. It is free blooming and makes an excellent cut flower. The seed may be sown in the fall or spring. Blooms from July to October. Height, 2 feet. Pkt., 10c; ¼ oz., 25c; oz., 85c.

Cobaea Scandens - Cathedral Bells

1445 CUP AND SAUCER VINE. This rapid growing vine is most attractive, being unusually graceful. Large, bell-shaped white and violet flowers, followed by plum-shaped fruits. Annual, Blooms from midsummer until frost. Height, 30 feet. Pkt., 10c; 1/4 02., 25c; 02., 80c.

Cockscomb - Celosia

1369 CRISTATA, MIXED COLORS. Has huge, laterally flattened heads which suggest the comb of a giant chanticleer, in brilliant colors. Annual. Height, 1 ft. Fit., 10c; % oz., 50c.

1375 Thompsoni Magnifica Plumosa, Mixed Colors. (Ostrich Plume). The long pyramid-shaped feathery heads are fine to cut with other flowers. Annual. Height, 2 feet. Pkt., 10c; 14 oz., 30c,

1360 WOOLPLOWER CHILDSI, MIXED. The heads form globular pink, crimson and orange masses resembling balls of woolen yarn or silk thread. The plants start to bloom when only several inches tall. Branches develop, each tipped with a flower often from 4 to 6 inches in diameter. Annual. Height, 2 feet. Pkt., 10c; 1/4 oz., 40c. OTHER CELOSIAS, see page 3.

Coleus

1450 HOLMES' BOYAL MIXED. Choicest and newest varieties, saved from one of the finest collections. Great range of color. Height, 20 inches. Pkt., 25c; ½ oz., 75c.

Cosmos

There is no other tall annual so graceful or so useful as the Cosmos. The double and single varieties make beautiful cut flowers. May be planted in among the shrubs or back of low-growing plants. Annual. 3 to 4 feet.

1470 GIANT SENSATION MIXED. A new Cosmos. The largest flowers and the earliest to bloom. Produces very large pink and white flowers 4 to 6 inches across. Superior to all other early Cosmos. Pkt., 10c; ½ 0z., 50c; 0z., \$1.75.

1471 Orange Flare. Gold Medal Winner. Early, vivid orange, long stem. Pkt., 10c; ¼ oz., 45c.

1464 EARLY DOUBLE CRESTED MIXED. A new and distinct type of large flowering Cosmos, the center being full double and crested. Makes a wonderful cut flower. Fkt. 15c; ½ 02., 75c; 02., \$2.25.

1469 SINGLE EARLY GIANT MIXED. Pkt., 10c; ¼ oz., 20c; oz., 50c.

Cynoglossum - Chinese Forget-Me-Not

1494 FIRMAMENT. (New.) This is the new, more compact and improved strain that won All-America recognition two years ago. It is a very satisfactory bright deep blue for your garden. The flowers are in sprays, like "Forget-Me-Nots" on plants 18 inches tall. One of the easiest flowers to grow from seed sowed outdoors.

Pkt., 10c; ½ oz., 25c; Oz., 31.75.

Dahlia

Dahlias Flower the First Year From Seed.

1495 DOUBLE LARGE FLOWERING MIXED. This popular flower can be easily raised from seed, flowering the same season. Blooms from

August to frost. Annual. Height, 3 feet. Pkt., 15c; ½ oz., 85c. 1496 Unwin's Dwarf Hybrids. Graceful semi-double flowers many colors. Sow in March indoors and they will bloom by the end of

June. Fine for hedding and cutting. Height 18 inches. Pkt., 15c. 1497 COLTNESS HYBRIDS MIXED. This new strain contains a higher percentage of true double and a much wider range of colors than other stocks. Height 24 inches.

Pkt., 15c; 1/8 oz., 50c; 1/4 oz., 90c.

Dianthus - Pinks

Blooming as they do from early summer until late fall, Pinks are a constant delight both for garden display and for cutting. Annual. Height 19 inches

Height, 12 inches.
1520 DOUBLE CHOICE MIXED (Heddewigi), An unusually fine mixture of double flowering Pinks in many colors and a great variety of markings. Large flowering and free blooming. Height 12 inches. Ptt., 10c; ¼ oz., 25c; oz., 85c.
1554 SWEET WIVELSFIELD MIXED. A cross of Dianthus Plumarius and Sweet William, blooming the first year from seed. The flowers are larger than Sweet William and in an almost unbelievable range of

color. Height, 15 inches. Pkt., 10c; ¼ oz., 45c.

Didiscus Coeruleus

1560 BLUE LACE FLOWER. The beautiful flower heads are made up of small azure-blue flowers. They bloom during June and September. Excellent for cutting. Annual. Height, 1½ feet. Ftt., 10c; ¼ oz., 40c; oz., \$1.50.

Dimorphotheca - African Golden Daisy

1580 AUBANTIACA HYBRIDA MIXED. Beautiful new hybrids of the African Golden Daisy. Flowers large, but varying in color from the purest white through the various shades of yellow and orange to rich salmon shades, many being zoned with several of these colors around the black disc. Bloom during summer and fall. Annual; 12 inches tall. Pkt., 10c; 1/4 oz., 40c.

DUSTY MILLER. (See Centaurea). EUPHORBIA. (See Snow-on-the-Mountain). FLOWERING TOBACCO. (See Nicotiana).

Forget-Me-Not - Myosotis

The flowers are dainty and beautiful. Fine for borders, edging, rock gardens or in beds. Succeeds best in cool, moist soils. Blooms during and summer.

1860 ALPESTRIS, SUTTON'S ROYAL BLUE. Rich indigo-blue flowers. The finest and most effective dark blue variety. Annual. 12 inches in height. Pkt., 10c; 1/4 oz., 35c; oz., \$1.25.

1864 Alpestris, Blue Basket. This is the best deepest blue. Plants grow upright and are splendid for beds, borders or cutting. Height 12 inches. Pkt., 15c; ¼ oz., 60c.

Four O'clock - Marvel of Peru

1830 FINEST MIXED. A well known annual of bushy habit. Bears throughout the summer; does well anywhere. Annual. Height, 12 to 15 inches. Fht., 10c; oz., 25c; ½ lb., 60c.

Gaillardia - Blanket Flower

1625 DOUBLE MIXED. The attractive double yellow, red and white flowers make a brilliant show in the garden and vase. Not affected by hot weather. Annual; 18 inches. Pkt., 10c; 1/4 oz., 25c; oz., 85c.

Gourds

Rapid growing climbers with ornamental foliage, and interesting and odd-shaped fruits. It is becoming very popular to use the fruit for table decorations. Annual. Height 10 feet. 1655 LARGE ORNAMENTAL MIXED. Pkt., 10c; ¼ oz., 15c; oz., 40c. 1654 SMALL ORNAMENTAL MIXED. Pkt., 10c; ¼ oz., 15c; oz., 40c.

Gypsophila - Baby's Breath

This plant is one of the daintiest of the old-fashioned flowers, with a misty grace which is not found in other flowers. The flowers themselves are white; and the plants are covered with myriads of these blossoms. Sow every two or three weeks in order to have a succession of blooms.

1659 London Market. Taller growing sort with larger flowers. Sow this kind to use with long stemmed flowers. Height $2\frac{1}{2}$ feet. Pkt., 10c; $\frac{1}{4}$ oz., 15c; oz., 30c; $\frac{1}{4}$ lb., 90c.

1661 CARMINE BEAUTY. A new bright carmine shade excellent for cutting. Annual, Height 18 inches. Pkt., 10c; oz., 30c; 1/4 lb., \$1.00. HELIANTHUS, (See Sunflower).

Dahlia, Unwin's Dwarf Hybrids

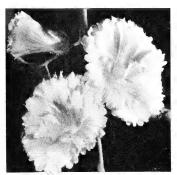

Double Dianthus

Dimorphotheca - African Golden Daisy

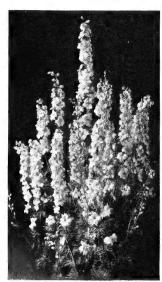

Annual Hollyhock

Linaria Hybrid, Excelsion

Larkspur, Dazzier

Heliotrope

1685 GIANT BLUE MIXTURE. Because of the delightful fragrance and long duration of bloom, everyone loves Heliotrope. The large heads are in various shades from delicate lavender to deep blue. Annual. Height, 24 inches. Pkt., 15c; ¼ oz., 75c.

Annual Hollyhocks (New)

1688 Indian Spring. The flowers are fringed and the color bright pink and looks just like the hardy Hollyhocks except it will flower the first summer from seed sown outdoors, 4 to 5 feet. Won Silver Medal in All-America Trials. Pat., 10c; ½ oz., 45c.

Kochia - Summer Cypress; Mexican Firebush

1730 CHILDSI. Grows in a perfectly pyramidal bush with small, feathery, light green foliage. Makes a splendid hedge. Annual. Height, 2½ feet. Pkt., 105; ¼ oz., 20c; oz., 50c.

LACE FLOWER. (See Didiscus).

Lantana

1740 DWARF FINEST MIXED. One of the most satisfactory plants for pots, flower boxes or bedding; constantly in bloom. Verbena-like flowers of orange and red, white and rose, and other colors. Annual Height, 1 foot. Pkt., 10c; ½ oz., 25c; oz., 70c.

Larkspur - Double Giant Imperial

GROWING LARKSPUR FROM SEED is very easy. The seed requires cool weather for good germination. Spring sowing outdoors should be done as soon as it is possible to work the soil, about April 10th. Seed sown about October 1st will survive the winter and start blooming the following summer. Placing Larkspur seed in a refrigerator from 24 to 48 hours will induce quicker and higher germination. Height 3 feet.

1747 BLUE BELL. Clear mid-blue; excellent.

1750 BLUE SPIRE, Deep violet-blue.

1754 DAZZLER. Rich carmine.

1760 EXQUISITE PINK IMPROVED. Rich soft pink.

1748 GLORIA IMPROVED. Bright rose-pink.

1751 LILAC QUEEN. Rich lilac-lavender.

1752 LOS ANGELES IMPROVED. Salmon-rose.

1761 WHITE KING. Finest white; early, large flowered.

1742 Giant Imperial Mixed.

Prices on all varieties above: Pkt., 10c; 1/4 oz., 40c; oz., \$1.15.

Larkspur - Double Stock-Flowered

1757 DARK BLUE.

1763 LOS ANGELES, Salmon-rose.

1759 NEWPORT PINK. Carmine-pink.

1766 ROSAMOND. Deep rose. Very early.

1755 SKY BLUE. Good light blue.

1764 WHITE. Dazzling white.

1765 Double Stock-Flowered Mixed.

Prices on all varieties above: Pkt., 10c; 1/4 oz., 30c; oz., \$1.00.

Lavatera - Mallow

1769 LOVELINESS. A beautiful rosy carmine blosom, blooming all summer. Annual. Height, 3 feet. Pkt., 10c; 1/4 oz., 40c.

Linaria

These dainty flowers resemble miniature Snapdragons, and in addition each flower has a long columbine-like spur. It makes a nice cut flower. Blooms in about 8 weeks from seed. Annual.

1771 FAIRY BOUQUET MIXED. Compact plant about 8 to 10 inches high, in many distinct colors. Pkt., 15c.

1772 HYBRIDA EXCELSIOR MIXED. Colors range through crimson, gold, pink, dark blue, chamois and rose. Height, 15 inches. Pkt., 10c; ¼ oz., 25c.

Lobelia

The dwarf sorts for edging beds of other flowers. The trailing sorts are attractive for hanging baskets, vases and window boxes. Blooms all summer. Annual.

1775 CRYSTAL PALACE. Dark blue; fine for borders and bedding. Height 4 inches. Pkt., 10c; 1/2 oz., 40c; 1/4 oz., 60c.

1778 SAPPHIRE. A blue flowered trailing kind for window boxes, hanging baskets, etc. Pkt., 15c; 1/8 oz., 60c.

Lupinus - Lupine

ANNUAL SORTS—(For Perennials, see page 60)
These give a glorious display in the garden. The long-stemmed flower spikes bearing pea-shaped flowers bloom from July until August. Prefer a little shade

1789 GIANT KING MIXED. New improved strain of annual Lupinus. Height 3 to 4 feet, base branching, 4 to 6 long flower spikes per plant. Colors include dark blue, sky-blue, rose and white. This new strain is so easily and quickly grown from seed. Award of Merit. Pkt., 10c; 1/4 oz., 40c; oz., 70c.

Marigolds

BEST WAY TO GROW MARIGOLDS. Sow May 15th or when ground is sufficiently warmed. Then sow in a warm, sunny spot and cover seed very lightly. You can start in boxes indoors about April 20th. Tall varieties should be planted at least 15 to 18 inches apart each way. Low growing sorts take half as much space. When plants are 4 to 6 inches in height cover the soil with PEAT MOSS. Keep mulch 1 inch deep over your Marigold bed all summer, You will have MORE MARIGOLDS.

Marigold—Tall Carnation-Flowered. 30 inches

1806 IMPROVED BURPEE GOLD. Deep orange. Foliage odorless, Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

1809 GUINEA GOLD IMPROVED. Golden orange. Early, Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

1805 YELLOW SUPREME. Moonlight-yellow. Fluffy flower. Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

Marigold—Tall Double African. 30 inches

1808 LEMON ALL-DOUBLE.

1807 ORANGE ALL-DOUBLE.

1811 ALL-DOUBLE MIXED.

Any above color: Pkt., 10c; 1/4 oz., 65c.

1815 SUPREME MIXTURE, All colors. Pkt., 10c; 1/4 oz., 40c; oz., \$1.25.

Marigold—Chrysanthemum-Flowered

1810 Dixie Sunrise (Early Dixie Sunshine). Brilliant yellow. 3 1/2 ft. Pkt., 10c; 1/4 oz., 50c.

1812 CHRYSANTHEMUM-FLOWERED HYBRIDS. All colors, 3 1/2 ft. Pkt., 15c; 1/4 oz., 75c.

1813 GIGANTEA SUNSET GIANTS. Deep orange to primrose. 31/2 ft. Pkt., 15c; 1/4 oz., 75c.

1814 GOLDSMITH. Golden orange. 18 inches. Pkt., 15c. 1817 POT O' GOLD. Deep golden orange, All double, 15 inches, Pkt., 15c.

Marigold—Dwarf Double French

1827 HARMONY HYBRIDS. Mixed colors. All-double-crested center. 12 inches. Pkt., 10c; 1/4 oz., 50c.

1820 MONARCH STRAIN MIXED. Compact, full double. 12 inches. Fkt., 10c; 1/4 oz., 50c; oz., \$1.75.

1822 ROYAL SCOT ALL-DOUBLE. Mahogany and gold striped. 12 in. Pkt., 10c; 1/4 oz., 60c.

1816 SPRY. Light golden orange. 9 inches. Pkt., 15c; 1/4 oz., 50c.

1823 YELLOW PYGMY. Pale lemon-yellow, 8 inches. Pkt., 10c; 1/4 oz., 50c.

Marigold—Dwarf Single French

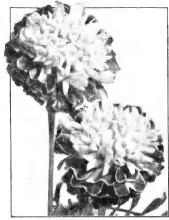

1818 FIRE CROSS (Improved Legion of Honor). 12 inches. Pkt., 10c; 1/4 oz., 25c; oz., 75c.

1819 SIGNATA PUMILA (Little Giant). Deep orange, 6 inches. Pkt., 10c; 1/4 oz., 60c; oz., \$2.00.

MARVEL OF PERU. (See Four O'clock)

Mignonette

1850 GIANT MACHET SWEET-SCENTED MIXED. The sweet fragrance of Giant Machet wins all hearts. Renders bouquets delightful. Sow in April and July for succession of bloom. Annual. Height, 15 inches. Pkt., 10c; 1/4 oz., 25c; oz., 75c.

Dwarf Marigold, Harmony Hybrids

Marigold, Guinea Gold Improved

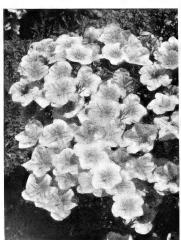

Marigold, Sunset Giants

Morning Glory, Heavenly Blue

Double Indian Chief Nasturtium

Nierembergia Hippomanica

Moonflower

1715 A climber of rapid growth with beautiful flowers; at night and during dull days the plants are covered with large white fragrant blooms. Soak seed in warm water over night to assist in rapid germination. Annual. Pkt., 10c; ½ 0z., 30c; 0z., 50c.

Morning Glory

One of the most popular climbers. Rapid grower. Height, 15 feet.

1724 Crimson Rambler. (New). An early flowering tall growing climber with bright crimson-red flowers. Like Heavenly Blue, the vines are a mass of color from early summer. Pat., 10c; 1/4 02., 30c; 02., \$1.00.

1722 GIANT JAPANESE IMPERIAL. These large size flowers measure 3 to 4 inches across. The colors are deep, rich velvety shades; others daintiest blue and purple; snow-white to silver-gray, new terra cotta, and coffee-color shades. Some flowers are striped and spotted. They are simply magnificent. Pkt, 10c; oz., 30c.

1718 Heavenly Blue. Improved Clark's Blue. Early flowering. Charming and distinct. Flowers are extra large in size, a lovely light blue. Pkt., 15c; ½ oz., 30c; oz., \$1.00.

1719 PEARLY GATES. Identical in growth and bloom, except white in color, with Heavenly Blue. A large, satiny white flower gives this a gorgeous appearance. Ptt. 25c; ½ oz., \$1.50.

1720 SCARLETT O'HARA. Deep wine-red flowers which are 4 inches across and start making appearance while the plants are still small. Not as rapid climber in the North as Heavenly Blue. Pkt., 10c; ½ 0z., 30c; 0z., \$1.00.

MOURNING BRIDE. (See Scabiosa.)
MYOSOTIS. (See Forget-Me-Not, pages 47 and 59.)

Nasturtiums

CULTURE: For best results Nasturtiums should not be sown before May 20th in full sunlight. Ground should not be very rich as this causes an excess growth. A friend advised us she sprinkles moth balls on the ground close to the plants and was not troubled with black aphis.

NASTURTIUMS-DOUBLE GLORIOUS GLEAM

These wonderful double and semi-double Nasturtiums are very freeflowering on vigorous plants. The flowers are larger, bright colors, mostly with delicious fragrance of Golden Gleam.

1899 DOUBLE GOLDEN GLEAM. Bright golden yellow. Pkt., 10c; oz., 20c; ¼ 1b., 50c.

1902 Double Indian Chief. (New). Dark foliage, bright scarlet. Pkt., 15c; oz., 35c; ¼ lb., 85c.

1901 DOUBLE SCARLET GLEAM. Dazzling scarlet. Pkt., 10c; oz., 20c; 1/4 lb., 60c.

1903 Glorious Gleam Hybrids. Mixture unusual colors. Pkt., 10c; oz., 20c; 14 lb., 50c.

Nasturtiums, Double Dwarf

1875 Double Gem Mixture. A very compact plant with masses of flowers in almost every color found in Nasturtiums, set above foliage. makes an excellent border. Pxt., 10c; oz., 25c; 14, 1b., 75c.

Single Nasturtium

1880 HOLMES' DWARF RAINFOW MIXTURE. All the leading named dwarf sorts. Pkt., 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.25.

1895 HOLMES' TALL RAINBOW MIXTURE. Best varieties of rich shades. Pkt., 5c; oz., 15c; ½ 1b., 40c; lb., \$1.25.

Nemesia

1900 MAJESTIC MIXTURE. Showy miniature orchid flowers varying in color from creamy white to deep orange and carmine. Height 9 inches. Prefers cool weather. Ptt., 15c.

Nicotiana

Flowering Tobacco. Is becoming one of the most satisfactory annual flowers. Blooms throughout a long season, during periods of dry weather. Dry locations where all other flowers fail: Nicotiana flowers are beautiful. The new shades are very attractive. They are good to plant with other flowers. Annual. Height, 3 feet.

1905 AFFINIS. Sweet scented, pure white. Pkt., 10c; 1/4 oz., 25c; oz., 75c.

1906 New Hybrids Mixed. Shades of pink, white and deep red. Pkt., 10c; 14 oz., 30c.

Nierembergia

1908 HIPPOMANICA. A lavender carpet for a garden spot. Not more than 4 to 6 inches high, it forms a cushion of light green foliage from which emerge a single saucer-shaped flower of a delicate lavender hue, 1 to 1½ inches across, adorned with a clear yellow eye with beautiful ornamental effect. Excellent potted plant and suitable for borders and edging. The bloom is very profuse and long lasting. Pkt, 25c.

Giant Pansies

One of the most popular flowers grown, thriving best in a cool, moist, but well-drained soil. Sow seeds in April and May for summer flowering; and in August for early flowers the following spring. Hardy

size, perfectly round, stalks are robust and strong. The thick petals are of a rich velvety texture. They bloom early in the spring, continuing to flower all summer until fall.

Pkt., 25c; 1/8 oz., \$1.50; 1/4 oz., \$2.50; oz., \$8.00.

1920 Holmes' Glorious Giant Mixture. A marvelous mixture. Contains all giant types of largest flowers of richest and most varied colors. Pkt., 25c; 1/2 oz., \$1.25; 1/4 oz., \$2.25.

1928 GIANT RUFFLED MASTERPIECE MIXTURE. Petals are ruffled, giving the appearance of double flowers of many colors. Pkt., 15c; ½ oz., 70c; ¼ oz., \$1.25; oz., \$4.50.

Petunias

For bedding, porch or window boxes, few flowers equal the Petunia in effectiveness. They are of easiest cultivation and probably give greater returns for the care they require than any other plant. All they ask is a good soil and a sunny position, and they will make a gorgeous display until killed by frost. Annual.

Double Giant Ruffled

1950 ALL-DOUBLE DWARF VICTORIOUS MIXED. Magnificent fringed and ruffled blooms in a wide range of extremely brilliant and pleasing colors. This strain produces practically 100 per cent double flowers. Pkt., 100 seeds, 45c; 200 seeds, 80c; 500 seeds, \$1.45.

1952 ALL-DOUBLE BLUE BROCADE. Silver Medal Award A.A.S. Dwarf, stocky plants with glant, fully double, deeply fringed blooms of true violet-blue; a deep rich shade. The flowers have a pleasing fragrance and are remarkably uniform in both color and form. Pkt., 45c; 3 pkts., \$1.20.

1955 Holmes' Giant Double. A special strain of double flowers which are enormous, and ruffled in bright rich colors. The weaker seedlings should be carefully saved as these usually produce the finest double flowers

Pkt., 100 seeds, 45c; 200 seeds, 80c; 500 seeds, \$1.45.

Giant Ruffled Fringed Petunias

1960 Holmes' Superfine Ruffled Giant Mixed. The most gorgeous strain in Dwarf Ruffled Petunias. Over a period of years, they proved to be a superior strain. They have immense flowers. I cludes the showy blotched sorts and odd colors. They are he veined with long deep throats, and are deeply ruffled.

Pkt., 100 seeds, 25c; 200 seeds, 45c; 500 seeds, \$1.00. They are heavily

1962 Dwarf Giant of California Mixture. A low, compact plant in a wide range of bright and blotch colors. with mammoth flowers Pkt., 200 seeds, 25c; 500 seeds, 60c; 1000 seeds, \$1.00.

1967 DAINTY LADY. Award of Merit. Delicate golden yellow fringed Petunia. Compact, semi-dwarf plants and free flowering. Pkt., 20c.

1959 GOLDEN JUBILEE. (New). Bright carmine tinged scarlet with a golden throat. Very showy

Pkt., 200 seeds, 25c; 500 seeds, 50c; 1000 seeds, 90c.

1954 THEODOSIA. A wonderful frilled pink Petunia with open yellow throat

Pkt., 200 seeds, 25c; 500 seeds, 50c; 1000 seeds, 90c.

Dwarf Single Bedding Petunias

Most popular and valuable for bedding and edging; dwarf and free flowering, Height, 1 foot.

1989 Celestial Rose. Improved Rose of Heaven. Sparkling, rich satiny rose. Compact in growth. Very popular with gardeners. Pkt., 10c; 1/8 oz., 50c.

1983 Cream Star. All-America Award. The creamy white flowers deepen to golden in the throat. The plants are compact and are well covered with large flowers from early summer until frost. Pkt., 15c; 1/16 oz., 60c; 1/8 oz., \$1.00.

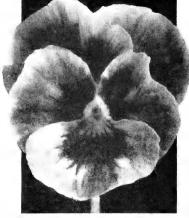

1947 DWARF GENERAL DODDS. Velvety rose-red. Pkt., 10c; 1/8 oz., 50c.

1946 Glow. (New.) An outstanding dazzling carmine-red. Pkt., 15c: 1 /16 oz., 50c.

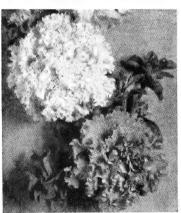

1981 HEAVENLY BLUE IMPROVED. Beautiful light silvery blue. Pkt., 10c; 1/8 oz., \$1.00.

1987 MARTHA WASHINGTON. The most compact and lowest growing of all ruffled Petunias. Every plant and flower is alike, making an ideal variety for a low border. All season the plants are a mass of bright bluish pink velned rich wine-red deepening to a dark violet throat. 6 to 8 inches tall. Pukt., 15c; 1/64 oz., 70c.

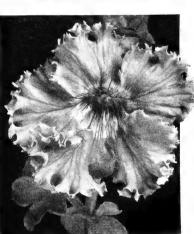

1982 ROSY MORN. Deep rose with white throat. Pkt., 10c; 1/2 oz., 50c.

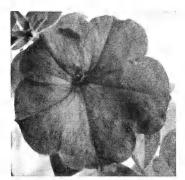

Holmes' Glorious Giant Pansy

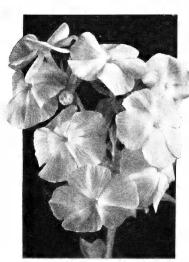

Holmes' Giant Double Petunias

Petunia, Golden Jubilee

Petunia, Purple King

Phlox, Giant Salmon Glory

Poppy, Shirley

PETUNIAS, Dwarf Single Bedding-Continued.

1964 Salmon Supreme. All-America Winner. The only true salmon Petunia in existence. The color is a rich coral-salmon changing to a soft salmon-pink. The plants are very low growing and retain their compact, rounded form.

Pkt., 15c; 1/64 oz., 90c; 1/16 oz., \$1.50.

1985 Purple King. A very fine deep violet. Pkt., 10c; 1/8 oz., 50c.

1984 SNOWBALL. Excellent pure white. Pkt., 10c; 1/8 oz., 50c.

1986 Finest Mixed Colors. Pkt., 10c; 1/8 oz., 35c; 1/4 oz., 60c; oz., \$2.25.

Single Bedding Petunias

Height, 11/2 feet.

1949 RADIANCE. All-America Winner. It is a brilliant red and a wonderful bloomer. Pkt., 15c; 1/16 oz., 60c.

1976 HOLLYWOOD STAR. All-America Winner. Star-shaped pink flowers on tall, spreading plants. It is a most free flowering Petunia, being a solid mass of pink all summer.

Pkt., 15c; 1/16 oz., 50c; ½ oz., 85c.

1980 HOWARD'S STAR IMPROVED. Velvety purple with white star. Pkt., 10c; 1/8 oz., 40c.

1948 MIXED ALL COLORS. Pkt., 10c; 1/8 oz., 25c; 1/4 oz., 40c.

Balcony (Trailing) Petunias

A splendid large and free-flowering type for window boxes, vases, hanging baskets, etc. The flower averages 3 inches across.

1971. Black Prince. (Flaming Velvet). Rich velvety red. An outstanding color. Pkt., 15c; 1/16 oz., 60c.

1970 BLUE. Deep velvety blue. Pkt., 15c; 1/16 oz., 60c.

1972 ROSE. Fiery rose. Pkt., 15c; 1/16 oz., 60c.

1974 WHITE, Pure white, Fkt., 15c; 1/16 oz., 60c.

1975 MIXED. All colors. Pkt., 15c; 1/16 oz., 50c.

Phlox Drummondi As a garden annual this occupies first place. One of the most brilliant in coloring and one of the easiest to grow from seed. Blooms in a few weeks after sowing and continues until killed by freezing. Prefers a light rich loam and a sunny position. Annual. Height, 12 inches.

1997 Gigantea Art Shades. 97 Gigantea Art Shades. A new strain of Phlox Drummondi, flowers 1 1/4 to 1 1/2 inches in diameter. The soft colors blended together make a beautiful mixture never before seen in annual Phlox. Height, 9 inches. Pkt., 15c; 1/4 oz., 75c.

1995 GIANT ROSY MORN. Extra large flower of beautiul rose-pink with white eye. A fine bloomer. Pkt., 15c.

1991 ALBA. Pure white. Pkt., 10c; 1/4 oz., 50c.

1994 CINNABAR. Rich scarlet with dark eye. Fkt., 10c; 1/4 oz., 50c.

2002 GIANT RED GLORY. The brightest color in Phlox. A brilliant red with a large creamy white eye. Remarkable bloomer, Pkt., 25c.

2003 GIANT SALMON GLORY. Beautiful large flowers of pure salmonpink with a distinct creamy white eye. Pkt., 15c; 1/8 oz., 75c.

1998 STAR FRINGED MIXED. (Star of Quedlinburg), Pkt., 15c.

1990 Mixed. All colors. Pkt., 10c; 1/4 oz., 50c; oz., \$1.25.

1999 Dwarf Mixed. Dwarf, compact growth. Rich and showy. Excellent for beds and edging. Height 6 inches. Pkt., 10c; 1/4 oz., 70c; oz., \$2.50.

PINKS. (See Dianthus).

Poppies

They should be in every garden. Easily grown and produce a wealth of gorgeous blooms. Sow early in the spring. Annual. Height, 2 feet.

2025 Shirley, Holmes' Eldorado Double Strain. A wonderfully fine strain. Many of the flowers are ruffled and semi-double and come in all shades of rose, scarlet, salmon and pink. Pkt., 10c; 1/4 oz., 25c; oz., 75c.

2037 HOLMES' GIANT ALL DOUBLE MIXED, Large double flowers in many bright colors. Pkt., 10c; 1/4 oz., 30c; oz., \$1.00.

Portulaca - Moss Rose

A beautiful low growing flower, thriving in almost any location, even in a dry, sunny place. Suitable for borders, edging or rockery. Can withstand the hottest weather. Blooms early until killed by frost. Annual. Height, 6 inches,

2015 SINGLE MIXED. All colors, Pkt., 10c; 1/4 oz., 35c; oz., \$1.00.

2017 DOUBLE LARGE FLOWERING MIXED. Of the most brilliant colors. Pkt., 10c; 1/8 oz., 50c; oz., \$2.50.

RICINUS. (See Castor Oil Bean).

Rudbeckia

2103 My Joy. (Giant Black-Eyed Susans). Flowers very large, single, some over 5 inches in diameter, of an orange-yellow with rather small cone. Nice for cutting. Annual. Height, 18 inches. Pkt., 15c; ¼ oz., 50c.

Salpiglossis - Painted Tongue

The most gorgeous flower in the garden. The attractive flowers have a very unusual range of color and are produced freely, blooming from July to frost; splendld for cutting. Grows easily from seed if you don't sow until the soil is warm (after May 15th) and if you don't cover the seed with soil. Cover with sand or finely sifted peat moss. Annual. Height, 2½ feet.

2110 Large-Flowered Mixed. Pkt., 10c; 1/4 oz., 40c; oz., \$1.35.

Salvia - Flowering Sage

One of the most handsome summer and autumn flowering plants, growing into compact bushes literally ablaze with brilliant scarlet flowers, from early summer till killed by frost. Annual.

- 2115 AMERICA or GLOBE OF FIRE. This is one of the freest and most continuous blooming of all Scarlet Sages, and the most uniform in habit of growth, making it especially valuable for bedding or planting in lines. Height, 18 inches. Pkt., 25c; 1/4 oz., \$1.25.
- 2112 Blaze of Fire. This is the earliest and most dwarf of all scarlet Salvia. Flowers most brilliant vivid scarlet. Blooming 10 to 14 days before other varieties and much brighter color. It is ideal for bedding. 12 inches. Pkt., 25c.
- 2117 BONFIRE. A splendid dwarf variety. with large, erect spikes of rich scarlet flowers. Height, 2 feet. Pkt., 15c; 1/8 oz., 60c; 1/4 oz., 90c.
- 2119 HARBINGER. Early flowering. Plants are dwarf and compact, and the dark green foliage makes a striking setting for the dazzling bright red blooms. A perfect blaze of color. Height, 1 foot. Pkt., 25c; 1/4 oz., \$1.25.
- 2120 SPLENDENS (Scarlet Sage). Bright scarlet, Height, 3 feet. Pkt., 10c; ¼ oz., 75c; oz., \$2.25.

Sanvitalia - Trailing Zinnia

2124 PROCUMBENS, DOUBLE YELLOW. For masses all summer of bright yellow in low beds, borders or rockeries, sow this seed. Very easily grown. Trailing plants resembles tiny Zinnias. Six inches. Pkt., 10c; 1/8 02., 35c.

Scabiosa - Mourning Bride

Three feet. The rich and beautifully colored flowers are very handsome and excellent for cutting; profuse bloomer from June to October. Easy to grow from seed sown outdoors in the spring.

- 2130 Giant Hybrids Mixed. Rare colors. Pkt., 10c; ¼ oz., 25c; oz., 75c. 2126 AZURE FAIRY. Azure-blue. Pkt., 10c; ¼ oz., 30c.
- 2125 BLUE MOON. All-America Winner. Flowers are large, double, deep lavender-blue, produced on long stems; ideal for cutting. Blossoms are composed of broad, heavy, waxy petals, built up in a beehive shape. 42 inches tall. Pkt., 15c; ½ oz., 45c.
- 2127 LOVELINESS. Large light pink. Pkt., 10c; 1/4 oz., 30c.
- 2128 Rosette. A large, beautiful deep rose flower, borne on long stems. Blooms all summer. Pkt., 15c; 1/4 oz., 45c.
- 2129 SHASTA IMPROVED. Large pure white. Pkt., 10c; 1/4 oz., 30c.

Scarlet Runner Bean

1274 EMPEROR. Has attractive pea-like flowers of a brilliant scarlet that are followed by an abundant crop of beans that can be eaten. Annual. Climber. Height, 10 feet. Ptt., 10c; 1/4 lb., 15c; 1 lb., 45c.

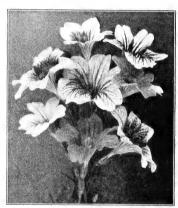

Schizanthus - Butterfly Flower

Begins to flower early, producing small butterfly-like flowers which completely cover the plant. Annual. Height, $1\frac{1}{2}$ feet.

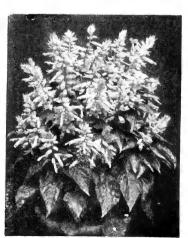

2144 SUNSET MIXED. A quick growing plant completely covered with small, butterfly-like flowers in all colors. Pkt., 10c; 1/4 oz., 45c.

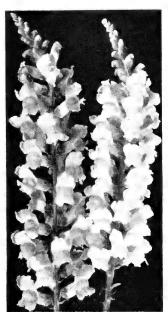

Scabiosa, Giant Hybrids Mixed

Salpialossis

Salvia, Blaze of Fire

Holmes' Super-Giant Snapdragons

Holmes' Everblooming Ten Week Stocks

Snapdragon - Antirrhinum

HOLMES' RUST-PROOF SUPER GIANTS

This is the most superb creation in Giant Snapdragons. The plants are very robust and form flower spikes of remarkable size and of the love-liest and softest tones. For cutting, these Snapdragons are unsurpassed. The long, graceful spikes will lend distinction to any settling. Bloom from July to frost. Annual. Height, 3 feet.

1110 APPLEBLOSSOM. Apple-blossom-pink.

1111 CANARY BIRD. Yellow.

1112 COPPER SHADES.

1114 RED CROSS. Rich crimson, white tubes.

1115 ALASKA. Pure white.

1117 LOVELINESS. Soft rose-pink.

1118 Holmes' Super Giant-Flowered Mixed.

Any of the above colors: Pkt., 15c; 1/8 oz., 60c; 1/4 oz., \$1.00.

New Half Tall Snapdragon

Rust-proof. Height about 20 inches. Best for bedding.

1130 New Giant Colors Mixed.

Pkt., 10c; 1/8 oz., 50c; 1/4 oz., 65c.

1100 ROSALIE. All-America Award. This rust-resistant variety is of topaz-rose or intense rose-pink with deeper center of gold suffusion, We believe this to be the finest cut flower variety so far produced. Is very vigorous, with long stems. Excellent for florist and most popular for garden. Pkt., 15c.

Snow-on-the-Mountain - Euphorbia

1616 VARIEGATA. Attractive foliage, veined and margined with white. Useful for beds and to cut and mix in bouquets. Annual, Height, 2 feet. Pkt., 10c; 1/4 oz., 25c; oz., 60c.

Statice - Sea Lavender

Statice has become quite popular, the flowers being used by the leading florists. The annual sorts can be dried and used for winter bouquets. Grow in warm, light soil. Height 3 feet.

2137 BONDUELLI. Bright yellow. Pkt., 10c; 1/4 oz., 20c.

2138 SINUATA MARKET GROWERS BLUE. Deepest blue; large full heads. Pkt., 10c; 1/4 oz., 20c.

2139 SINUATA ROSEA. Pkt., 10c; 1/4 oz., 20c.

2140 SINUATA SNOWITCH. Best white. Pkt., 10c; 1/4 oz., 20c.

2146 SINUATA MIXED. Pkt., 10c; 1/4 oz., 20c.

Stocks - Gilliflower

GIANT IMPERIAL (Bismarck). Earlier than others, not inclined to branch so freely, better for close planting. Considered the most valuable group of Stocks for cut flowers in greenhouse and outdoor use. Bloom from July to frost. Annual. Height, 21/2 feet.

2161 ROSE. 2162 ROYAL PURPLE. 2167 LILAC.

2169 SHASTA. Giant white. 2166 BUTTERCUP. Deep yellow.

2170 Mixed, All Colors.

Any color: Pkt., 15c; 1/8 oz., 50c; oz., \$3.00.

Stocks, Dwarf Double Ten Week

2173 Holmes' Everblooming Mixed. Will flower all summer from seed sown outdoors about May 10th. The plants are of branching habit, with a large percentage of large, double flowers. Do not sow Stocks in very rich soil, and they need the full sunlight. Height 15 inches. Pkt., 10c; 1/8 oz., 40c.

Strawflower - Helichrysum

These are the largest and showiest of the Everlastings. Cut the blooms before they are open; even the small, undeveloped buds will open when dried. Annual. Height, 2 feet.

1679 DOUBLE LARGE-FLOWERING MIXED.

Pkt., 10c; 1/4 oz., 25c; oz., 75c.

SUMMER CYPRESS. (See Kochia).

Sunflower - Helianthus

The larger varieties are very ornamental and useful for backgrounds or for distant effects, while the smaller sorts are for cutting. Annual. 2192 CHRYSANTHEMUM-FLOWERED. Rich golden yellow flowers, very double. Height, 7 feet. Pkt., 10c; ½ oz., 20c; oz., 35c.

2195 MINIATURE (Cucumerifolius). Charming small flowers, rich golden yellow with brown-black center. Valuable for cutting and garden display. Height, 5 feet. Pkt., 10c; 1/4 oz., 25c; oz., 70c.

2200 RED HYBRIDS (The Red Sunflower). Flowers vary in color from a rich chestnut-red to red bordered with yellow. Height, I feet. Pkt., 10c; 1/4 oz., 25c; oz., 70c.

Fragrant Sweet Peas

HOLMES' ORCHID-FLOWERED SPENCER

This list is recommended for garden cultivation by the National Sweet Pea Society. Inoculate Sweet Peas—packet, 100—treats up to 5 lbs. seed.

Price for the following sorts: Pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., \$2.25.

- 2401 AVALANCHE. Pure glistening white flower. Well waved.
- 2403 CHARMING. Bright glowing rosy cerise.
- 2411 FORTUNE. Rich dark blue.
- 2413 GLEN EAGLES. Very large; light blue, on long stems.
- 2425 PINKIE. Large rose-pink on long stems.
- 2415 PIRATE GOLD. A glowing orange shaded with gold.
- 2433 POWERSCOURT. A pure lavender of large size.
- 2427 REFLECTION. Large bloom of rich, clear blue.
- 2409 RUBICUND. A beautiful true crimson-scarlet. 2429 WARRIOR. A rich velvety maroon.

Holmes' Rainbow Spencer Mixed Sweet Peas

2460 This is a variety having flowers of extraordinary size, usually measuring two inches across, with wide-spreading wings. They are borne usually in fours, on long, strong stems, making them fine for cutting. They come in all the rich and varied shades imaginable, a truly royal rainbow shower of colors. They are of rapid and strong growth, and stand up well after cutting. You will not be disappointed in Holmes' Rainbow Spencers.

Pkt., 10c; cx., 20c; ½ 1b., 60c; 1b., \$2.00, postpaid.

Holmes' Giant Ruffled Mixed Sweet Peas

2465. Most beautiful of all, This outstanding mixture contains all the named marvelous Giant Rufiled varieties. Sure to make a glorious display and yield quantities of long-stemmed, extra large, prettily rufiled and frilled flowers for cutting. Pkt., 15c; ½ oz., 25c; oz., 40c; ¼ 1b., 81.25.

Holmes' Early Flowering Spencer Sweet Peas

When sown at the same time as Spencer Sweet Peas they will commence blooming ten days to two weeks earlier. Sowing them in combination with Spencers you will have a longer flowering season.

2510 HOLMES' BEST EARLY MIXED. A complete blend of all colors. "Just a little bit better." Pkt., 10c; oz., 35c; 1/4 lb., \$1.00.

SWEET SULTAN. (See Centaurea). SWEET WIVELSFIELD. (See Dianthus).

Thunbergia - Black-Eyed Susan

2230 MIXED. A lovely trailing vine with showy flowers. Suitable for hanging baskets, porch boxes, very effective, especially in rockeries. Annual. Height 6 feet. PKr. 100; ½ oz., 300; oz., 900.

Venidium Fastucsum

2238 HYBELDS MIXED. A magnificent species from South Africa. A daisy-like flower of brilliant orange, with maroon center, long serrated leaves, excellent for sunny border. Sow seed in March or April as germination is difficult if started earlier. Annual. 2½ feet. Pkt., 200; ½ oz., \$1.00.

Verbenas

A magnificent new strain of robust, compact habit and very free blooming. The trusses are immense, the individual flower almost covers a 50-cent plece. Height, 18 Inches.

2254 Blue Sentinel. Rich royal blue, very compact, erect. Height, 10 inches. Pkt., 15c; 1/3 oz., 75c; 1/4 oz., \$1.25.

2252 FLORADALE BEAUTY. (All-America Award). Extra large flowers, salmon-rose shades. Pkt., 15c.

2250 Giant Salmon-Pink. Pkt., 15c.

2247 GIANT WHITE. Pure white, very fragrant. Pkt., 15c.

2248 ROYALE. Royal blue with a creamy yellow eye. Pkt., 15c.

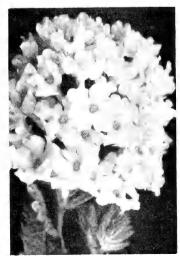

2255 ROYAL BOUQUET MIXED. Upright habit. Flowers very large and in many bright colors, making it a good cut flower variety. 15 inches. Pkt., 150; ½ 02., \$1.00.

2249 SPECTRUM RED. Extra bright rich scarlet, no eye. Large flowered. Award of Merit at Royal Horticultural Society. Pkt., 15c.

2253 GIANT FINEST MIXED. Pkt., 10c; 1/8 oz., 40c; 1/4 oz., 70c.

Holmes' Rainbow Spencer Sweet Peas

Giant Salmon-Pink Verbena

Dahlia-Flowered Zinnia

Fontasy Zinnia

Mexican (Haageana) Zinnia

Viola - Tufted Pansy

2275 FINEST MIXED. These are excellent for rockeries. Flowers are not as large as the regular type of Pansy, bloom more profusely and withstand hot, dry weather. Can be treated as a hardy perennial. Height, 8 inches. Pkt., 10c; ½ oz., 35c; ½ oz., 60c.

2286 CHANTREYLAND (Apricot). These delightful flowers may bloom for you all summer, the season running from April until frost. They are similar to pansies, but more dainty and refined, and hardy. They form beautiful clumps. They also serve for an everblooming border plant that is most satisfactory. No garden is quite complete without some of these lovely and dainty flowers. Pkt., 15c; 3/6 oz., \$1.00.

Giant Flowered Zinnias

These are the latest developments in Zinnias bearing MAMMOTH FLOWERS which present a graceful appearance. Carefully selected to give you all GIANT flowers of the most gorgeous colors with no duplicates

EASIEST TO GROW of all flowers. They can be sown in rows, in beds, along hedges, or among the perennials or bulbs. Just sow the seeds where they get the full sunlight. Don't sow outdoors until May. All Giant Zinnias should be at least 1 foot apart each way. All other varieties about 8 inches apart. Annual.

2311 BRIGHTNESS. Bright pink.

2353 CANARY BIRD. Rich deep yellow.

2352 CRIMSON MONARCH. Deepest crimson.

2356 EXQUISITE. Light rose, deep rose center.

2350 GOLDEN DAWN. Large, deep golden yellow.

2316 MISS WILLMOTT. Bright salmon-pink.

2358 ORIOLE. Exquisite combination of orange and gold.

2317 PURITY. A mammoth pure white,

2357 SCARLET FLAME. Beautiful bright scarlet.

2319 VICLET QUEEN. Giant rosy purple.

Price of any of above colors: Pkt., 10c; 1/4 oz., 50c; oz., \$1.75.

²³⁶⁵ Giant Dahlia-Flowered Gold Medal Mixture. This is an extraordinary mixture from all named varieties of the Giant Dahliaflowered Zinnias. Pkt., 15c; 1/4 oz., 50c; oz., \$1.50.

2396 All Giant Indian Summer Mixture. Large flowers of improved strains. A super cut flower blended with bright colors. Pkt., 10c; ¼ oz., 30c; oz., 90c; ¼ 1b., \$3.00.

2320 California Giant Mixture. They are larger than the Colossal. The petals are decidedly imbricated and the flower from bud to full bloom presents a graceful appearance. They bear freely on long, strong stems. Semi-globular, very double flowers. Pkt., 10c; 1/4 oz., 50c; oz., \$1.50.

2381 Fantasy Mixed. The ragged shaggy petals of unique colors are fascinating. Grow 2 feet tall with good stem for cutting. Becoming very popular. Pit., 10c; ¾ 0z., 50c.

2398 Cut-and-Come-Again Mixture. You will like this mixture. They grow about 2 feet tall and it does seem as if the more flowers you pick the more there are left. They are unusual and attractive. Pkt., 10c; 1/4 oz., 30c; oz., \$1.00.

2395 Scabiosa-Flowered Autumn Tints Mixed. This strain is perfect in form of flower and comes true. The lovely colors range through all the gorgeous autumn foliage tints. Pkt., 15c; 1/4 oz., 50c.

2390 Mexican Double Hybrids, Haageana. Flowers small and showy, daisy-like in form in various shades of brown and orange. Ideal bedding plant. Height, 16 inches. Pkt., 10c; ¼ oz., 50c.

Lilliput Double Pompon or Baby Zinnias

A very pretty type of compact habit, bearing freely small densely double flowers; keep well above the foliage. Makes a good line or bed and very satisfactory for cutting. Annual. Height, 15 inches.

2371 GOLDEN GEM.

2375 SALMON GEM.

2372 PURPLE GEM.

2377 WHITE GEM.

2373 ROSE GEM. Rose-pink.

2374 SCARLET GEM.

2370 Holmes' Mixture. An unusually good mixture of all colors. Each of the above: Pkt., 10c; 1/4 oz., 30c; 1/2 oz., 50c; oz., 90c.

2300 GRANDMA'S OLD FASHIONED PLOWER GARDEN. This is a well balanced mixture of hardy annuals, suitable for planting in odd corners or vacant lots. Will give a continuous succession of cut flowers, beautiful and fragrant, from early summer to late fall. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50.

SEED OF HOLMES' HARDY

Perennial Flowers

Alyssum

1084 SAXATILE COMPACTUM (Gold Dust). Dense heads of brilliant golden yellow flowers. Blooms early in spring. Perennial. Height, 12 inches. Pkt., 10c; 1/4 oz., 40c; oz., \$1.50.

Anchusa - Alkanet

1094 ITALICA LISSADEL. Flowers intense gentian-blue. Invaluable for the hardy border. Blooms from June to August, Perennial, Height, 5 feet. Pkt., 10c; 1/4 oz., 30c; oz., \$1.00.

Aquilegia - Columbine

Known to everyone. They are not difficult to grow from seed if you is tremember that they take about three weeks to germinate and do not stop watering at the end of two weeks. You will find there are a great many different colors. Why not try a new kind each year? Height, 3 feet.

1132 Blue Shades (New). The finest strain, the result of years of selecting. A new large long-spurred blue and white Rocky Mountain Columbine that will grow and live in your garden. Pkt., 15c.

1133 Pink Shades. Very distinctive. Huge flowers on fine plants.

Pkt., 15c.

1134 MBS. SCOTT ELLIOTT'S STRAIN MIXED. The blooms are large, with very long spurs and range in color through shades of lavender, mauve, blue purp's cream, yellow, rink and red, making beautiful group harmonics. Pkt., 25c; ½ oz., 85c.

1135 Holmes' Majestic Long-Spurred Hybrids Mixed. We claim this strain to be superior to others, as it contains colors possessed by no other strain. Pkt., 10c; 1/8 oz., 45c; 1/4 oz., 85c.

Arabis - White Rock Cress

1140 ALPINA. This flower, like the dwarf phlox, produces an attractive blanket or mass effect. Is suitable for rock gardens. As a border plant it is most showy. Easily grown from seed, and lasts for years. 12 inches. Pkt., 10c; ½, oz., 25c.

Asters, Hardy Alpinus

1268 MIXED. A fine blend of blue and white sorts. Excellent for edging or the rock garden. Bloom during May and June. Height, 12 inches Pkt., 10c; 1/8 oz., 75c.

Aubrietia - Purple Rock Cress

1270 LARGE-FLOWERING HYBRIDS. Low, creeping, gray-foliaged plants. Lavender to purple flowers. Very early. 6 to 8 inches. Pkt., 20c 1/8 oz., \$1.00.

BABYS BREATH. (See Gypsophila).

Bellis Perennis - Double English Daisies

1279 GIANT DOUBLE MIXED. Small double rose, red and white flowers on low plants. Prefers partial shade and usually sown same as pansies. Fine for borders and rock gardens. Height, 6 inches. Pkt., 20c; 1/8 oz, 60c.

Candytuft - Iberis

1343 GIBRALTARICA. It is very showy; the clusters of white flowers are tinted rose-lavender. Blooms from April to June. Perennial. Height, 12 inches. Pkt., 10c; 1/8 oz., 30c; 1/4 oz., 50c.

Campanula - Canterbury Bells

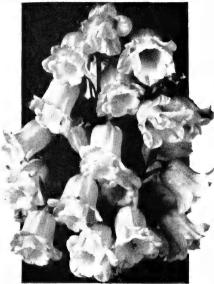

There is hardly a group of flowers which possesses such rare beauty as does the large genus of Campanula. Bloom during June and July.

1320 CALYCANTHEMA MIXED (Cup and Saucer). Perhaps the most showy and satisfactory of the whole group. The flowers are very large, in lovely white, pink, blue and deep purple. The stalks of blooms are about 3 feet tall. Pkt., 10c; ½ 02., 60c.

1315 DOUBLE SPECIAL MIXTURE. One bell is set within another, making the flower last longer. Height, 3 feet. Pkt., 10c; 1/4 oz., 40c.

Centaurea - Hardy Cornflower

1406 MONTANA BLUE. Numerous large deep blue flowers somewhat resembling the annual Cornflower. Flowers from June to September. Height, 2 feet. Pkt., 10c; 1/4 oz., 40c.

Campanula, Cup and Saucer

Aquilegia, Holmes' Majestic Hybrids

Cheiranthus Allioni - Siberian Wallflower

1412 Golden Bedder. A beautiful rock plant. Dazzling golden yellow flowers, flowering freely through the summer from seed sown in spring Biennial. Height, 18 inches. Pkt., 10c; ¼ oz., 35c.

CHINESE LANTERN. (See Physalis).

COLUMBINE. (See Aquilegia).

Coreopsis

The yellow flowers are like masses of gold; popular and attractive. Excellent cut flowers on account of their long, wiry stems; showy in borders. Blooms through the summer. Easy to grow from seed in any soil.

1456 Double Sunburst. (New Gold.) Very uniformly semi-double. Long-stemmed, golden yellow. Height 3 feet. Pkt., 10c; ½ oz., 75c.

Cowslip - Primula Veris

1480 MIXED. Spring flowering plant. Beautiful color, rich brown, crimson and yellow. Fine for borders. Fragrant. Perennial. Height, 10 inches. Pkt., 15c.

DAISY. (See Bellis).

Daisy, Shasta

1420 ALASKA. The best Shasta Daisy as originated by Luther Burbank. A fine plant, bearing large, white single blossoms, with yellow centers; an excellent cut flower. Soak seed in warm water before sowing. Height, 2½ feet. Pkt., 10c; ½ oz., 25c.

1422 DIENER'S GIANT DOUBLE WHITE. New. This flower will give you a real thrill. The flowers will probably be somewhat variable; many unusually fine specimens of double fringed, curled and quilled petals. Flowers large and carried on long stems. Height, 2½ feet. Pkt., 25c; 1/16 oz., \$1.25.

Delphinium - Hardy Larkspur

The Charm of the Garden. You can depend on our seed to produce results if properly sown and cared for, as our seed is all fresh new crop seed. No old seed is ever used. By putting seed in a refrigerator for 24 to 48 hours, you will hasten germination.

1507 Holmes' Majestic Hybrids. These are truly a charm of all the plants growing in your garden. It is only a few years since this strain of hybrids was introduced to the gardening world, and already it has been acclaimed not only by enthusiastic amateurs, but also by experts as the most prominent strain. Holmes' Majestic Hybrids produce large flowers in all shades. This is a true show strain of many colors. Pkt., 250; ½ 02., 850; ½ 02., \$1.50.

1501 BELLADONNA IMPROVED. The clear light blue flower is beautiful, with slender, graceful spikes. Pkt., 15c; ½ oz., 50c.

1502 BELLAMOSUM IMPROVED. A rich dark blue of same form as Belladonna. Pkt., 15c; 1/2 oz., 50c.

1508 Wrexham Hollyhock Mixed. New giant flowered strain of superior quality. Flowers in blue, pink and white combinations. Many double. Pkt., 35c; 1/2 oz., 81.25.

1504 BLACKMORE AND LANGDON STRAIN, A standard English strain which has always been the best. Pkt., 25: 14 oz., 51.25.

Delphinium, Pacific Giants

The finest of all Delphiniums. The enormous double flowers are beautifully placed on tall, stately spikes which reach to truly great heights. The plants are extremely resistant to mildew. These magnificent hybrids are sure to create enthusiasm wherever seen, 5 to 6 feet.

1513 BLUE BIRD SERIES. True blue.

1511 GALAHAD SERIES. Glistening white.

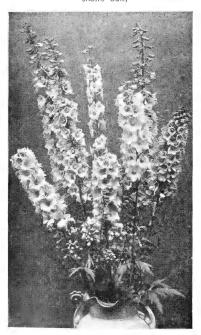

1512 GUINEVERE SERIES. Clear pink-lavender, white bee.

1510 ROUND TABLE SERIES. A wonderful mixture comprising all of the above series together with many new color developments. Price, any of the above varieties: Pkt., 35c; 1/32 oz., \$1.00.

DIANTHUS BAREATUS. (See Sweet William).

Shasta Daisy

Delphinium, Holmes' Majestic Hybrids

SEED OF HARDY PERENNIAL PLOWERS-Continued

Dianthus - Hardy Garden Pinks

The hardy Pinks, with their refreshing, spicy clove fragrance, are charming in any garden. They bloom during May and June and adapt themselves in most situations.

1550 PLUMARIUS DOUBLE MIXED. Many shades of beautiful sweet-scented flowers. Spreads rapidly. 1 ft. Pkt., 10c; ½ 0z., 60c.

1556 ALLWOODI ALPINUS. Flowers first year from seed. The largest flowered strain of the dwarf pinks, Blooms all summer in many colors. A gem for the rock garden, 4 to 6 inches, Pkt., 15c; 1/16 oz., 45c,

Digitalis - Foxglove

They are easy to grow in sun or shade if you can but keep them alive during the first winter. This requires good drainage and possibly shading with a basket, excelsior or cornstalks. They give a wonderful range of color. Blooms during June and July. 4 to 5 feet tall.

1570 HOLMES' SUPERB MIXED. All colors. Pkt., 10c; 1/4 oz., 35c.

1573 SHIRLEY MIXED. Very large spotted flowers. Long spikes. Pkt., 15c; $\frac{1}{18}$ oz., 30c; $\frac{1}{14}$ oz., 50c.

Forget-Me-Not - Myosotis

1862 PALUSTRIS SEMPERFLORENS. True everblooming hardy blue Forget-me-not for moist places. 12 inches. Pkt., 10c: 1/4 oz., 60c.

FOXGLOVE, (See Digitalis.)

Gaillardia

1630 BURGUNDY. Large wine-red flowers on long stiff stems on bushy plants. 2 feet. Pkt., 15c; 1/4 oz., 75c.

1626 DAZZLEB. This showy perennial deserves a place in all gardens. It will give you many brilliant flowers all summer. The flowers are large, of clear bright golden yellow with rich maroon-red center. 2 feet. Pkt., 100; 1/4 0z., 50c.

Geum - The Rose of the Rockery

Beautiful, hardy, bearing profusely large, showy, double flowers all through the summer; fine for bouquets. Blooms from June to September. Perennial, 2 feet.

1637 LADY STRATHEDEN. Large, double-flowering, golden yellow. Pkt., 15c; 1/8 oz., 60c.

1638 MRS. BRADSHAW. Large, double, brilliant red. Splendid for cutting. Pkt., 15c; ½ oz., 60c.

1636 Prince of Orange. (New). Bright golden orange. Excellent grower. Pkt., 25c; 1/16 oz., 60c.

Gypsophila - Hardy Baby's Breath

1662 PANICULATA SINGLE, Has masses of tiny white flowers on bushy plants in July and August. Effective for bouquets or borders. 2 feet. Pkt., 10c; 1/4 oz., 25c.

1663 PANICULATA DOUBLE. This double white rosette-like flower is dried for florist use in winter bouquets. 2 feet. Pkt., 20c; 1/8 oz., \$1.00.

Heuchera - Coralbells

1687 SANGUINEA HYBRIDS MIXED. These dainty flowers bloom in May and June. They are beautiful both in rockery and in the border. They do well in partial shade. There is a growing interest in this group of dainty flowers. 2½ feet. Ptt., 250; ¾ 02., \$1.25.

Hollyhocks

One of the showlest of hardy garden plants. Their stately beauty adds dignity to the smallest garden plot, and their bright colors bring cheer on the dullest days. Blooms August and September. Height, 5 to 6 feet.

1699 GIANT DOUBLE MIXED. Pkt., 10c; 1/4 oz., 40c; oz., \$1.00.

NEW ANNUAL HOLLYHOCK. (See page 48.)

Honesty - Lunaria

1705 MONEY PLANT. Flowers purple followed by flat, silvery seed pods, prized for winter decoration. Pretty and different from anything else. Blennial. Height, 2 feet. Pkt., 10c; ¼ 0z., 30c.

IBERIS, (See Candytuft.)

Kudzu Vine - Pueraria Thunbergiana

1735 JACK-AND-THE-BEANSTALK. Flourishes where nothing else will grow. The large bold leaves of the brightest green afford a dense shade. Purplish violet Wisteria-like flowers. Its greatest feature is its wonderful, strong growth. Height, 40 feet. Pkt., 10c; 1/4 oz., 20c; oz., 50c.

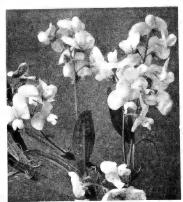

Honesty or Money Plant

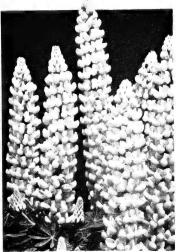

Dianthus Double Mixed

Gaillardia, Dazzler

Lathyrus, Hardy Sweet Peas

Holmes' Supreme Mixture Lupinus

Oriental Poppies

SEED OF HARDY PERENNIAL FLOWERS-Continued

Lathyrus Latifolius - Hardy Sweet Pea

1745 FINEST MIXED. These climb 6 to 8 feet high when trained on a trellis; the flowers are borne in large clusters. They are peculiarly adapted to rough places, to scramble over rocks and bushes. Blooms all summer. Pkt., 10c; 1/4 oz., 30c; oz., 85c.

Lavandula Vera

1767 SWEET LAVENDER. Neat compact plants with lavender flowers and fragrant foliage often dried for winter use. 2 feet. Pkt., 10c; 1/4 oz., 50c.

Liatris Pycnostachya

1773 KANSAS GAY FEATHER (Blazing Star). Rich purple flower spikes, excellent to use as a dried cut flower in winter bouquets. It does not shatter, the color remains bright. It is a different addition to the list of cut flowers, useful for winter decoration. Blooms from July to September. Cut when the spikes are at their best. 4 feet. Pkt., 10c; 1/8 oz., 65c.

Lilium

1770 PHILIPPINENSE FORMOSANUM. Pure white, it bears on slender leafy stem many long white trumpet-shaped flowers slightly marked inside, reddish brown. It blooms from seed the first year if sown early. Height 2 feet. Pkt., 25c.

Linum - Flax

1774 PERENNE. Beautiful light blue flowers from May to September on plants 1½ to 2 feet tall. Pkt., 10c; ¼ oz., 25c.

LUNARIA. (See Honesty.)

Lupinus

A showy hardy perennial. Graceful long spikes, Flowers borne from June until September. Excellent for cutting. Seed sown outdoors any time from May to August will start flowering the next June. Lupin plants do not like to be disturbed and they need well-drained soil. 3 feet.

> To insure success with Lupins, treat your seed with Inoculation. Pkg., 10c.

1790 MIXED. All colors. Pkt., 10c; 1/2 oz., 40c.

1796 Holmes' Supreme Mixture. Truly royal in their splendor. It contains a great variety of colors, including the rare pink, buff, bronzy tones and reds. Pkt., 10c; ½ oz., 45c; oz., \$1.20.
1798 RUSSELL MIXTURE. Flower spike is of mammoth size with

flowers rich in coloring. Has been the center of attraction wherever shown. Pkt., 20c; 1/8 oz., 65c.

Lychnis - Maltese Cross

1800 CHALCEDONICA. A tall, loose-flowering plant, with immense heads of scarlet flowers. This is one of the most brilliant of old-fashioned flowers for bedding or borders. Flower during June and July. Height 2 feet. Pkt., 10c; ½ oz., 25c.

Matricaria Capensis - Feverfew

1835 BALL'S DOUBLE WHITE. Since this strain was introduced the demand has constantly increased for outdoor and greenhouse out flowers. Differs from ordinary strain in having smaller and more compact double flowers which hold up much better. Pkt., 10c.

1836 DOUBLE GOLDEN BALL. Beautiful hardy plant of compact habit, suitable for beds or borders with very striking double golden yellow flowers during the summer. 1 ft. Pkt., 10c; 1/8 oz., 50c.

Pentstemon - Beard Tongue

1945 SENSATION. Attractive for the hardy border. Every branch bears a spike of large gloxinia-like flowers in a very wide range of rich, bright colors. Blooms all summer. Height, 2 feet, Pkt., 15c; 1/8 oz., 75c.

Phlox

2000 PHLOX DECUSSATA (Hardy Phlox). Brilliantly colored flowers in summer and fall. Seeds germinate slowly. $2\,\%$ ft. Pkt., 25c.

Physalis - Chinese Lantern

2005 FBANCHETI. Attractive orange-red balloon-like pods; fine for winter bouquets. Height, 2 feet. Pkt., 10c; ¼ oz., 40c.

Oriental Poppies

The Most Majestic of All June Flowers

When the mammoth rich red Oriental Poppies are in bloom they are the most outstanding flowers in the garden, and once planted they will live for years, getting larger and better each year if given room and kept fertilized. 2 to 3 feet.

2040 ORIENTALE (True). Deep crimson. 2042 MRS. PERRY. Fine salmon-pink.

2041 NEW HYBRIDS. Includes many bright shades,

Any Color: Pkt., 10c; 1/8 oz., 60c.

Poppies, Iceland

2045 SANDFORD'S GIANTS MIXED. New species varying in color which are very striking. The flowers are immense, and the stems the longest. 30 inches. Pkt., 15c; ½ oz., 50c.

Primrose - Polyanthus

2065 HOLMES' SUPERIOR MIXTURE. Immense flowers including new and unusual colors. A clump of yellow Primrose is very outstanding. More gardeners are coming to appreciate the possibilities of the Primrose which grows best in partial shade; the north or east side of the house makes the most desirable place for such a planting. Pitt. 25c.

PRIMULA VERIS. (See Cowslip.)

Pyrethrum - Painted Daisy

Valuable hardy garden plants with large single or double flowers 3 to 4 inches across, all colors freely borne on long stems; excellent for cutting. Bloom in May and again in the fall. 2 feet.

2083 SINGLE MIXED. Selected from a splendid collection. Pkt., 10c; 1/4 oz., 60c.

2084 Robinson's New Hybrids. This is, by far, the finest Pyrethrum (Painted Daisy) we have ever seen. The flowers are much larger with more and broader petals. The plant is more robust and the stems are longer and stiffer. Excellent for bouquets as the flowers are held upright and do not droop even after they are cut. The colors are red and pink. Fkt., 20c; ½ oz., 65c; ½ oz., \$1.25.

2085 FINEST DOUBLE MIXED. Flowers range from the palest pink to deep red, the bright yellow centers forming a lovely contrast. Excellent for cut flowers. Pkt., 250; 1/4 02., \$1.45.

RED HOT POKER. (See Tritoma.)

Salvia

2123 BLUE BEDDER (Farinacea). Blooms from July to frost. Of compact form, with deep blue flowers borne on long spikes held well above the foliage; makes a good blue line. Excellent for bedding. 3 feet. Pkt., 200.

Scabiosa

2135 CAUCASICA (House's Hybrids). (Blue Bonnet). We recommend "Hardy Scabiosa" as one of the best hardy flowers for cutting. The shapely dark blue to lavender flowers, 2 to 4 inches across, are on long graceful stems, and last several days in water. The plants bloom all summer. 2 feet. Pkt., 20c; ½ oz., 75c.

SHASTA DAISY. (See Daisy.)

SIBERIAN WALLFLOWER. (See Cheiranthus.)

Statice - Sea Lavender

2142 LATIFOLIA. Small purplish-blue flowers, easily dried for winter bouquets. Excellent for borders or rockeries. Blooms during July and August. 2 feet. Pkt., 10c; ½ oz., 30c; ½ oz., 50c.

Sweet William - Dianthus Barbatus

Showy hardy flowers of easy culture; splendid for beds and borders with their rich varied flowers. Biennials. Height, 1½ feet.

2215 Giant Double-Flowering Mixed. Pkt., 10c; 1/4 oz., 30c; oz., \$1.

2217 NEWPORT PINK. A beautiful salmon-pink. This is a most pleasing color. Pkt., 10c; 1/4 oz., 35c.

2219 SCARLET BEAUTY. Rich deep scarlet; makes a great blaze of color. Pkt., 10c; ¼ oz., 35c.

1553 EVERBLOOMING SWEET WILLIAM. Flowers much like a double red carnation. The plants grow 18 inches tall, are hardy, and are constantly in bloom. Pkt., 100; 1/4 02., 400.

2221 Midget. Dwarf double compact plants. Large bright flowers.

Recommended for borders, rockeries. 3 to 4 inches high. Pkt., 25c.

Sweet Rocket - Hesperis

2210 MIXED. Old-fashioned garden plant known as "Dame's Rocket," Grows 2 feet high, and bears spikes of showy lilac, purple and white. sweet-scented flowers during the summer. Excellent for the garden and for cutting. Hardy. Pkt., 10c; 1/4 oz., 20c; 1 oz., 60c.

Tritoma - Red Hot Poker

2235 HYBRIDA MIXED. Very handsome and showy plant, excellent for cutting. Blooms first year. 3 feet. Pkt., 15c; 1/4 oz., 50c.

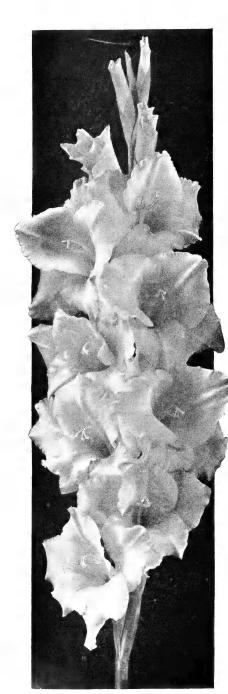

Robinson's Pyrethrum

Sweet William

Tritoma-Red Hot Poker

The new Gladioli are superior in every respect. This one is Picardy, a beautiful shrimp-pink

Gladioli

Holmes' Gold Medal Varieties

Every precaution on our part has been taken to deliver to our customers bulbs free of Thrip. To this effect all our planting is treated but to be sure that they are absolutely free of Thrip, our bulbs are fumigated at intervals during the winter. Whatever you buy from us is free of Thrip.

BETTY NUTHALL. Beautiful coral-pink with shading of yellow. Tall and graceful stems. Most bulbs throw two spikes. 5c each; 50c per doz.; \$3.00 per 100.

CHAS. DICKENS. Midseason. Bright violet-purple with velvety blotch. Tall spikes with many well-placed florets. You will like it. 6c each; 60c per doz.; \$4.00 per 100.

COMMANDER KOEHL. Midsea on. Dark scarlet-red and probably the most desirable dark red available today. Wide open flowers which attract attention. 6c each; 60c per doz.; \$4.00 per 100.

DR. F. E. BENNETT. A vivid fiery scarlet, one of the finest red Gladioli ever sent out, Tall heavy spikes with many massive blooms. A prize winner, will stand up in the hottest weather. 6c each; 60c per doz.; \$4.00 per 100.

KASSEL. A bright attractive scarlet with no markings. Beautiful, well formed, large flowers. Excellent grower and a fine variety for cutting. 6c each; 60c per 40c.; \$4.00 per 100.

MAID OF ORLEANS. Outstanding pure white, tall, enormous flowers and straight stems. Many blooms and just a suggestion of the lily in form. 6c each; 60c per doz.; \$4.00 per 100.

MINUET. A beautiful clear lavender. Blooms open on a good strong stem. It is considered by experienced growers as the last word in light lavender Gladioli. 6c each; 60c per doz.; \$4.00 per 100.

MISS ALAMEDA, Early midseason. Deep salmon-pink with distinctive carmine blotch. Six or more large florets open at once and the spike carries eighteen or more buds and blooms.

8c each; 75c per doz.; \$5.00 per 100.

ORANGE WONDER. Very late. Clear, dark orange and fills a place in any complete list on account of both color and season. Sturdy, vigorous grower. 6c each; 60c per doz.; \$4.00 per 100.

PEGGY LOU. New. Light rosy pink. Large flowers, Called a "Sister of Pleardy." Very vigorous and has won many prizes at recent exhibitions. 3c each; 75c per doz.; \$5.00 per 100.

PICARDY. Late. Soft shrimp-pink, clear and clean, with a blotch of light flesh-pink which blends back into the main color. Seven to ten open florets which measure 6 inches across on a tall strong spike. A perfect color, a giant in size, and the most sensational variety in recent years, 5c each; 50c per doz., \$3.00 per 100.

PRIMROSE PRINCESS. Late. Very large primrose-yellow. Five to seven blooms open at one time. Considered the leading light yellow. 5c each; 50c per doz.; \$3.00 per 100.

TROUBADOUR. Late midseason. Bright glistening violet-purple with long spike. Many open flowers. A rich, vivid color that is new in Gladioli. 6c each; 60c per doz.; 84.00 per 100.

VEILCHENBLAU. Finest large dark velvet-blue flower of the Gladiolus that grows. Five feet tall, stem erect, flowers are well-placed on the stem. Even the very last top flower opens up in its true color. 6c each; 60c per dcz.; \$4.00 per 100.

Holmes' "Rainbow" Mixture

An unexcelled blend of the largest number of fine and distinct and newer varieties of Gladioli. This is a specialty of ours and not to be compared with ordinary mixtures. Selected bulbs.

50c per doz.; \$3.00 per 100; \$25.00 per 1000.

Holmes' "Blue Ribbon" Mixture

They include almost every shade of cream, pink, salmon-pink, blush, rose, lavender-pink, bright red, searlet and crimson. Immense flowers. 35c per doz.; postpaid. By express, not prepaid, 50 for \$1.00; 100 for \$1.75; 250 for \$4.00; 500 for \$7.50; 1000 for \$14.00.

The U. S. Department of Agriculture recommends, after plants have reached 6 inches in height, weekly spraying with the following formula: ¼ lb. tartar emetic, l lb. brown sugar, 6 gallons of water, we will ship tartar emetic postpaid, for ½ 1b., 35c; lb., \$1.00.

They are not particular as to soil, although they do best in a sunny. well-drained situation. Plant the roots any time after danger from frost is past. They bloom from early summer until fall.

Delivery-March to May

Pair

KNEE PADS of bubble-filled rubber, strong, light, flexible, washable, moisture-proof. Quickly snap on and off. For greater garden comfort. A good gift for gardeners.

SUMMER FLOWERING BULBS

Tuberose

TUBEROSE

Delivery-February to May

Summer flowering bulbs with tall spikes of fragrant, waxy white flowers. Cut off dried roots and plant bulbs out in the open garden after danger of frost is over, when the ground has become warm. A light, sandy loam is best.

For early blooming, clean bulbs of all old roots and plant them singly in pots or spaced about 3 inches apart in boxes during March or April. Use a light, sandy loam.

DOUELE PEARL. A popular variety producing tall spikes of fragrant, double white flowers. Each 10c; doz., 75c; 100 for \$5.00.

TIGRIDIA

(Mexican Shell Flower or Tiger Flower)

Delivery-March to May Richly colored flowers with curiously cupped centers which are blotched and spotted with colors

that contrast sharply with shades of the outer petals. striking and always excite interest and admiration. Tigridias are as easy to grow as gladiolus. Plant bulbs about 5 inches deep in any

good well drained good well drained during the flowering season. If faded flowers are removed the blooming season will be lengthened.

Mixed Colors Only. Doz., \$1.20; 100 for \$9.00.

OXALIS

Delivery-March to May

The summer-flowering Oxalis with their handsome clove-like foliage are excellent edging plants for beds or flower borders. They are also splendid for rock garden work and are very lovely when grown in hanging pots or flower boxes. Plant the bulbs about 2 inches deep in early May in any reasonably good garden soil. Give them plenty of water if the season is dry and they will bloom from early summer until frost.

Pure White Pink Crimson Mixed Colors Doz , 35c: 100 for \$2.00.

MADEIRA VINE

(Mignonette Vine)

Delivery-March to May An old-fashioned vine with an abundance of fleshy, heart-shaped leaves of a beautiful light green color. Bears graceful racemes of feathery white flowers, which give forth a rich fragrance. Plant 3 to t inches deep in good garden soil in late April or May, and allow to climb on a trellis, porch or arbor.

3 for 25c; dez., 90c; 25 for \$1.50.

Amaryllis

Gloxinia

GLOXINIA Delivery-January to March

Handsome summer and autumn blooming pot Ilandsome summer and autumn blooming pot plants with thick gray-green foliage and large tubular blooms of a velvety texture in a fine assortment of rich colors. They are excellent for growing on the porch during the warm summer months and in the house when the weather has become cool. The bulbs should be planted individually in pots from January through March. Strong flowering bulbs in separate colors:

separate colors: Red Blue Shades

Fink

White 35c each; 3 for \$1.00; doz, \$3.50.

CALLA ELLIOTTIANA

Delivery-January to May Large flowers of luminous golden yellow with dark green foliage, oddly marked with white They are excellent pot plants and extremely effective summer bedding plants. Height 2½ feet. Plant out when all danger of frost has passed. Does well in full shade. tremely

30c each: doz., \$3.00.

Bulbs Shipped Separately from Seed

Because of weather conditions during January, February and early March, we prefer to send out bulbs after March 20th except to customers in the South, to whom we ship at once, packed against freezing. Customers should open the package upon arrival and if bulbs can not be planted at once they should be placed in a dry and frostproof cellar until ready to plant.

AMARYLLIS

Giant American Hybrids

Delivery—January to March or in Autumn These should not be planted in the garden but should be grown as pot plants only. A wonderful strain of new Giant-flowered Amaryllis of freeflowering habit. The large flowers are composed of broad, well rounded, overlapping petals and range in color from crimson to orange-scarlet, light rose and white, in the richest self colorings and combinations of stripes and variegations. The large, strong bulbs we offer will throw erect, vigorous stems with from 4 to 6 blooms. Ex-tremely easy to grow. We offer these bulbs in choice mixed colors only.

Each 65c; doz., \$6.50.

AMARYLLIS HALLI

(Lycoris Squamigera)
The Hardy Amaryllis
Delivery—March and April or in Autumn

y—March and April or in Autumn
These plants are perfectly hardy
and the bulbs may be planted either
in the autumn or early in the spring.
They will grow in any reasonably
good garden soil and they should be
set about 4 inches deep. The leaves set about 4 inches deep. The leaves appear quite early in the spring and grow until July, when they ripen and die to the ground. Then in August, the flower buds spring up and grow rapidly to a height of 2 or 3 feet. These buds soon open into clusters of from 8 to 12 large lily-like flowers of a rosy lilac color. They are very handsome and always excite admira-

\$1.00 each: doz., \$10.00.

BEGONIAS

TUBEROUS-ROOTED

Recommended for Growing in Shady and Semi-Shady Places

Summer bedding and pot plants of spectacular beauty. The enormous single, frilled or double flowers are held well above the foliage, displaying a rich color range from scarlet to white, through shades of yellow, orange and pink. Start the bulbs indoors and put outdoors when the ground is warm. Highly recommended for moist soil in shady or half-shady place.

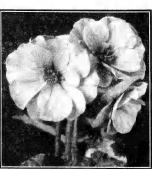

CAMELLIA-FLOWERED, A doubleflowering type, the blooms of which closely resemble Camellias in form and texture.

- WETTABLE SULPHUR. Controls apple scab with less danger of injury to foliage, or russeling of fruit. Controls peach brown rot and peach scab, cherry leaf spot, berry leaf spot, black spot, mildew and brown canker of the rose; also rusts of ornamentals. Can be used as dust or spray. For peach and cherry; 1 tablespoon to gallon of water; 5 to 6 lbs. to 50 gals. of water, For apples: 6 to 8 lbs. in 100 gals. of water. 1 lb., 25c; 5 lbs., 45c; 50 lbs., \$3.00.
- YELLOW CUPROCIDE. A superior fungicide spray that costs no more than Bordeaux. Better coverage and lasting protection. Controls damping-off and other crop diseases. Dilute 1½ lbs. to 100 gals. water. 3-lb. bag, \$1.50; case (48 lbs.), \$20.00.

Write for Prices on Larger Quantities.

Fertilizers

Prices are F.O.B. Canton, and are subject to change.

ADCO. Mix Adco with leaves, weeds, vines, clippings, cuttings, cornstalks, etc., and turn them into rich plant food. It's easy—anybody can do it. It's cheap—25 lbs. of Adco makes ½ to % of a ton of pure, clean manure. 7½ lbs., 85c; 25 lbs., \$2.00; 150 lbs., \$10.50.

ALUMINUM SULPHATE is used to sour the soil and is essential for Thododendrons, azaleas and laurels, as these are acid-loving plants. Use 1 lb. to 10 sq. ft. Used by growers for turning Hydrangeas blue. 1 lb., 15c; ii lbs., 40c; 10 lbs., 60c. Write for prices on larger lots.

BLOOD, DRIED. Excellent for evergreens and water lilies. 1 lb. to 4 bushels of soil.

5 lbs., 50c; 10 lbs., 90c; 25 lbs., \$1.75; 50 lbs., \$3.50; 100 lbs., \$5.50. BONE MEAL. Recommended especially for lawns, gardens and greenhouses.

5 lbs., 50c; 10 lbs., 85c. Write for prices on larger lots,

CATTLE OR COW MANUBE (Shredded). For garden, lawn and greenhouse and especially good to mix with compost. 100 lbs., \$3.00.

MILOEGANITE. Activated sludge fertilizer, free of weed seeds. Feeds over long period. 25 lbs., \$1.00; 50 lbs., \$1.65; 100 lbs., \$2.75.

NITRATE OF SODA. Supplies nitrogen to soil; very active, should be applied with a filler or as a liquid. 1 lb., 15c; 5 lbs., 45c; 10 lbs., 75c. Write for prices on larger lots.

SACCO PLANT POOD. Growing things respond quickly when given this excellent plant food. Clean and odorless.
1-lb. can, 10c; 5 lbs., 40c; 10 lbs., 70c; 25 lbs., \$1.40; 50 lbs., \$2.40;

100 lbs., \$3.50.

SHEEP MANURE, One of the most extensively used of animal manures. It is clean and easily handled besides giving immediate results. 5 lbs., 35c; 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00.

SULPHATE OF AMMONIA. A nitrogenous fertilizer for the lawn, garden, shrubs and house plants. 10 lbs. will fertilize a lawn 50x50 feet. 1 lb., 15c; 5 lbs., 40c; 10 lbs., 65c. Write for prices on larger lots.

NEW "OPEN-HED" SPRAYER

* Automatic Shut-Off Nozzle.

* 5-inch Open Top. * Electro-Welded Tank.

Easy to fill and clean. Seamless brass pump, 2 inches in diameter. Safety air release. Long-lived brass tank, capacity 4 gals., guaranteed for 100 lbs. pressure. Automatic shut-off with hold-open feature—eliminates continuous squeezing, 24-inch brass extension, 22 inches of %-inch, 5-ply hose; wide carrying strap. Adjustable small nozzle.

"Open-Hed" No. B—Brass tank; wt. 16 lbs. \$11.50 "Open-Hed" No. D—Galvanized tank;

wt. 12 lbs.

Gardenade

The Gardenade coma soft rubber hines kneeling pad and a convenient metal holder for small garden tools.

The two upright handles on the holder are designed so that you may lower or raise yourself with very little effort. Sturdily constructed, enameled green.

\$2.95, postpaid.

Germãco Hotkaps

New Method of Plant Protection

ROTEAPS guard plants against frost, wind, rain, insects, etc., by completely covering them. They maintain a perfect mulch around each plant. Crops give a $10\,\%$ to $25\,\%$ greater yield and mature 2 to 3 weeks earlier—for higher prices.

HOTKAPS are patented wax paper cones-placed over plants or seeds at time of planting. Inexpensive, easy to use. One man can set over 2,500 per day.

		Prices All Postpaid.
